LENDER SEES DEMAND EROSION FROM WEST ASIA TENSION

ECLGS 5.0: Kotak Bank gets more than 500 applications

KSHIPRA PETKAR
Mumbai, June 1

KOTAK MAHINDRA BANK has received over 500 applications under the government's Emergency Credit Line Guarantee Scheme (ECLGS) 5.0 as businesses seek to build liquidity buffers against disruptions arising from the ongoing conflict in West Asia, Shekhar Bhandari, head-SME at the bank said.

The applications received under ECLGS 5.0 have come from across sectors, with most borrowers seeking sanctions as a precaution rather than an immediate funding requirement. "Entrepreneurs are taking precautionary steps with ECLGS 5.0 rather than requiring money today," he said.

While lenders are yet to witness any deterioration in borrower behaviour, the impact of higher fuel prices, currency movements and rising input

BUILDING LIQUIDITY BUFFERS

■ Applications received have come from across sectors, with most borrowers seeking sanctions as a precaution rather than an immediate funding requirement

■ While banks are yet to see any deterioration in borrowers' behaviour, higher fuel prices and rising input costs could begin impacting businesses

■ Demand erosion of 4-4.5% for Q2 is estimated and erosion to the ongoing war is expected soon

■ The bank expects corporates, small businesses to be cautious if geopolitical uncertainties persist

costs could begin reflecting in business activity from the second quarter of the current financial year, he said. "Our general estimate is that you should see a demand erosion of 4-4.5% for Q2," Bhandari said, adding that the expected

According to him, rising costs could weigh on consumer spending and corporate profitability, leading to a more cautious operating environment for businesses.

Despite these concerns, banks have not seen any stress in cash flows or repayments so far. He said that any impact is likely to emerge with a lag.

Bhandari said FY26 was a healthy year for lending, with MSME credit growing by around 14%, but expects corporates and smaller businesses to become more cautious if geopolitical uncertainties persist. However, he does not foresee a significant rise in delinquencies, particularly in the organised MSME segment.

For the full year, Bhandari remains optimistic, saying any weakness in the first half could be offset if geopolitical tensions ease by August, allowing demand to recover in second half.

costs could begin reflecting in business activity from the second quarter of the current financial year, he said.

"Our general estimate is that you should see a demand erosion of 4-4.5% for Q2," Bhandari said, adding that the expected

a resolution to the conflict only after couple of months and not in the immediate term. Kotak Mahindra Bank's small and medium enterprise book grew 19% on year to ₹1.22 lakh crore as on March 31. The book forms 24% of the total advances.

FROM THE FRONT PAGE

Industrial output grows 4.9% in Apr

GROWTH MOMENTUM

THE ELECTRICITY GENERATION recorded a growth of 5.9% -18% from renewable sources and 2.8% from non-renewable sources. Aditi Nayak, chief economist at Ica, said the growth in three of the four sub-segments allied the fear of an immediate negative impact from the West Asia crisis. However, the sharp contraction of 11.2% in gas supply reflects the impact of the crisis.

Rajani Sinha, chief economist, CareEdge, said: "As sustained contraction in the mining & quarrying sector for the fourth month in a row capped the growth in the overall index. In terms of the use-based classification, production of capital and infra/construction goods continued to grow healthily by 16% and 7.1%, respectively in April. It remains encouraging to see the capital goods output recorded sustained double-digit growth for the sixth successive month."

Within the manufacturing sector, 17 out of 23 industry groups recorded positive growth in April, MoSPI said, adding that the top three positive contributors were motor vehicles, trailers and semi-trailers (12.7%), electrical equipment (19.2%) and

machinery and equipment (12.9%). "In the industry group manufacture of motor vehicles, trailers and semi-trailers, items and groups auto components, spare parts and accessories, passenger cars, and rim (Wheel) have shown significant contribution to growth," MoSPI said. The performance of the use-based segment also reflected strong growth barring primary goods, which grew just 0.8%. Intermediate goods posted 7.7% growth, consumer durables 4.3%, and consumer non-durables 2.8%.

Megha Arora, director, India Ratings and Research, said notwithstanding higher crude prices and the pass-through to consumers from May-May, India expects IIP growth to improve to 5.5% in May 2026 as the base effect will help maintain the growth momentum.

"Government's continued capex is likely to keep the growth momentum for capital goods and infrastructure/construction goods in FY27 as well, while electricity generation is expected to further accelerate in May due to increased demand amidst high summer temperatures. Power demand grew 11.5% in May 2026," Arora said.

