HDFC Bank wins 7 Bahrain cases over CS AT1 bonds

FE BUREAU
Mumbai, September 10

THE BAHRAIN HIGH Civil Court has rejected all seven legal proceedings filed against HDFC Bank by investors over their investments in Credit Suisse Additional Tier 1 (AT1) bonds, the bank said in a press release on Thursday.

The latest two orders were issued on September 9, while five other cases involving investors in the Credit Suisse AT1 bonds were rejected by the Bahrain court in July and August.

On Thursday, shares of the bank closed 0.7% higher at ₹693.80 on the NSE.

The investors had alleged gross negligence, intentional misrepresentation, incorrect customer classification, non-disclosure of product features, misuse of financial leverage and violation of product suit-

The court rejected the claims, finding that investors had failed to produce sufficient admissible evidence to substantiate the allegations against the bank or establish

that they had suffered losses due to the bank, it said. In all seven cases, investors were also directed to bear the costs of the proceedings.

The favourable orders in Bahrain follow the dismissal in March by the National Consumer Disputes Redressal

Commission (NCDRC) of complaints filed by investors against HDFC Bank in relation to the Credit Suisse AT1 bonds.

According to HDFC Bank, the NCDRC had held that the bank acted only as a facilitator and that investors had the autonomy to make their investment decisions. The commission also observed that the investors "voluntarily with their open eyes chose to make these investments" and approached the bank after the investments failed to deliver the expected returns, the bank said.

The bank said it would stand with its customers, however it is not in the business of underwriting investments made by the customers out of their own judgement and it will therefore "defend itself rigorously against any unsubstantiated claims".

Retail rush pushes monthly SIP contributions to record high in Aug

KUSHAN SHAH
Mumbai, September 10

RETAIL INVESTORS STEPPED up their mutual fund bets in August, pushing monthly systematic investment plan (SIP) contributions to an all-time high of ₹32,297 crore, the second record set this year.

The number of SIP-contributing accounts also crossed the 100-million milestone, rising by 1.2 million during the month to 100.2 million. The mutual fund industry's net assets under management climbed 1.5% to a record ₹87.08 lakh crore.

Saugata Chatterjee, president and deputy CEO, Nippon India Mutual Fund, said record SIP contributions, coupled with a moderating stock price, demonstrate the growing investment discipline among Indian investors.

The retail appetite was particularly strong in the riskier corners of the equity market. Net equity inflows jumped 19% month-on-month, led by record flows into small- and mid-cap funds. Small-cap schemes attracted about ₹8,000 crore, while mid-cap funds received close to ₹7,000 crore. Together, the two categories accounted for more than half of total equity inflows during the month.

The surge came despite concerns over valuations and

volatility in the broader market. Chatterjee added that the continued preference for small- and mid-cap funds reflects investors' desire to participate in opportunities across corporate India. However, given the nature of these segments, disciplined allocation, patience and a longer investment horizon remain important, he said.

Manish Mehta, chief business officer, SBI Mutual Fund, said strong SIP books in the two categories supported the inflows. He also credited the distribution community for hand-holding investors through a period of market volatility.

Harish Krishnan, CIO-

equity, Aditya Birla Sun Life AMC, cautioned investors about the wide dispersion in valuations and underlying fundamentals. Investors should focus on businesses with improving earnings visibility, sustainable competitive advantages and sound balance sheets, he said.

Flexi-cap funds also drew strong interest, attracting more than ₹5,000 crore during August.

The month also saw a change in Amfi's fund classification, with the erstwhile sectoral and thematic category split into two. Sectoral funds recorded net outflows of more than ₹50 crore, while thematic funds attracted ₹1,766 crore.

Beyond equities, hybrid funds received net inflows of about ₹10,000 crore. More than 60% of these flows went into arbitrage and multi-asset allocation funds, with each category attracting more than ₹3,500 crore. Balanced advantage, equity savings and conservative hybrid funds, however, recorded net outflows.

Passive products continued to draw investor money. Equity exchange-traded funds led the pack with inflows of more than ₹7,230 crore, while equity index funds attracted ₹2,393 crore.

Precious-metal funds also gained traction. Gold ETFs received ₹2,597 crore, up 67% from the previous month, while silver ETFs attracted ₹1,271 crore.

Himanshu Srivastava, principal-manager research, Morningstar Investment Research India, said the acceleration in gold ETF flows coincided with a strong recovery in gold prices during the month, indicating renewed investor preference for the asset class amid persistent macroeconomic and geopolitical uncertainties.

Debt funds, in contrast, recorded net outflows of ₹8,127 crore, largely due to withdrawals of more than ₹30,650 crore from overnight schemes. Liquid and money market funds, however, saw substantial inflows.

Bank strike today, services to be affected

PRESS TRUST OF INDIA
New Delhi, September 10

BANKING SERVICES LIKE cash withdrawals and deposits at public sector banks will be impacted on Friday as unions have decided to go on strike to press for five-day banking and other pending demands.

With the strike, banking services, especially in public sector banks, would be impacted for four days in many parts of the country. September 11 is a Friday, and the subsequent two days are bank holidays. September 14 is a holiday in some states for Ganesh Chaturthi.

Meanwhile, most public sector banks have informed their customers of the likely impact of the strike on operations.

SBI said, "We advise that while the bank has made all necessary arrangements to ensure normal functioning of the branches and offices on the days of strike, it is likely that work in the bank may be impacted by the strike."

UFB, an umbrella body of seven bank employees' and officers' unions, has also threatened a three-day subsequent nationwide strike beginning September 28, coinciding with the half-yearly closure.

The issue of five-day banking has been pending for a long time, and even during conciliation meetings before the Chief Labour Commissioner, the government could not give any commitment on the introduction of 5-day banking.

Hence, the agitation has been forced on the unions due to the actions of the government and management, All India Bank Officers' Confederation general secretary Rupam Roy said.

Canara Bank to raise up to ₹4,500 cr via AT-1 bonds

FE BUREAU
Mumbai, September 10

CANARA BANK IS planning to raise up to ₹4,500 crore through Basel III-compliant additional tier 1 (AT-1) bonds, it said on Thursday.

This move is part of the board-approved fundraising proposal to mobilise up to ₹4,500 crore through AT-1 bonds and ₹4,000 crore through tier 2 bonds.

"The proposed AT-1 issuance will further strengthen the bank's capital position and provide additional headroom to support its business growth while maintaining a strong capital base and financial resilience," a press release issued by the bank said.

The proposed bond

FROM THE FRONT PAGE

Meet may usher in India-China economic...

DISRUPTIONS IN GLOBAL trade due to US tariff actions, the war in West Asia, and soaring energy prices provide the context for the deliberations.

India's presidency is seeking concrete economic deliverables rather than another broad political statement.

The economic agenda is likely to be dominated by the Strategy for BRICS Economic Partnership 2030, which India wants as a longer-term framework for expanding intra-BRICS trade and investment, strengthening supply chains, promoting technology and innovation and improving financial and digital connectivity. The 2030 strategy proposed at the 17th BRICS Summit in Rio de Janeiro last year will succeed the Strategy for

BRICS Economic Partnership 2025. The BRICS economic agenda could provide India with a platform to push greater South-South trade and investment without turning the grouping into an explicitly anti-US or anti-Western bloc, the sources added.

India is also expected to favour practical financial cooperation, including cross-border digital payments, local-currency settlements and greater interoperability among payment systems, rather than making dollarisation the central political objective.

The first day, September 12, will focus on leaders' discussions on global issues during the closed session "Inclusive Global Governance and Strengthening

Multilateralism". The second day will include expanded discussions with BRICS partner countries on economic issues in the session on "Resilience, Innovation, Cooperation and Sustainability: Shaping the Future for Inclusive Global Growth" and is expected to culminate in the New Delhi Declaration.

Bilaterals with Russia, China

Xi will be visiting India for the first time since the 2020 Galwan clash. India recently relaxed the foreign direct investment (FDI) rules to permit non-controlling investments of up to 10% from countries sharing a land border such as China through the automatic route.

Modi and Xi in their meeting on September 12 are expected to discuss the overall bilateral relationship, the border situation and economic ties, with trade, investment and technology access likely to figure prominently. Indian industry continues to seek greater access to Chinese capital goods, components and technology, particularly for manufacturing, renewable energy, electronics and other emerging sectors. At the same time, New Delhi remains concerned about the widening trade imbalance and China's dominance in several strategic supply chains.

