ALL TIME PLASTICS LIMITED

Press Release

All Time Plastics Limited empanelled as Product and Market Development Partner under MoU with NECBDC for Engineered Bamboo Initiatives

Mumbai, January 26, 2026: All Time Plastics Limited (“ATPL” or “the Company”), a leading Indian manufacturer and exporter of injection-moulded household and consumerware products, announced that it has entered into a **Memorandum of Understanding (“MoU”)** with the **North East Cane and Bamboo Development Council (NECBDC)**, a statutory body under the **Ministry of Development of North Eastern Region (MDoNER), Government of India**.

The MoU was signed at **Guwahati** in the presence of the **Honourable Union Minister of Development of North Eastern Region, Shri Jyotiraditya M. Scindia**.

Under the MoU, ATPL has been empanelled as a **Product and Market Development Partner (PMDP)** to support initiatives relating to the development and value addition of engineered bamboo boards and panels originating from the North Eastern Region (NER).

The proposed engagement, initially envisaged to be anchored in **Assam and Nagaland**, is intended to support ecosystem-level interventions across product development and prototyping, manufacturing process inputs, sustainability and certification readiness (including FSC and other applicable standards) and domestic and export market linkage for engineered and value-added bamboo products.

The MoU establishes a **non-exclusive and non-binding framework for collaboration** between ATPL and NECBDC.

ALL TIME PLASTICS LIMITED

Any commercial engagement, investment deployment, or revenue model, if pursued, shall be governed exclusively through separate, assignment-specific agreements, subject to ATPL's internal approvals, commercial evaluation, and applicable regulatory requirements. The MoU shall remain valid for a period of **three years** from the date of execution, unless extended by mutual consent.

The engagement provides ATPL with a **structured entry point into the engineered bamboo ecosystem**, aligned with its **long-term focus on responsible sourcing and material diversification**.

Commenting on the collaboration, **Mr. Kailesh Shah, Chairman & Managing Director, All Time Plastics Limited** said, *"This MoU provides a structured and policy-supported framework to explore collaboration in the engineered bamboo segment, which is gaining relevance globally as a sustainable and renewable material. The engagement aligns with our long-term priorities around material diversification, sustainability and responsible sourcing, while maintaining full commercial flexibility. We believe such initiatives can contribute meaningfully to ecosystem development in the North Eastern Region of India."*

Elaborating on NECBDC's objectives, **Mr. M.C. Omi Ningshen, Managing Director, NECBDC** said, *"NECBDC is advancing the promotion of engineered bamboo as a modern, industrial material—moving beyond traditional uses to high-value boards, panels, and structural applications. The engagement of All Time Plastics as the Product and Market Development Partner (PMDP) brings critical industry expertise in product engineering, quality standardisation, and market-led design. This partnership will help bridge the gap between bamboo clusters in the North Eastern Region and national as well as global markets, while laying the foundation for a scalable, export-oriented engineered bamboo ecosystem."*

About All Time Plastics Limited

All Time Plastics Limited (ATPL) is a leading Indian manufacturer and exporter of injection-moulded household and consumerware products, with manufacturing operations dating back to 1971. The company primarily operates under a B2B white-label manufacturing model for global retailers, while also offering select products under its proprietary "All Time Branded Products" brand in the domestic B2C segment.

ATPL designs, develops and manufactures a wide range of consumerware products across kitchenware, storage, cleaning, home organisation, bath, hangers and children's utility categories. The company operates three fully integrated manufacturing facilities located at Daman, Silvassa and Khatalwada (Gujarat), equipped with all-electric injection-moulding machines and has an installed capacity of approximately 37,000 metric tonnes per annum as of Q2FY26.

ATPL exports to around 29 countries with a strong presence in the Europe, UK, United States and Australia, supported by a workforce of over 2,200 employees. The company serves several leading global retailers, including IKEA, Asda, Michaels and Tesco, backed by in-house product design capabilities and a broad SKU portfolio. ATPL has also established a pilot bamboo-based products facility, reflecting its focus on material innovation and sustainable product offerings.