For Air India, flight back home was the easy part

BUT OPERATIONAL RELIABILITY—delays, cancellations, aircraft sitting on the ground due to supply chain disruptions and parts shortages—continues to frustrate passengers and dent the brand. This isn't entirely unique to Air India; global aviation has been dealing with aerospace supply chain headaches for years. But for an airline trying to rebuild trust, every disruption costs more than that otherwise would.

attention from regulators, media and the public. Progress here is measured not just in financial metrics but in something harder to quantify: the ability to fly safely and reliably, consistently, at scale.

Leadership is also in transition at a critical moment. Outgoing CEO Campbell Wilson is credited with laying the foundation for Air India's revival—bringing strategic direction and operational discipline to a carrier that had neither. His successor inherits a business mid-transformation, which is arguably the most precarious point in any turnaround.

The risk isn't starting over; it's losing momentum. Continuity of execution will matter enormously in the years ahead. Even the investments that are clearly the right ones will take time to show results. The 570-aircraft fleet will eventually transform what it feels like to fly Air India. But deliveries are staggered across several years, meaning the airline must keep operating and refurbishing older planes in the interim.

Global aerospace bottlenecks could push timelines further, complicating fleet plans and network expansion and the financial projections that underpin the whole strategy. The honest assessment is that Air India was always going to take longer and cost more than the early optimism suggested. The scale of inherited problems—financial, operational, cultural—proved greater than many had anticipated. That isn't necessarily a failure of strategy. It may simply be the reality of what it takes to rescue a carrier that had been neglected for so long.

Global aerospace bottlenecks could push timelines further, complicating fleet plans and network expansion. The risk isn't starting over; it's losing momentum. Continuity of execution will matter enormously in the years ahead.

Bernstein stays neutral on India; bets on healthcare and industrial

BLOOMBERG
June 1

BERNSTEIN MAINTAINS ITS neutral stance on Indian equities and keeps its year-end Nifty target unchanged at 26,000, saying analysts are bottoming but macro catalysts remain limited amid crude oil and geopolitical risks.

Turns more constructive on healthcare and industrials on expectations of easing US pricing pressure, rupee weakness and growing opportunities linked to AI and data-center investments, analysts including Venugopal Garre said in a strategy note Monday. Downgrades consumer staples and autos to overweight on inflation headwinds, fading policy support and signs of peaking auto demand.

Moves financials to equalweight while retaining an overweight on real estate amid a lack of strong domestic growth drivers.

Cars defy the fuel shock

FROM THE FRONT PAGE

AMONG OTHER MAJOR car-makers, Tata Motors reported a 42.2% increase in domestic passenger vehicle sales to 59,090 units in May, compared with 41,557 units in the corresponding month last year.

Mahindra & Mahindra recorded an 11% rise in domestic sales to 58,021 units, while Hyundai Motor India posted a 9.1% increase at 47,837 units.

"We have continued our strong momentum of the year into May as well," Hyundai Motor India managing director and CEO Tarun Garg said. Kia India registered a 23.6% increase in wholesales to 27,586 units, marking its highest-ever sales for the month of May since

Kia India posted a 23.6% increase in wholesales to 27,586 units, marking its highest-ever sales for the month

entering the Indian market.

"Our highest-ever May sales performance reflects the strong alignment of our product portfolio with evolving customer preferences across segments," Atul Sood, senior vice-president, sales and marketing, Kia India, said. Toyota Kirloskar Motor reported a 4.4% increase in domestic sales to 30,574 units during the month. The latest sales numbers

resilient demand has remained robust at the start of FY27 despite concerns over higher fuel costs and a moderation in urban consumption. The strong performance across most major manufacturers also indicates that momentum seen at the end of FY26 has continued into the new financial year, aided by new model launches and sustained demand for utility vehicles.

While sport utility vehicles continue to account for a large share of industry volumes, Maruti Suzuki's sharp growth in mini and compact cars suggests demand in the affordable vehicle segment may be showing signs of improvement after a prolonged period of weakness.

Zee secures FIFA World Cup rights

ZEE HAD CONFIRMED last week that it was in talks with FIFA for the media rights of the 2026 edition, adding it was also launching United8 Sports, a dedicated portfolio of sports channels.

Rival HoStar had offered to pay around \$20-25 million for the deal, almost 80% below FIFA's initial asking price of \$100 million.

The 2026 FIFA World Cup will include 48 teams and will conclude on July 19. Nearly 90% of the tournament's 104 matches will be played between midnight and 6 am IST, limiting prime-time advertising opportunities in India, experts said.

Despite the challenges, Zee is expected to focus on ad sales and distribution, experts said, as a monetisation strat-

egy for the 2026 edition given the limited time before the event begins.