With Russia the bilateral meeting on September 11 is expected to focus on energy, defence and the wider strategic partnership.

■ The retail appetite was particularly strong in the riskier corners of the equity market

volatility in the broader market.

Chatterjee added that the continued preference for small- and mid-cap funds reflects investors' desire to participate in opportunities across corporate India. However, given the nature of these segments, disciplined allocation, patience and a longer investment horizon remain important, he said.

Manish Mehta, chief business officer, SBI Mutual Fund, said strong SIP books in the two categories supported the inflows. He also credited the distribution community for handholding investors through a period of market volatility.

Harish Krishnan, CIO-

equity, Aditya Birla Sun Life AMC, cautioned investors about the wide dispersion in valuations and underlying fundamentals. Investors should focus on businesses with improving earnings visibility, sustainable competitive advantages and sound balance sheets, he said.

Flexi-cap funds also drew strong interest, attracting more than ₹5,000 crore during August.

The month also saw a change in Amfi's fund classification, with the erstwhile sectoral and thematic category split into two. Sectoral funds recorded net outflows of more than ₹50 crore, while thematic funds attracted ₹1,766 crore.

Beyond equities, hybrid funds received net inflows of about ₹10,000 crore. More than 60% of these flows went into arbitrage and multi-asset allocation funds, with each category attracting more than ₹3,500 crore. Balanced advantage, equity savings and conservative hybrid funds, however, recorded net outflows.

Passive products continued to draw investor money. Equity exchange-traded funds led the pack with inflows of more than ₹7,230 crore, while equity index funds attracted ₹2,393 crore.

Precious-metal funds also gained traction. Gold ETFs received ₹2,597 crore, up 67% from the previous month, while silver ETFs attracted ₹1,271 crore.

Himanshu Srivastava, principal-manager research, Morningstar Investment Research India, said the acceleration in gold ETF flows coincided with a strong recovery in gold prices during the month, indicating renewed investor preference for the asset class amid persistent macroeconomic and geopolitical uncertainties.

Debt funds, in contrast, recorded net outflows of ₹8,127 crore, largely due to withdrawals of more than ₹30,650 crore from overnight schemes. Liquid and money market funds, however, saw substantial inflows.

Bank strike today, services to be affected

PRESS TRUST OF INDIA
New Delhi, September 10

BANKING SERVICES LIKE cash withdrawals and deposits at public sector banks will be impacted on Friday as unions have decided to go on strike to press for five-day banking and other pending demands.

With the strike, banking services, especially in public sector banks, would be impacted for four days in many parts of the country. September 11 is a Friday, and the subsequent two days are bank holidays. September 14 is a holiday in some states for Ganesh Chaturthi.

Meanwhile, most public sector banks have informed their customers of the likely impact of the strike on operations.

SBI said, "We advise that while the bank has made all necessary arrangements to ensure normal functioning of the branches and offices on the days of strike, it is likely that work in the bank may be impacted by the strike."

UFBU, an umbrella body of seven bank employees' and officers' unions, has also threatened a three-day subsequent nationwide strike beginning September 28, coinciding with the half-yearly closure.

The issue of five-day banking has been pending for a long time, and even during conciliation meetings before the Chief Labour Commissioner, the government could not give any commitment on the introduction of 5-day banking.

Hence, the agitation has been forced on the unions due to the actions of the government and management, All India Bank Officers' Confederation general secretary Rupam Roy said.

Canara Bank to raise up to ₹4,500 cr via AT-1 bonds

FE BUREAU
Mumbai, September 10

CANARA BANK IS planning to raise up to ₹4,500 crore through Basel III-compliant additional tier 1 (AT-1) bonds, it said on Thursday.

This move is part of the board-approved fundraising proposal to mobilise up to ₹4,500 crore through AT-1 bonds and ₹4,000 crore through tier 2 bonds.

"The proposed AT-1 issuance will further strengthen the bank's capital position and provide additional headroom to support its business growth while maintaining a strong capital base and financial resilience," a press release issued by the bank said.

The proposed bond

GROWTH PATH

■ The issuance is expected to be offered via the electronic bidding platform of the NSE on September 16

■ These bonds will be perpetual debt instruments with a call option of 5 years

■ Canara Bank is on track to achieve a business size of **₹30 lakh crore**

issuance is expected to be offered via the electronic bidding platform of the NSE on

September 16, from 12:00 pm to 1:00 pm. It is anticipated to generate strong interest among investors, with the market expecting a coupon rate of 7.85%-7.90%.

These bonds will be perpetual debt instruments with a call option of 5 years, subject to regulatory clearance. They have been rated "AA+; Stable" by Ica Ratings and "AA+; Stable" by India Ratings, the release said.

Currently, Canara Bank is on track to achieve a business size of ₹30 lakh crore, backed by growth in deposits and advances across the retail, agriculture, MSME and corporate segments. The bank has mobilised \$5.80 billion through the FCNR(B) swap facility.

FROM THE FRONT PAGE

Meet may usher in India-China economic...

DISRUPTIONS IN GLOBAL trade due to US tariff actions, the war in West Asia, and soaring energy prices provide the context for the deliberations.

India's presidency is seeking concrete economic deliverables rather than another broad political statement.

The economic agenda is likely to be dominated by the Strategy for BRICS Economic Partnership 2030, which India wants as a longer-term framework for expanding intra-BRICS trade and investment, strengthening supply chains, promoting technology and innovation and improving financial and digital connectivity. The 2030 strategy proposed at the 17th BRICS Summit in Rio de Janeiro last year will succeed the Strategy for

BRICS Economic Partnership 2025. The BRICS economic agenda could provide India with a platform to push greater South-South trade and investment without turning the grouping into an explicitly anti-US or anti-Western bloc, the sources added.

India is also expected to favour practical financial cooperation, including cross-border digital payments, local-currency settlements and greater interoperability among payment systems, rather than making dollarisation the central political objective.

The first day, September 12, will focus on leaders' discussions on global issues during the closed session "Inclusive Global Governance and Strengthening

Multilateralism". The second day will include expanded discussions with BRICS partner countries on economic issues in the session on "Resilience, Innovation, Cooperation and Sustainability: Shaping the Future for Inclusive Global Growth" and is expected to culminate in the New Delhi Declaration.

Bilaterals with Russia, China

Xi will be visiting India for the first time since the 2020 Galwan clash. India recently relaxed the foreign direct investment (FDI) rules to permit non-controlling investments of up to 10% from countries sharing a land border such as China through the automatic route.

Modi and Xi in their meeting on September 12 are expected to discuss the overall bilateral relationship, the border situation and economics, with trade, investment and technology access likely to figure prominently. Indian industry continues to seek greater access to Chinese capital goods, components and technology, particularly for manufacturing, renewable energy, electronics and other emerging sectors. At the same time, New Delhi remains concerned about the widening trade imbalance and China's dominance in several strategic supply chains.

With Russia the bilateral meeting on September 11 is expected to focus on energy, defence and the wider strategic partnership.

INVESTORS FAILED TO PRODUCE SUFFICIENT ADMISSIBLE EVIDENCE: COURT

HDFC Bank wins 7 Bahrain cases over CS AT1 bonds

FE BUREAU
Mumbai, September 10

THE BAHRAIN HIGH Civil Court has rejected all seven legal proceedings filed against HDFC Bank by investors over their investments in Credit Suisse Additional Tier 1 (AT1) bonds, the bank said in a press release on Thursday.

The latest two orders were issued on September 9, while five other cases involving investors in the Credit Suisse AT1 bonds were rejected by the Bahrain court in July and August.

On Thursday, shares of the bank closed 0.7% higher at ₹693.80 on the NSE.

The investors had alleged gross negligence, intentional misrepresentation, incorrect customer classification, non-disclosure of product features, misuse of financial leverage and violation of product suit-

HUGE RELIEF

HDFC Bank (intra-day, Sept 10)

■ The latest two orders were issued on Sept 9, while other 5 happened in July and August

■ The bank said it would "defend itself rigorously against any unsubstantiated claims"

ability principles in relation to their investments through HDFC Bank.

The court rejected the claims, finding that investors had failed to produce sufficient admissible evidence to substantiate the allegations against the bank or establish

that they had suffered losses due to the bank, it said. In all seven cases, investors were also directed to bear the costs of the proceedings.

The favourable orders in Bahrain follow the dismissal in March by the National Consumer Disputes Redressal

Commission (NCDRC) of complaints filed by investors against HDFC Bank in relation to the Credit Suisse AT1 bonds.

