Press Release

Afcons to build connecting Expressway for Jewar Airport & Underground Lucknow Metro

Secures EPC orders worth ₹3,469 crores

Mumbai: Afcons Infrastructure Ltd has secured two significant engineering, procurement and construction (EPC) contracts in Uttar Pradesh with a combined value of nearly ₹3,469 crore, reinforcing its strong position in the transportation and urban infrastructure segment. The projects comprise the development of the Jewar Link Expressway and a key underground section of the Lucknow Metro Phase-1B.

Mr Krishnamurthy Subramanian, Executive Chairman, Afcons, said, "The award of these prestigious projects reflects the confidence that leading infrastructure agencies place in Afcons' engineering capabilities and execution excellence. The Jewar Link Expressway and the Lucknow Metro underground corridor are transformative projects that will enhance mobility, support economic growth, and improve quality of life for millions of people across Uttar Pradesh and NCR."

Mr S Paramasivan, Managing Director, Afcons, said, "These wins further strengthen our order book and reinforce our commitment to delivering complex, nation-building infrastructure projects. With these two projects, the fresh orders secured in FY27 stands at ₹19,438 crores. We look forward to partnering with our clients to deliver these projects efficiently and create long-term value for all stakeholders."

The Uttar Pradesh Expressways Industrial Development Authority (UPEIDA) has awarded the contract, valued at approximately ₹2,086 crore (excluding GST), for the construction of the 24.5-km access-controlled Greenfield Jewar Link Expressway. The six-lane corridor, expandable to eight lanes, will connect the Noida International Airport at Jewar, creating an integrated high-speed transportation network across the state.

The expressway is expected to significantly enhance airport accessibility, reduce travel times, and improve logistics efficiency by linking two of Uttar Pradesh's most important expressway corridors - Yamuna Expressway and Ganga Expressway. The project will support regional economic development while strengthening connectivity for passengers and freight traffic across western and central Uttar Pradesh.

In addition, Afcons has received notice of award for a major contract from Uttar Pradesh Metro Rail Corporation (UPMRC) for the design and construction of a 6.52-km underground stretch under the Lucknow Metro Phase-1B project. The scope includes seven underground metro stations, associated civil and architectural works, utility systems, fire safety infrastructure, and connectivity between underground and elevated sections. The project value is approximately ₹1383 crore.

**About Afcons Infrastructure Ltd.**

Afcons Infrastructure Ltd is flagship infrastructure engineering and construction company of the Shapoorji Pallonji Group. It has a legacy of over six decades, with strong track record of executing numerous technologically complex EPC projects both within India and internationally. The company has a footprint in 31 countries across South Asia, Africa, Middle East, and CIS. As per the latest ENR survey, Afcons is ranked in Top 140 international Contractors globally; 12th in Bridges and 8th in Marine & Ports.