The firm had re-entered sports broadcasting in 2022 after bagging a long-term media rights contract to telecast the UAE T20 League on its entertainment channels and Zee5 platform. The deal was valued at \$800-900 crore for a

ten-year period. This deal had come after Zee sold its Ten Sports television network to Sony in 2016 for ₹2,600 crore, exiting the business back then.

On Monday, the company said it would broadcast the tournament on four channels under the United8 portfolio including United8 Sports 1, United8 Sports 1 HD, United8 Sports 2 and United8 Sports 2 HD. Zee5 was expected to provide an immersive viewing experience in multiple languages, it added.

"Football cuts across regions and demographics, and the investments in garnering the media rights and launching dedicated sports channels, reflect our clear belief in its long-term potential," Punit Goenka, CEO, Zee Entertainment, said.

NOTICE OF ANNUAL GENERAL MEETING AND E-VOTING PROCEDURE

NOTICE is hereby given that the 53rd Annual General Meeting ("AGM") of the members of Torrent Pharmaceuticals Limited will be held on Tuesday, 23rd June, 2026 at 09:30 AM through Video Conferencing ("VC") / Other Audio Visual Means ("OAVM") pursuant to Ministry of Corporate Affairs General Circular no. 20/2020 dated 5th May, 2020 read with circular nos. 14/2020, 17/2020 and 03/2025 dated 8th April, 2020, 13th April, 2020 and 22nd September, 2025 respectively (collectively referred to as "Circulars") to transact the businesses as set out in the Notice convening AGM.

The Integrated Annual Report for the financial year 2025-26 including Notice convening the meeting has been sent on 01st June, 2026 through electronic mode to the members whose email addresses are registered with the Company / Depository Participants. For those shareholders whose email ids are not registered, a letter providing a website for accessing Notice of the AGM and Integrated Annual Report for the financial year 2025-26 is being sent to those shareholders via post. The Integrated Annual Report including Notice is also available on the website of the Company at www.torrentpharma.com, website of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively and on the website of Central Depository Services (India) Limited (CDSL) at www.evotingindia.com.

Further, in compliance with the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014, ("the Act") as amended and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Members are provided with the facility to cast their votes on all resolutions as set forth in the Notice of the AGM using electronic voting system (e-voting) provided by CDSL.

The remote e-voting period shall commence at 09:00 a.m. (IST) on 13th June, 2026 and ends at 05:00 p.m. (IST) on 22nd June, 2026. The cut-off date for casting remote e-voting shall not be allowed beyond 05:00 p.m. on 22nd June, 2026. Those Members who shall be present in the AGM through VC / OAVM facility and had not cast their votes through remote e-voting shall be eligible to vote through e-voting system during the AGM.

The Members who have cast their votes by remote e-voting prior to the AGM may also attend / participate in the AGM through VC / OAVM but shall not be entitled to cast their votes again.

Members of the Company holding shares as on the cut-off date i.e. Tuesday, 16th June, 2026 shall be entitled to cast their votes.

Any person who becomes a member of the Company after dispatch of the Notice of the AGM and holding shares as on the cut-off date may cast their votes by following the instructions and process of voting / remote e-voting as provided in the Notice of the AGM.

Process for those Members whose email ids are not registered with the Depositories or the Company for obtaining login credentials for e-voting:

- Members holding shares in physical form may request login credentials by providing necessary details like Folio No., Name of Member, self attested scan copy of PAN Card and Aadhar Card by email to investorservices@torrentpharma.com.
- Members holding shares in demat form may request login credentials by providing Demat account details (CDSL-16 digit beneficiary ID or NSDL-8 Character DP ID + 8 Character Client ID), Name of Member, client master id or Consolidated Account statement, self attested scan copy of PAN Card and Aadhar Card by email to investorservices@torrentpharma.com.

Member of registering / updating e-mail id / mobile no:

- Members holding shares in physical form - Update your email id and mobile no by providing Form ISR-1 and ISR-2 available on the website of the Company at the link: <https://www.torrentpharma.com/investorservices-holderupdateinstructions> as well as website of Registrars and Transfer Agent (RTA) at the link <https://rtg.kfintech.com/form15/>
- Member holding shares in demat form - Update your email id & mobile no. with your respective Depository Participant (DP).