According to HDFC Bank, the NCDRC had held that the bank acted only as a facilitator and that investors had the autonomy to make their investment decisions. The commission also observed that the investors "voluntarily with their open eyes chose to make these investments" and approached the bank after the investments failed to deliver the expected returns, the bank said.

The bank said it would stand with its customers, however it is not in the business of underwriting investments made by the customers out of their own judgement and it will therefore "defend itself rigorously against any unsubstantiated claims".

Retail rush pushes monthly SIP contributions to record high in Aug

KUSHAN SHAH
Mumbai, September 10

RETAIL INVESTORS STEPPED up their mutual fund bets in August, pushing monthly systematic investment plan (SIP) contributions to an all-time high of ₹32,297 crore, the second record set this year.

The number of SIP-contributing accounts also crossed the 100-million milestone, rising by 1.2 million during the month to 100.2 million. The mutual fund industry's net assets under management climbed 1.5% to a record ₹87.08 lakh crore.

Saugata Chatterjee, president and deputy CEO, Nippon India Mutual Fund, said record SIP contributions, coupled with a moderating stoppage ratio, demonstrate the growing investment discipline among Indian investors.

The retail appetite was particularly strong in the riskier corners of the equity market. Net equity inflows jumped 19% month-on-month, led by record flows into small- and mid-cap funds. Small-cap schemes attracted about ₹8,000 crore, while mid-cap funds received close to ₹7,000 crore. Together, the two categories accounted for more than half of total equity inflows during the month.

The surge came despite concerns over valuations and

NEW MILESTONE

■ Number of SIP-contributing accounts also crossed the **100 mn** milestone, rising to **100.2 mn** during the month

■ The mutual fund industry's net AUM climbed 1.5% to a record **₹87.08 lakh crore**

volatility in the broader market. Chatterjee added that the continued preference for small- and mid-cap funds reflects investors' desire to participate in opportunities across corporate India. However, given the nature of these segments, disciplined allocation, patience and a longer investment horizon remain important, he said.

Manish Mehta, chief business officer, SBI Mutual Fund, said strong SIP books in the two categories supported the inflows. He also credited the distribution community for hand-holding investors through a period of market volatility.

Harish Krishnan, CIO-

equity, Aditya Birla Sun Life AMC, cautioned investors about the wide dispersion in valuations and underlying fundamentals. Investors should focus on businesses with improving earnings visibility, sustainable competitive advantages and sound balance sheets, he said.

Flexi-cap funds also drew strong interest, attracting more than ₹5,000 crore during August.

The month also saw a change in Amfi's fund classification, with the erstwhile sectoral and thematic category split into two. Sectoral funds recorded net outflows of more than ₹50 crore, while thematic funds attracted ₹1,766 crore.

Beyond equities, hybrid funds received net inflows of about ₹10,000 crore. More than 60% of these flows went into arbitrage and multi-asset allocation funds, with each category attracting more than ₹3,500 crore. Balanced advantage, equity savings and conservative hybrid funds, however, recorded net outflows.

Passive products continued to draw investor money. Equity exchange-traded funds led the pack with inflows of more than ₹7,230 crore, while equity index funds attracted ₹2,393 crore.

Precious-metal funds also gained traction. Gold ETFs received ₹2,597 crore, up 67% from the previous month, while silver ETFs attracted ₹1,271 crore.

Himanshu Srivastava, principal-manager research, Morningstar Investment Research India, said the acceleration in gold ETF flows coincided with a strong recovery in gold prices during the month, indicating renewed investor preference for the asset class amid persistent macroeconomic and geopolitical uncertainties.

Debt funds, in contrast, recorded net outflows of ₹8,127 crore, largely due to withdrawals of more than ₹30,650 crore from overnight schemes. Liquid and money market funds, however, saw substantial inflows.

New Delhi, September 10

BANKING SERVICES LIKE cash withdrawals and deposits at public sector banks will be impacted on Friday as unions have decided to go on strike to press for five-day banking and other pending demands.

With the strike, banking services, especially in public sector banks, would be impacted for four days in many parts of the country. September 11 is a Friday, and the subsequent two days are bank holidays. September 14 is a holiday in some states for Ganesh Chaturthi.

Meanwhile, most public sector banks have informed their customers of the likely impact of the strike on operations.

SBI said, "We advise that while the bank has made all necessary arrangements to ensure normal functioning of the branches and offices on the days of strike, it is likely that work in the bank may be impacted by the strike."

UFB, an umbrella body of seven bank employees' and officers' unions, has also threatened a three-day subsequent nationwide strike beginning September 28, coinciding with the half-yearly closure.

The issue of five-day banking has been pending for a long time, and even during conciliation meetings before the Chief Labour Commissioner, the government could not give any commitment on the introduction of 5-day banking.

Hence, the agitation has been forced on the unions due to the actions of the government and management, All India Bank Officers' Confederation general secretary Rupam Roy said.

Canara Bank to raise up to ₹4,500 cr via AT-1 bonds

FE BUREAU
Mumbai, September 10

CANARA BANK IS planning to raise up to ₹4,500 crore through Basel III-compliant additional tier 1 (AT-1) bonds, it said on Thursday.

This move is part of the board-approved fundraising proposal to mobilise up to ₹4,500 crore through AT-1 bonds and ₹4,000 crore through tier 2 bonds.

"The proposed AT-1 issuance will further strengthen the bank's capital position and provide additional headroom to support its business growth while maintaining a strong capital base and financial resilience," a press release issued by the bank said.

The proposed bond

GROWTH PATH

■ The issuance is expected to be offered via the electronic bidding platform of the NSE on September 16

■ These bonds will be perpetual debt instruments with a call option of 5 years

■ Canara Bank is on track to achieve a business size of **₹30 lakh crore**

issuance is expected to be offered via the electronic bidding platform of the NSE on

September 16, from 12:00 pm to 1:00 pm. It is anticipated to generate strong interest among investors, with the market expecting a coupon rate of 7.85%-7.90%.

These bonds will be perpetual debt instruments with a call option of 5 years, subject to regulatory clearance. They have been rated "AA+; Stable" by Icr Ratings and "AA+; Stable" by India Ratings, the release said.

Currently, Canara Bank is on track to achieve a business size of ₹30 lakh crore, backed by growth in deposits and advances across the retail, agriculture, MSME and corporate segments. The bank has mobilised \$5.80 billion through the FCNR(B) swap facility.

INVESTORS FAILED TO PRODUCE SUFFICIENT ADMISSIBLE EVIDENCE: COURT

HDFC Bank wins 7 Bahrain cases over CS AT1 bonds

FE BUREAU
Mumbai, September 10

THE BAHRAIN HIGH Civil Court has rejected all seven legal proceedings filed against HDFC Bank by investors over their investments in Credit Suisse Additional Tier 1 (AT1) bonds, the bank said in a press release on Thursday.

The latest two orders were issued on September 9, while five other cases involving investors in the Credit Suisse AT1 bonds were rejected by the Bahrain court in July and August.

On Thursday, shares of the bank closed 0.7% higher at ₹693.80 on the NSE.

The investors had alleged gross negligence, intentional misrepresentation, incorrect customer classification, non-disclosure of product features, misuse of financial leverage and violation of product suit-

HUGE RELIEF

HDFC Bank (Intra-day, Sept 10)

■ The latest two orders were issued on Sept 9, while other 5 happened in July and August

■ The bank said it would "defend itself rigorously against any unsubstantiated claims"

ability principles in relation to their investments through HDFC Bank.

The court rejected the claims, finding that investors had failed to produce sufficient admissible evidence to substantiate the allegations against the bank or establish

that they had suffered losses due to the bank, it said. In all seven cases, investors were also directed to bear the costs of the proceedings.

The favourable orders in Bahrain follow the dismissal in March by the National Consumer Disputes Redressal

Commission (NCDRC) of complaints filed by investors against HDFC Bank in relation to the Credit Suisse AT1 bonds.

According to HDFC Bank, the NCDRC had held that the bank acted only as a facilitator and that investors had the autonomy to make their investment decisions. The commission also observed that the investors "voluntarily with their open eyes chose to make these investments" and approached the bank after the investments failed to deliver the expected returns, the bank said.

The bank said it would stand with its customers, however it is not in the business of underwriting investments made by the customers out of their own judgement and it will therefore "defend itself rigorously against any unsubstantiated claims".

