SANL Deliver Robust Performance

May 28th, 2026, Jaipur: Shri Ahimsa Naturals Limited (SANL) – one of the world’s leading manufacturers of Caffeine Anhydrous Natural announced its result for the half year and full year ended on 31st March, 2026.

Standalone Performance Snapshot (YoY)

Full year ended March 31, 2026

Key Highlights:

Financial Update

- Revenue during FY26 stood at ₹ 123.3 Crs, up by 29% YoY, driven by robust volume growth of 20% in Natural Caffeine.
- Despite elevated freight cost EBITDA margin for FY26 stood strong at 29.1%, driven by marginal increase in contribution per kg.
- PAT for FY26 increased by 37% YoY, reflecting improvement in PAT margin
- Company’s balance sheet continued to remain strong with low debt and sound liquidity position.
- Debtors and inventory levels improved to 86 days and 193 days respectively as against 96 days and 214 days in FY25, with continued focus on further optimization
- Cash flow from operations stood at 12 Crs during the period

Capex Update

- In line with strong demand visibility and ongoing R&D progress, the Company has expanded the scope of its capex program. The revised capex now includes the addition of decaffeination plant, GCE enrichment plant, fungible manufacturing capacities for other high value botanical extracts, and increased automation, resulting in an extension of project timelines.
- The new integrated greenfield facility is expected to commence operations by March 2027.
- Our current manufacturing capacity of Natural caffeine is 270MTPA. As such, FY26 capacity utilization stood at 72% giving ample scope of incremental utilization to drive growth for FY27.
- To address the anticipated growth, Company has undertaken multiple process optimization initiatives at existing facility aimed at enhancing operational efficiency and seamlessly supporting the projected volume growth for the year.

Management’s Perspective:

Sharing his views on the performance, Nemi Chand Jain, Managing Director of SANL, said:

“We are pleased to report healthy growth in FY26, driven by strong volume expansion and improved realizations, which together contributed to robust revenue growth. We continue to witness strong demand for our core products across global markets, reflecting increasing recognition of our quality, reliability, and product consistency.

In line with our long-term growth strategy, we have also expanded the scope of our ongoing capex program to create an integrated manufacturing facility. The enhanced capex will strengthen our capabilities. The decaffeination facility, in particular, is expected to open new growth avenues and enhance our ability to cater to evolving customer requirements across global markets.