For the details relating to e-voting / remote e-voting, please refer to the Notice of the AGM. In case of any queries / grievances pertaining to e-voting / remote e-voting, you may refer the Frequently Asked Questions (FAQs) and / e-voting manual available at CDSL website www.evotingindia.com under help section or contact M. Rakshak Daiv, Assistant Vice President, CDSL, A Wing, 25th Floor, Marathon Futurex, Marfatil Mills Compound, N. M. Joshi Marg, Lower Parel (East), Mumbai - 400013 or write an email to helpdesk.evoting@cdslindia.com or call Toll free no- 1800 211 09911 during working hours on all working days.

Helpdesk for Individual Members holding securities in demat mode for any technical issues related to login through Depository i.e. CDSL and NSDL:

Login type	Helpdesk details
Individual Members holding securities in Demat mode with CDSL	Members facing any technical issue in login can contact CDSL helpdesk by sending a request at helpdesk.evoting@cdslindia.com or contact at toll free no.: 1800 21 09911.
Individual Members holding securities in Demat mode with NSDL	Members facing any technical issue in login can contact NSDL helpdesk by sending a request at evoting@nsdlindia.in or call at 022-48867000 and 022-48977000.

Nvidia announces new AI chip

DESPITE POSTING GROWTH that eclipses other chip-makers, Nvidia's stock has lagged the performance of the benchmark Philadelphia Stock Exchange Semiconductor Index this year. On Monday, Jensen called the Spark the start of a PC arena shakeup that may eventually rival the advent of smartphones.

"The number of customers, the number of partners that are so excited to bring RTX to market is just incredible," Huang said in Taipei. The RTX Superchip will feature a central processing unit that has up to 20 computing cores and a black-well-generation graphics processor with 6,144 cores. The two elements will share built-in memory, making them better able to handle large AI models and high-end games. They'll use Nvidia's NVLink interface to communicate, but it's lagged in software of data center technology to personal computers. The chip design will be manufactured by Taiwan Semiconductor Manufacturing Co., using that company's 3N process technology. Nvidia said it has worked

with Microsoft for years to prepare the new devices and ensure software support that will make the use of Arm Holdings tech finally take hold in the Windows PC world. Microsoft and Qualcomm have together promoted similar PCs for over a year, though with limited impact. Outside of Apple Inc.'s Mac lineup, most PCs use processors made by Intel or AMD. Arm's advantage over those incumbents is much better power efficiency, but it's lagged in software of data center technology to personal computers. The new Nvidia-based machinery will be better able to cope with AI models and functionality in commonly used software. For example, Adobe Inc.'s Photoshopper is being reworked to better

respond to AI-based prompts to generate image and video content. The new devices will also boost gaming capabilities, allowing laptops to handle high-end titles, Nvidia said.

In general, Nvidia-based PCs will be able to run large AI models securely, giving users easily implementable controls on what data and software are accessed. Such safeguards will speed up the transformation of PCs into personal assistants that do more than respond to user input. Common activities such as searching email or more complex tasks such as for example identifying and then fixing bugs in a website will become much easier, according to Nvidia.

The firm declined to give performance comparisons to existing and planned devices based on competitor technology. That information will be offered up when the new machines are ready to go on sale, Nvidia said. The firm does not expect the current component supply constraints in the chip industry to impact availability.

SPECIAL WINDOW FOR TRANSFER AND DEMATERIALIZATION OF PHYSICAL SECURITIES

This is in furtherance to the newspaper advertisement published on March 19, 2026. The Company hereby intimates that the Securities and Exchange Board of India (SEBI), vide its Circular No. HO/381/31/2026-MRSD-PDO/07/2026 dated January 30, 2026, has provided a special window for lodgement of transfer requests and dematerialisation ("Demat") of physical securities which were self-purchased prior to April 01, 2026.

The said special window shall remain open for a period of 1 (one) year i.e. from February 05, 2026 to February 04, 2027 (both dates inclusive).

Shareholders may note the following:

- The special window shall also be applicable to transfer requests which were lodged earlier but were rejected/returned/not processed due to deficiencies in the documents or otherwise;
- The securities transferred pursuant to this special window shall be mandatorily credited to the transferee only in demat mode and shall be subject to a lock-in period of 1 (one) year from the date of registration of transfer. During the lock-in period, such securities cannot be transferred (in-market) pledged or otherwise encumbered;
- The transferee shall be required to submit the documents as detailed in the aforesaid SEBI Circular including the Original security certificate(s).

Shareholders holding physical securities of the Company are advised to take note of the above and are requested to contact the Company's Registrar and Share Transfer Agent (RTA) i.e. Purva Sharecity (India) Private Limited for any clarification or assistance in this regard.

The details of the Special Window, including timelines and other relevant information, are available on the website of the Company at www.abansfinserv.com and on the website of the RTA & Stock Exchange where the securities of the Company are listed.