Retail rush pushes monthly SIP contributions to record high in Aug

KUSHAN SHAH
Mumbai, September 10

RETAIL INVESTORS STEPPED up their mutual fund bets in August, pushing monthly systematic investment plan (SIP) contributions to an all-time high of ₹32,297 crore, the second record set this year.

The number of SIP-contributing accounts also crossed the 100-million milestone, rising by 1.2 million during the month to 100.2 million. The mutual fund industry's net assets under management climbed 1.5% to a record ₹87.08 lakh crore.

Saugata Chatterjee, president and deputy CEO, Nippon India Mutual Fund, said record SIP contributions, coupled with a moderating stoppage ratio, demonstrate the growing investment discipline among Indian investors.

The retail appetite was particularly strong in the riskier corners of the equity market. Net equity inflows jumped 19% month-on-month, led by record flows into small- and mid-cap funds. Small-cap schemes attracted about ₹8,000 crore, while mid-cap funds received close to ₹7,000 crore. Together, the two categories accounted for more than half of total equity inflows during the month.

The surge came despite concerns over valuations and

NEW MILESTONE

■ Number of SIP-contributing accounts also crossed the 100 mn milestone, rising to 100.2 mn during the month

■ The mutual fund industry's net AUM climbed 1.5% to a record ₹87.08 lakh crore

■ The retail appetite was particularly strong in the riskier corners of the equity market

volatility in the broader market.

Chatterjee added that the continued preference for small- and mid-cap funds reflects investors' desire to participate in opportunities across corporate India. However, given the nature of these segments, disciplined allocation, patience and a longer investment horizon remain important, he said.

Manish Mehta, chief business officer, SBI Mutual Fund, said strong SIP books in the two categories supported the inflows. He also credited the distribution community for handholding investors through a period of market volatility.

Harish Krishnan, CIO-

equity, Aditya Birla Sun Life AMC, cautioned investors about the wide dispersion in valuations and underlying fundamentals. Investors should focus on businesses with improving earnings visibility, sustainable competitive advantages and sound balance sheets, he said.

Flexi-cap funds also drew strong interest, attracting more than ₹5,000 crore during August.

The month also saw a change in Amfi's fund classification, with the erstwhile sectoral and thematic category split into two. Sectoral funds recorded net outflows of more than ₹50 crore, while thematic funds attracted ₹1,766 crore.

Beyond equities, hybrid funds received net inflows of about ₹10,000 crore. More than 60% of these flows went into arbitrage and multi-asset allocation funds, with each category attracting more than ₹3,500 crore. Balanced advantage, equity savings and conservative hybrid funds, however, recorded net outflows.

Passive products continued to draw investor money. Equity exchange-traded funds led the pack with inflows of more than ₹7,230 crore, while equity index funds attracted ₹2,393 crore.

Precious-metal funds also gained traction. Gold ETFs received ₹2,597 crore, up 67% from the previous month, while silver ETFs attracted ₹1,271 crore.

Himanshu Srivastava, principal-manager research, Morningstar Investment Research India, said the acceleration in gold ETF flows coincided with a strong recovery in gold prices during the month, indicating renewed investor preference for the asset class amid persistent macroeconomic and geopolitical uncertainties.

Debt funds, in contrast, recorded net outflows of ₹8,127 crore, largely due to withdrawals of more than ₹30,650 crore from overnight schemes. Liquid and money market funds, however, saw substantial inflows.

FROM THE FRONT PAGE

Meet may usher in India-China economic...

DISRUPTIONS IN GLOBAL trade due to US tariff actions, the war in West Asia, and soaring energy prices provide the context for the deliberations.

India's presidency is seeking concrete economic deliverables rather than another broad political statement.

The economic agenda is likely to be dominated by the Strategy for BRICS Economic Partnership 2030, which India wants as a longer-term framework for expanding intra-BRICS trade and investment, strengthening supply chains, promoting technology and innovation and improving financial and digital connectivity. The 2030 strategy proposed at the 17th BRICS Summit in Rio de Janeiro last year will succeed the Strategy for

BRICS Economic Partnership 2025. The BRICS economic agenda could provide India with a platform to push greater South-South trade and investment without turning the grouping into an explicitly anti-US or anti-Western bloc, the sources added.

India is also expected to favour practical financial cooperation, including cross-border digital payments, local-currency settlements and greater interoperability among payment systems, rather than making dollarisation the central political objective.

The first day, September 12, will focus on leaders' discussions on global issues during the closed session "Inclusive Global Governance and Strengthening

Multilateralism". The second day will include expanded discussions with BRICS partner countries on economic issues in the session on "Resilience, Innovation, Cooperation and Sustainability: Shaping the Future for Inclusive Global Growth" and is expected to culminate in the New Delhi Declaration.

Bilaterals with Russia, China

Xi will be visiting India for the first time since the 2020 Galwan clash. India recently relaxed the foreign direct investment (FDI) rules to permit non-controlling investments of up to 10% from countries sharing a land border such as China through the automatic route.

Modi and Xi in their meeting on September 12 are expected to discuss the overall bilateral relationship, the border situation and economics, with trade, investment and technology access likely to figure prominently. Indian industry continues to seek greater access to Chinese capital goods, components and technology, particularly for manufacturing, renewable energy, electronics and other emerging sectors. At the same time, New Delhi remains concerned about the widening trade imbalance and China's dominance in several strategic supply chains.

With Russia the bilateral meeting on September 11 is expected to focus on energy, defence and the wider strategic partnership.

INVESTORS FAILED TO PRODUCE SUFFICIENT ADMISSIBLE EVIDENCE: COURT

HDFC Bank wins 7 Bahrain cases over CS AT1 bonds

FE BUREAU
Mumbai, September 10

THE BAHRAIN HIGH Civil Court has rejected all seven legal proceedings filed against HDFC Bank by investors over their investments in Credit Suisse Additional Tier 1 (AT1) bonds, the bank said in a press release on Thursday.

The latest two orders were issued on September 9, while five other cases involving investors in the Credit Suisse AT1 bonds were rejected by the Bahrain court in July and August.

On Thursday, shares of the bank closed 0.7% higher at ₹693.80 on the NSE.

The investors had alleged gross negligence, intentional misrepresentation, incorrect customer classification, non-disclosure of product features, misuse of financial leverage and violation of product suit-

HUGE RELIEF

■ The latest two orders were issued on Sept 9, while other 5 happened in July and August

■ The bank said it would "defend itself rigorously against any unsubstantiated claims"

ability principles in relation to their investments through HDFC Bank.

The court rejected the claims, finding that investors had failed to produce sufficient admissible evidence to substantiate the allegations against the bank or establish

that they had suffered losses due to the bank, it said. In all seven cases, investors were also directed to bear the costs of the proceedings.

The favourable orders in Bahrain follow the dismissal in March by the National Consumer Disputes Redressal

Commission (NCDRC) of complaints filed by investors against HDFC Bank in relation to the Credit Suisse AT1 bonds.

According to HDFC Bank, the NCDRC had held that the bank acted only as a facilitator and that investors had the autonomy to make their investment decisions. The commission also observed that the investors "voluntarily with their open eyes chose to make these investments" and approached the bank after the investments failed to deliver the expected returns, the bank said.

The bank said it would stand with its customers, however it is not in the business of underwriting investments made by the customers out of their own judgement and it will therefore "defend itself rigorously against any unsubstantiated claims".

Retail rush pushes monthly SIP contributions to record high in Aug

KUSHAN SHAH
Mumbai, September 10

RETAIL INVESTORS STEPPED up their mutual fund bets in August, pushing monthly systematic investment plan (SIP) contributions to an all-time high of ₹32,297 crore, the second record set this year.

The number of SIP-contributing accounts also crossed the 100-million milestone, rising by 1.2 million during the month to 100.2 million. The mutual fund industry's net assets under management climbed 1.5% to a record ₹87.08 lakh crore.

Saugata Chatterjee, president and deputy CEO, Nippon India Mutual Fund, said record SIP contributions, coupled with a moderating stoppage ratio, demonstrate the growing investment discipline among Indian investors.

The retail appetite was particularly strong in the riskier corners of the equity market. Net equity inflows jumped 19% month-on-month, led by record flows into small- and mid-cap funds. Small-cap schemes attracted about ₹8,000 crore, while mid-cap funds received close to ₹7,000 crore. Together, the two categories accounted for more than half of total equity inflows during the month.

The surge came despite concerns over valuations and

NEW MILESTONE

■ Number of SIP-contributing accounts also crossed the 100 mn milestone, rising to 100.2 mn during the month

■ The mutual fund industry's net AUM climbed 1.5% to a record ₹87.08 lakh crore

volatility in the broader market.

