Commenting on the results, Mr. Akash Jain (CEO) said,

We are pleased to report a robust performance for the first quarter of fiscal year 2026-27, as we continued to navigate a dynamic and often cautious economic environment. Our focused approach on the MSME and vehicle lending segments, backed by disciplined execution, has once again been a key strength driving our performance this quarter.

Our loan book continued to demonstrate steady and targeted growth, driven by our deep-rooted presence in Rural and Semi-Urban areas and robust demand for vehicle financing. While the sector as a whole continued to face headwinds from elevated fuel costs and ongoing geopolitical tensions in the Middle East, our disciplined risk management and underwriting processes have helped us maintain robust asset quality.

We are encouraged to see that our disbursements and profitability has shown healthy year-over-year growth, reflecting both our strategic focus and our ability to adapt swiftly to the evolving market.

As part of our long-term strategy, we have sharpened our focus on sustainability financing this year. In this direction, we are pleased to introduce Akme GreenX, a dedicated program aimed at extending financing support to green and sustainable initiatives, including clean mobility and energy-efficient assets. We believe this reflects our continued commitment to responsible growth and to supporting India's transition toward a more sustainable economy.

Looking ahead, we remain well-positioned for continued growth. Improvement in our credit ratings, along with our efforts to raise funds through various channels at competitive rates, has further strengthened our balance sheet, giving us the flexibility to continue supporting the backbone of our economy—MSMEs and individuals seeking vehicle ownership—while expanding our footprint in sustainability financing through Akme GreenX. We remain committed to leveraging technology to streamline our lending processes, enhance customer experience, and deliver sustainable value to all our stakeholders.