Chatterjee added that the continued preference for small- and mid-cap funds reflects investors' desire to participate in opportunities across corporate India. However, given the nature of these segments, disciplined allocation, patience and a longer investment horizon remain important, he said.

Manish Mehta, chief business officer, SBI Mutual Fund, said strong SIP books in the two categories supported the inflows. He also credited the distribution community for hand-holding investors through a period of market volatility.

Harish Krishnan, CIO-

equity, Aditya Birla Sun Life AMC, cautioned investors about the wide dispersion in valuations and underlying fundamentals. Investors should focus on businesses with improving earnings visibility, sustainable competitive advantages and sound balance sheets, he said.

Flexi-cap funds also drew strong interest, attracting more than ₹5,000 crore during August.

The month also saw a change in Amfi's fund classification, with the erstwhile sectoral and thematic category split into two. Sectoral funds recorded net outflows of more than ₹50 crore, while thematic funds attracted ₹1,766 crore.

Beyond equities, hybrid funds received net inflows of about ₹10,000 crore. More than 60% of these flows went into arbitrage and multi-asset allocation funds, with each category attracting more than ₹3,500 crore. Balanced advantage, equity savings and conservative hybrid funds, however, recorded net outflows.

Passive products continued to draw investor money. Equity exchange-traded funds led the pack with inflows of more than ₹7,230 crore, while equity index funds attracted ₹2,393 crore.

Precious-metal funds also gained traction. Gold ETFs received ₹2,597 crore, up 67% from the previous month, while silver ETFs attracted ₹1,271 crore.

Himanshu Srivastava, principal-manager research, Morningstar Investment Research India, said the acceleration in gold ETF flows coincided with a strong recovery in gold prices during the month, indicating renewed investor preference for the asset class amid persistent macroeconomic and geopolitical uncertainties.

Debt funds, in contrast, recorded net outflows of ₹8,127 crore, largely due to withdrawals of more than ₹30,650 crore from overnight schemes. Liquid and money market funds, however, saw substantial inflows.

Bank strike today, services to be affected

PRESS TRUST OF INDIA
New Delhi, September 10

BANKING SERVICES LIKE cash withdrawals and deposits at public sector banks will be impacted on Friday as unions have decided to go on strike to press for five-day banking and other pending demands.

With the strike, banking services, especially in public sector banks, would be impacted for four days in many parts of the country. September 11 is a Friday, and the subsequent two days are bank holidays. September 14 is a holiday in some states for Ganesh Chaturthi.

Meanwhile, most public sector banks have informed their customers of the likely impact of the strike on operations.

SBI said, "We advise that while the bank has made all necessary arrangements to ensure normal functioning of the branches and offices on the days of strike, it is likely that work in the bank may be impacted by the strike."

UFBU, an umbrella body of seven bank employees' and officers' unions, has also threatened a three-day subsequent nationwide strike beginning September 28, coinciding with the half-yearly closure.

The issue of five-day banking has been pending for a long time, and even during conciliation meetings before the Chief Labour Commissioner, the government could not give any commitment on the introduction of 5-day banking.

Hence, the agitation has been forced on the unions due to the actions of the government and management, All India Bank Officers' Confederation general secretary Rupam Roy said.

Canara Bank to raise up to ₹4,500 cr via AT-1 bonds

FE BUREAU
Mumbai, September 10

CANARA BANK IS planning to raise up to ₹4,500 crore through Basel III-compliant additional tier 1 (AT-1) bonds, it said on Thursday.

This move is part of the board-approved fundraising proposal to mobilise up to ₹4,500 crore through AT-1 bonds and ₹4,000 crore through tier 2 bonds.

"The proposed AT-1 issuance will further strengthen the bank's capital position and provide additional headroom to support its business growth while maintaining a strong capital base and financial resilience," a press release issued by the bank said.

The proposed bond

GROWTH PATH

■ The issuance is expected to be offered via the electronic bidding platform of the NSE on September 16

■ These bonds will be perpetual debt instruments with a call option of 5 years

■ Canara Bank is on track to achieve a business size of ₹30 lakh crore

issuance is expected to be offered via the electronic bidding platform of the NSE on

September 16, from 12:00 pm to 1:00 pm. It is anticipated to generate strong interest among investors, with the market expecting a coupon rate of 7.85%-7.90%.

These bonds will be perpetual debt instruments with a call option of 5 years, subject to regulatory clearance. They have been rated "AA+; Stable" by IcrA Ratings and "AA+; Stable" by India Ratings, the release said.

Currently, Canara Bank is on track to achieve a business size of ₹30 lakh crore, backed by growth in deposits and advances across the retail, agriculture, MSME and corporate segments. The bank has mobilised \$5.80 billion through the FCNR(B) swap facility.

FROM THE FRONT PAGE

Meet may usher in India-China economic...

DISRUPTIONS IN GLOBAL trade due to US tariff actions, the war in West Asia, and soaring energy prices provide the context for the deliberations.

India's presidency is seeking concrete economic deliverables rather than another broad political statement.

The economic agenda is likely to be dominated by the Strategy for BRICS Economic Partnership 2030, which India wants as a longer-term framework for expanding intra-BRICS trade and investment, strengthening supply chains, promoting technology and innovation and improving financial and digital connectivity. The 2030 strategy proposed at the 17th BRICS Summit in Rio de Janeiro last year will succeed the Strategy for

BRICS Economic Partnership 2025. The BRICS economic agenda could provide India with a platform to push greater South-South trade and investment without turning the grouping into an explicitly anti-US or anti-Western bloc, the sources added.

India is also expected to favour practical financial cooperation, including cross-border digital payments, local-currency settlements and greater interoperability among payment systems, rather than making dollarisation the central political objective.

The first day, September 12, will focus on leaders' discussions on global issues during the closed session "Inclusive Global Governance and Strengthening

Multilateralism". The second day will include expanded discussions with BRICS partner countries on economic issues in the session on "Resilience, Innovation, Cooperation and Sustainability: Shaping the Future for Inclusive Global Growth" and is expected to culminate in the New Delhi Declaration.

Bilaterals with Russia, China

Xi will be visiting India for the first time since the 2020 Galwan clash. India recently relaxed the foreign direct investment (FDI) rules to permit non-controlling investments of up to 10% from countries sharing a land border such as China through the automatic route.

Modi and Xi in their meeting on September 12 are expected to discuss the overall bilateral relationship, the border situation and economic ties, with trade, investment and technology access likely to figure prominently. Indian industry continues to seek greater access to Chinese capital goods, components and technology, particularly for manufacturing, renewable energy, electronics and other emerging sectors. At the same time, New Delhi remains concerned about the widening trade imbalance and China's dominance in several strategic supply chains.

With Russia the bilateral meeting on September 11 is expected to focus on energy, defence and the wider strategic partnership.

INVESTORS FAILED TO PRODUCE SUFFICIENT ADMISSIBLE EVIDENCE: COURT

HDFC Bank wins 7 Bahrain cases over CS AT1 bonds

FE BUREAU
Mumbai, September 10

THE BAHRAIN HIGH Civil Court has rejected all seven legal proceedings filed against HDFC Bank by investors over their investments in Credit Suisse Additional Tier 1 (AT1) bonds, the bank said in a press release on Thursday.

The latest two orders were issued on September 9, while five other cases involving investors in the Credit Suisse AT1 bonds were rejected by the Bahrain court in July and August.

On Thursday, shares of the bank closed 0.7% higher at ₹693.80 on the NSE.

The investors had alleged gross negligence, intentional misrepresentation, incorrect customer classification, non-disclosure of product features, misuse of financial leverage and violation of product suit-

HUGE RELIEF

HDFC Bank (intra-day, Sept 10)

■ The latest two orders were issued on Sept 9, while other 5 happened in July and August

■ The bank said it would "defend itself rigorously against any unsubstantiated claims"

ability principles in relation to their investments through HDFC Bank.

The court rejected the claims, finding that investors had failed to produce sufficient admissible evidence to substantiate the allegations against the bank or establish

that they had suffered losses due to the bank, it said. In all seven cases, investors were also directed to bear the costs of the proceedings.

The favourable orders in Bahrain follow the dismissal in March by the National Consumer Disputes Redressal

Commission (NCDRC) of complaints filed by investors against HDFC Bank in relation to the Credit Suisse AT1 bonds.

According to HDFC Bank, the bank acted only as a facilitator and that investors had the autonomy to make their investment decisions. The commission also observed that the investors "voluntarily with their open eyes chose to make these investments" and approached the bank after the investments failed to deliver the expected returns, the bank said.

The bank said it would stand with its customers, however it is not in the business of underwriting investments made by the customers out of their own judgement and it will therefore "defend itself rigorously against any unsubstantiated claims".

Retail rush pushes monthly SIP contributions to record high in Aug

KUSHAN SHAH
Mumbai, September 10

RETAIL INVESTORS STEPPED up their mutual fund bets in August, pushing monthly systematic investment plan (SIP) contributions to an all-time high of ₹32,297 crore, the second record set this year.

The number of SIP-contributing accounts also crossed the 100-million milestone, rising by 1.2 million during the month to 100.2 million. The mutual fund industry's net assets under management climbed 1.5% to a record ₹87.08 lakh crore.

Saugata Chatterjee, president and deputy CEO, Nippon India Mutual Fund, said record SIP contributions, coupled with a moderating stoppage ratio, demonstrate the growing investment discipline among Indian investors.

The retail appetite was particularly strong in the riskier corners of the equity market. Net equity inflows jumped 19% month-on-month, led by record flows into small- and mid-cap funds. Small-cap schemes attracted about ₹8,000 crore, while mid-cap funds received close to ₹7,000 crore. Together, the two categories accounted for more than half of total equity inflows during the month.

The surge came despite concerns over valuations and

NEW MILESTONE

■ Number of SIP-contributing accounts also crossed the 100 mn milestone, rising to 100.2 mn during the month

■ The mutual fund industry's net AUM climbed 1.5% to a record ₹87.08 lakh crore

■ The retail appetite was particularly strong in the riskier corners of the equity market

volatility in the broader market.

Chatterjee added that the continued preference for small- and mid-cap funds reflects investors' desire to participate in opportunities across corporate India. However, given the nature of these segments, disciplined allocation, patience and a longer investment horizon remain important, he said.

Manish Mehta, chief business officer, SBI Mutual Fund, said strong SIP books in the two categories supported the inflows. He also credited the distribution community for handholding investors through a period of market volatility.

Harish Krishnan, CIO-

equity, Aditya Birla Sun Life AMC, cautioned investors about the wide dispersion in valuations and underlying fundamentals. Investors should focus on businesses with improving earnings visibility, sustainable competitive advantages and sound balance sheets, he said.

Flexi-cap funds also drew strong interest, attracting more than ₹5,000 crore during August.

The month also saw a change in Amfi's fund classification, with the erstwhile sectoral and thematic category split into two. Sectoral funds recorded net outflows of more than ₹50 crore, while thematic funds attracted ₹1,766 crore.

Beyond equities, hybrid funds received net inflows of about ₹10,000 crore. More than 60% of these flows went into arbitrage and multi-asset allocation funds, with each category attracting more than ₹3,500 crore. Balanced advantage, equity savings and conservative hybrid funds, however, recorded net outflows.

Passive products continued to draw investor money. Equity exchange-traded funds led the pack with inflows of more than ₹7,230 crore, while equity index funds attracted ₹2,393 crore.

Precious-metal funds also gained traction. Gold ETFs received ₹2,597 crore, up 67% from the previous month, while silver ETFs attracted ₹1,271 crore.

Himanshu Srivastava, principal-manager research, Morningstar Investment Research India, said the acceleration in gold ETF flows coincided with a strong recovery in gold prices during the month, indicating renewed investor preference for the asset class amid persistent macroeconomic and geopolitical uncertainties.

Debt funds, in contrast, recorded net outflows of ₹8,127 crore, largely due to withdrawals of more than ₹30,650 crore from overnight schemes. Liquid and money market funds, however, saw substantial inflows.

Bank strike today, services to be affected

PRESS TRUST OF INDIA
New Delhi, September 10

BANKING SERVICES LIKE cash withdrawals and deposits at public sector banks will be impacted on Friday as unions have decided to go on strike to press for five-day banking and other pending demands.

With the strike, banking services, especially in public sector banks, would be impacted for four days in many parts of the country. September 11 is a Friday, and the subsequent two days are bank holidays. September 14 is a holiday in some states for Ganesh Chaturthi.

Meanwhile, most public sector banks have informed their customers of the likely impact of the strike on operations.

SBI said, "We advise that while the bank has made all necessary arrangements to ensure normal functioning of the branches and offices on the days of strike, it is likely that work in the bank may be impacted by the strike."

UFBU, an umbrella body of seven bank employees' and officers' unions, has also threatened a three-day subsequent nationwide strike beginning September 28, coinciding with the half-yearly closure.

The issue of five-day banking has been pending for a long time, and even during conciliation meetings before the Chief Labour Commissioner, the government could not give any commitment on the introduction of 5-day banking.

Hence, the agitation has been forced on the unions due to the actions of the government and management, All India Bank Officers' Confederation general secretary Rupam Roy said.

Canara Bank to raise up to ₹4,500 cr via AT-1 bonds

FE BUREAU
Mumbai, September 10

CANARA BANK IS planning to raise up to ₹4,500 crore through Basel III-compliant additional tier 1 (AT-1) bonds, it said on Thursday.

This move is part of the board-approved fundraising proposal to mobilise up to ₹4,500 crore through AT-1 bonds and ₹4,000 crore through tier 2 bonds.

"The proposed AT-1 issuance will further strengthen the bank's capital position and provide additional headroom to support its business growth while maintaining a strong capital base and financial resilience," a press release issued by the bank said.

The proposed bond

GROWTH PATH

■ The issuance is expected to be offered via the electronic bidding platform of the NSE on September 16

■ These bonds will be perpetual debt instruments with a call option of 5 years

■ Canara Bank is on track to achieve a business size of ₹30 lakh crore

issuance is expected to be offered via the electronic bidding platform of the NSE on

September 16, from 12:00 pm to 1:00 pm. It is anticipated to generate strong interest among investors, with the market expecting a coupon rate of 7.85%-7.90%.

These bonds will be perpetual debt instruments with a call option of 5 years, subject to regulatory clearance. They have been rated "AA+; Stable" by Ica Ratings and "AA+; Stable" by India Ratings, the release said.

Currently, Canara Bank is on track to achieve a business size of ₹30 lakh crore, backed by growth in deposits and advances across the retail, agriculture, MSME and corporate segments. The bank has mobilised \$5.80 billion through the FCNR(B) swap facility.

Meet may usher in India-China economic...

DISRUPTIONS IN GLOBAL trade due to US tariff actions, the war in West Asia, and soaring energy prices provide the context for the deliberations.

India's presidency is seeking concrete economic deliverables rather than another broad political statement.

The economic agenda is likely to be dominated by the Strategy for BRICS Economic Partnership 2030, which India wants as a longer-term framework for expanding intra-BRICS trade and investment, strengthening supply chains, promoting technology and innovation and improving financial and digital connectivity. The 2030 strategy proposed at the 17th BRICS Summit in Rio de Janeiro last year will succeed the Strategy for

BRICS Economic Partnership 2025. The BRICS economic agenda could provide India with a platform to push greater South-South trade and investment without turning the grouping into an explicitly anti-US or anti-Western bloc, the sources added.

India is also expected to favour practical financial cooperation, including cross-border digital payments, local-currency settlements and greater interoperability among payment systems, rather than making dollarisation the central political objective.

The first day, September 12, will focus on leaders' discussions on global issues during the closed session "Inclusive Global Governance and Strengthening

Multilateralism". The second day will include expanded discussions with BRICS partner countries on economic issues in the session on "Resilience, Innovation, Cooperation and Sustainability: Shaping the Future for Inclusive Global Growth" and is expected to culminate in the New Delhi Declaration.

Bilaterals with Russia, China

Xi will be visiting India for the first time since the 2020 Galwan clash. India recently relaxed the foreign direct investment (FDI) rules to permit non-controlling investments of up to 10% from countries sharing a land border such as China through the automatic route.

Modi and Xi in their meeting on September 12 are expected to discuss the overall bilateral relationship, the border situation and economics, with trade, investment and technology access likely to figure prominently. Indian industry continues to seek greater access to Chinese capital goods, components and technology, particularly for manufacturing, renewable energy, electronics and other emerging sectors. At the same time, New Delhi remains concerned about the widening trade imbalance and China's dominance in several strategic supply chains.

With Russia the bilateral meeting on September 11 is expected to focus on energy, defence and the wider strategic partnership.

HDFC Bank wins 7 Bahrain cases over CS AT1 bonds

FE BUREAU
Mumbai, September 10

THE BAHRAIN HIGH Civil Court has rejected all seven legal proceedings filed against HDFC Bank by investors over their investments in Credit Suisse Additional Tier 1 (AT1) bonds, the bank said in a press release on Thursday.

The latest two orders were issued on September 9, while five other cases involving investors in the Credit Suisse AT1 bonds were rejected by the Bahrain court in July and August.

On Thursday, shares of the bank closed 0.7% higher at ₹693.80 on the NSE.

The investors had alleged gross negligence, intentional misrepresentation, incorrect customer classification, non-disclosure of product features, misuse of financial leverage and violation of product suit-

■ The bank said it would "defend itself rigorously against any unsubstantiated claims"

Commission (NCDRC) of complaints filed by investors against HDFC Bank in relation to the Credit Suisse AT1 bonds.

According to HDFC Bank, the NCDRC had held that the bank acted only as a facilitator and that investors had the autonomy to make their investment decisions. The commission also observed that the investors "voluntarily with their open eyes chose to make these investments" and approached the bank after the investments failed to deliver the expected returns, the bank said.

The bank said it would stand with its customers, however it is not in the business of underwriting investments made by the customers out of their own judgement and it will therefore "defend itself rigorously against any unsubstantiated claims".

FE BUREAU

CANARA BANK IS planning to raise up to ₹4,500 crore through Basel III-compliant additional tier 1 (AT-1) bonds, it said on Thursday.

This move is part of the board-approved fundraising proposal to mobilise up to ₹4,500 crore through AT-1 bonds and ₹4,000 crore through tier 2 bonds.

"The proposed AT-1 issuance will further strengthen the bank's capital position and provide additional headroom to support its business growth while maintaining a strong capital base and financial resilience," a press release issued by the bank said.

issuance is expected to be offered via the electronic bidding platform of the NSE on

September 16, from 12:00 pm to 1:00 pm. It is anticipated to generate strong interest among investors, with the market expecting a coupon rate of 7.85%-7.90%.

These bonds will be perpetual debt instruments with a call option of 5 years, subject to regulatory clearance. They have been rated "AA+; Stable" by Ica Ratings and "AA+; Stable" by India Ratings, the release said.

Currently, Canara Bank is on track to achieve a business size of ₹30 lakh crore, backed by growth in deposits and advances across the retail, agriculture, MSME and corporate segments. The bank has mobilised \$5.80 billion through the FCNR(B) swap facility.

Retail rush pushes monthly SIP contributions to record high in Aug

KUSHAN SHAH
Mumbai, September 10

RETAIL INVESTORS STEPPED UP their mutual fund bets in August, pushing monthly systematic investment plan (SIP) contributions to an all-time high of ₹32,297 crore, the second record set this year.

The number of SIP-contributing accounts also crossed the 100-million milestone, rising by 1.2 million during the month to 100.2 million. The mutual fund industry's net assets under management climbed 1.5% to a record ₹87.08 lakh crore.

Saugata Chatterjee, president and deputy CEO, Nippon India Mutual Fund, said record SIP contributions, coupled with a moderating stoppage ratio, demonstrate the growing investment discipline among Indian investors.

The retail appetite was particularly strong in the riskier corners of the equity market. Net equity inflows jumped 19% month-on-month, led by record flows into small- and mid-cap funds. Small-cap schemes attracted about ₹8,000 crore, while mid-cap funds received close to ₹7,000 crore. Together, the two categories accounted for more than half of total equity inflows during the month.

The surge came despite concerns over valuations and

NEW MILESTONE

■ Number of SIP-contributing accounts also crossed the 100 mn milestone, rising to 100.2 mn during the month

■ The mutual fund industry's net AUM climbed 1.5% to a record ₹87.08 lakh crore

■ The retail appetite was particularly strong in the riskier corners of the equity market

Beyond equities, hybrid funds received net inflows of about ₹10,000 crore. More than 60% of these flows went into arbitrage and multi-asset allocation funds, with each category attracting more than ₹3,500 crore. Balanced advantage, equity savings and conservative hybrid funds, however, recorded net outflows.

Passive products continued to draw investor money. Equity exchange-traded funds led the pack with inflows of more than ₹7,230 crore, while equity index funds attracted ₹2,393 crore.

Precious-metal funds also gained traction. Gold ETFs received ₹2,597 crore, up 67% from the previous month, while silver ETFs attracted ₹1,271 crore.

Himanshu Srivastava, principal-manager research, Morningstar Investment Research India, said the acceleration in gold ETF flows coincided with a strong recovery in gold prices during the month, indicating renewed investor preference for the asset class amid persistent macroeconomic and geopolitical uncertainties.

Debt funds, in contrast, recorded net outflows of ₹8,127 crore, largely due to withdrawals of more than ₹30,650 crore from overnight schemes. Liquid and money market funds, however, saw substantial inflows.

volatility in the broader market.

Chatterjee added that the continued preference for small- and mid-cap funds reflects investors' desire to participate in opportunities across corporate India. However, given the nature of these segments, disciplined allocation, patience and a longer investment horizon remain important, he said.

Manish Mehta, chief business officer, SBI Mutual Fund, said strong SIP books in the two categories supported the inflows. He also credited the distribution community for handholding investors through a period of market volatility.

Harish Krishnan, CIO-

equity, Aditya Birla Sun Life AMC, cautioned investors about the wide dispersion in valuations and underlying fundamentals. Investors should focus on businesses with improving earnings visibility, sustainable competitive advantages and sound balance sheets, he said.

Flexi-cap funds also drew strong interest, attracting more than ₹5,000 crore during August.

The month also saw a change in Amfi's fund classification, with the erstwhile sectoral and thematic category split into two. Sectoral funds recorded net outflows of more than ₹50 crore, while thematic funds attracted ₹1,766 crore.

Bank strike today, services to be affected

PRESS TRUST OF INDIA
New Delhi, September 10

BANKING SERVICES LIKE cash withdrawals and deposits at public sector banks will be impacted on Friday as unions have decided to go on strike to press for five-day banking and other pending demands.

With the strike, banking services, especially in public sector banks, would be impacted for four days in many parts of the country. September 11 is a Friday, and the subsequent two days are bank holidays. September 14 is a holiday in some states for Ganesh Chaturthi.

Meanwhile, most public sector banks have informed their customers of the likely impact of the strike on operations.

SBI said, "We advise that while the bank has made all necessary arrangements to ensure normal functioning of the branches and offices on the days of strike, it is likely that work in the bank may be impacted by the strike."

UFB, an umbrella body of seven bank employees' and officers' unions, has also threatened a three-day subsequent nationwide strike beginning September 28, coinciding with the half-yearly closure.

The issue of five-day banking has been pending for a long time, and even during conciliation meetings before the Chief Labour Commissioner, the government could not give any commitment on the introduction of 5-day banking.

Hence, the agitation has been forced on the unions due to the actions of the government and management, All India Bank Officers' Confederation general secretary Rupam Roy said.

INVESTORS FAILED TO PRODUCE SUFFICIENT ADMISSIBLE EVIDENCE: COURT

HDFC Bank wins 7 Bahrain cases over CS AT1 bonds

FE BUREAU
Mumbai, September 10

THE BAHRAIN HIGH Civil Court has rejected all seven legal proceedings filed against HDFC Bank by investors over their investments in Credit Suisse Additional Tier 1 (AT1) bonds, the bank said in a press release on Thursday.

The latest two orders were issued on September 9, while five other cases involving investors in the Credit Suisse AT1 bonds were rejected by the Bahrain court in July and August.

On Thursday, shares of the bank closed 0.7% higher at ₹693.80 on the NSE.

The investors had alleged gross negligence, intentional misrepresentation, incorrect customer classification, non-disclosure of product features, misuse of financial leverage and violation of product suit-

ability principles in relation to their investments through HDFC Bank.

The court rejected the claims, finding that investors had failed to produce sufficient admissible evidence to substantiate the allegations against the bank or establish

that they had suffered losses due to the bank, it said. In all seven cases, investors were also directed to bear the costs of the proceedings.

The favourable orders in Bahrain follow the dismissal in March by the National Consumer Disputes Redressal

Commission (NCDRC) of complaints filed by investors against HDFC Bank in relation to the Credit Suisse AT1 bonds.

According to HDFC Bank, the NCDRC had held that the bank acted only as a facilitator and that investors had the autonomy to make their investment decisions. The commission also observed that the investors "voluntarily with their open eyes chose to make these investments" and approached the bank after the investments failed to deliver the expected returns, the bank said.

The bank said it would stand with its customers, however it is not in the business of underwriting investments made by the customers out of their own judgement and it will therefore "defend itself rigorously against any unsubstantiated claims".

Retail rush pushes monthly SIP contributions to record high in Aug

KUSHAN SHAH
Mumbai, September 10

RETAIL INVESTORS STEPPED up their mutual fund bets in August, pushing monthly systematic investment plan (SIP) contributions to an all-time high of ₹32,297 crore, the second record set this year.

The number of SIP-contributing accounts also crossed the 100-million milestone, rising by 1.2 million during the month to 100.2 million. The mutual fund industry's net assets under management climbed 1.5% to a record ₹87.08 lakh crore.

Saugata Chatterjee, president and deputy CEO, Nippon India Mutual Fund, said record SIP contributions, coupled with a moderating stoppage ratio, demonstrate the growing investment discipline among Indian investors.

The retail appetite was particularly strong in the riskier corners of the equity market. Net equity inflows jumped 19% month-on-month, led by record flows into small- and mid-cap funds. Small-cap schemes attracted about ₹8,000 crore, while mid-cap funds received close to ₹7,000 crore. Together, the two categories accounted for more than half of total equity inflows during the month.

The surge came despite concerns over valuations and

NEW MILESTONE

- Number of SIP-contributing accounts also crossed the **100 mn** milestone, rising to **100.2 mn** during the month
- The mutual fund industry's net AUM climbed 1.5% to a record **₹87.08 lakh crore**
- The retail appetite was particularly strong in the riskier corners of the equity market

volatility in the broader market.

Chatterjee added that the continued preference for small- and mid-cap funds reflects investors' desire to participate in opportunities across corporate India. However, given the nature of these segments, disciplined allocation, patience and a longer investment horizon remain important, he said.

Manish Mehta, chief business officer, SBI Mutual Fund, said strong SIP books in the two categories supported the inflows. He also credited the distribution community for handholding investors through a period of market volatility.

Harish Krishnan, CIO-

equity, Aditya Birla Sun Life AMC, cautioned investors about the wide dispersion in valuations and underlying fundamentals. Investors should focus on businesses with improving earnings visibility, sustainable competitive advantages and sound balance sheets, he said.

Flexi-cap funds also drew strong interest, attracting more than ₹5,000 crore during August.

The month also saw a change in Amfi's fund classification, with the erstwhile sectoral and thematic category split into two. Sectoral funds recorded net outflows of more than ₹50 crore, while thematic funds attracted ₹1,766 crore.

Beyond equities, hybrid funds received net inflows of about ₹10,000 crore. More than 60% of these flows went into arbitrage and multi-asset allocation funds, with each category attracting more than ₹3,500 crore. Balanced advantage, equity savings and conservative hybrid funds, however, recorded net outflows.

Passive products continued to draw investor money. Equity exchange-traded funds led the pack with inflows of more than ₹7,230 crore, while equity index funds attracted ₹2,393 crore.

Precious-metal funds also gained traction. Gold ETFs received ₹2,597 crore, up 67% from the previous month, while silver ETFs attracted ₹1,271 crore.

Himanshu Srivastava, principal-manager research, Morningstar Investment Research India, said the acceleration in gold ETF flows coincided with a strong recovery in gold prices during the month, indicating renewed investor preference for the asset class amid persistent macroeconomic and geopolitical uncertainties.

Debt funds, in contrast, recorded net outflows of ₹8,127 crore, largely due to withdrawals of more than ₹30,650 crore from overnight schemes. Liquid and money market funds, however, saw substantial inflows.

Bank strike today, services to be affected

PRESS TRUST OF INDIA
New Delhi, September 10

BANKING SERVICES LIKE cash withdrawals and deposits at public sector banks will be impacted on Friday as unions have decided to go on strike to press for five-day banking and other pending demands.

With the strike, banking services, especially in public sector banks, would be impacted for four days in many parts of the country. September 11 is a Friday, and the subsequent two days are bank holidays. September 14 is a holiday in some states for Ganesh Chaturthi.

Meanwhile, most public sector banks have informed their customers of the likely impact of the strike on operations.

SBI said, "We advise that while the bank has made all necessary arrangements to ensure normal functioning of the branches and offices on the days of strike, it is likely that work in the bank may be impacted by the strike."

UFFBU, an umbrella body of seven bank employees' and officers' unions, has also threatened a three-day subsequent nationwide strike beginning September 28, coinciding with the half-yearly closure.

The issue of five-day banking has been pending for a long time, and even during conciliation meetings before the Chief Labour Commissioner, the government could not give any commitment on the introduction of 5-day banking.

Hence, the agitation has been forced on the unions due to the actions of the government and management, All India Bank Officers' Confederation general secretary Rupam Roy said.

Canara Bank to raise up to ₹4,500 cr via AT-1 bonds

FE BUREAU
Mumbai, September 10

CANARA BANK IS planning to raise up to ₹4,500 crore through Basel III-compliant additional tier 1 (AT-1) bonds, it said on Thursday.

This move is part of the board-approved fundraising proposal to mobilise up to ₹4,500 crore through AT-1 bonds and ₹4,000 crore through tier 2 bonds.

"The proposed AT-1 issuance will further strengthen the bank's capital position and provide additional headroom to support its business growth while maintaining a strong capital base and financial resilience," a press release issued by the bank said.

The proposed bond

GROWTH PATH

■ The issuance is expected to be offered via the electronic bidding platform of the NSE on September 16

■ These bonds will be perpetual debt instruments with a call option of 5 years

■ Canara Bank is on track to achieve a business size of **₹30 lakh crore**

issuance is expected to be offered via the electronic bidding platform of the NSE on

September 16, from 12:00 pm to 1:00 pm. It is anticipated to generate strong interest among investors, with the market expecting a coupon rate of 7.85%-7.90%.

These bonds will be perpetual debt instruments with a call option of 5 years, subject to regulatory clearance. They have been rated "AA+; Stable" by Ica Ratings and "AA+; Stable" by India Ratings, the release said.

Currently, Canara Bank is on track to achieve a business size of ₹30 lakh crore, backed by growth in deposits and advances across the retail, agriculture, MSME and corporate segments. The bank has mobilised \$5.80 billion through the FCNR(B) swap facility.

Meet may usher in India-China economic...

DISRUPTIONS IN GLOBAL trade due to US tariff actions, the war in West Asia, and soaring energy prices provide the context for the deliberations.

India's presidency is seeking concrete economic deliverables rather than another broad political statement.

The economic agenda is likely to be dominated by the Strategy for BRICS Economic Partnership 2030, which India wants as a longer-term framework for expanding intra-BRICS trade and investment, strengthening supply chains, promoting technology and innovation and improving financial and digital connectivity. The 2030 strategy proposed at the 17th BRICS Summit in Rio de Janeiro last year will succeed the Strategy for

BRICS Economic Partnership 2025. The BRICS economic agenda could provide India with a platform to push greater South-South trade and investment without turning the grouping into an explicitly anti-US or anti-Western bloc, the sources added.

India is also expected to favour practical financial cooperation, including cross-border digital payments, local-currency settlements and greater interoperability among payment systems, rather than making dollarisation the central political objective.

The first day, September 12, will focus on leaders' discussions on global issues during the closed session "Inclusive Global Governance and Strengthening

Multilateralism". The second day will include expanded discussions with BRICS partner countries on economic issues in the session on "Resilience, Innovation, Cooperation and Sustainability: Shaping the Future for Inclusive Global Growth" and is expected to culminate in the New Delhi Declaration.

Bilaterals with Russia, China

Xi will be visiting India for the first time since the 2020 Galwan clash. India recently relaxed the foreign direct investment (FDI) rules to permit non-controlling investments of up to 10% from countries sharing a land border such as China through the automatic route.

Modi and Xi in their meeting on September 12 are expected to discuss the overall bilateral relationship, the border situation and economic ties, with trade, investment and technology access likely to figure prominently. Indian industry continues to seek greater access to Chinese capital goods, components and technology, particularly for manufacturing, renewable energy, electronics and other emerging sectors. At the same time, New Delhi remains concerned about the widening trade imbalance and China's dominance in several strategic supply chains.

With Russia the bilateral meeting on September 11 is expected to focus on energy, defence and the wider strategic partnership.
