NHAI debt declines below ₹2 lakh crore

● Borrowing freeze, prompt repayment lower burden

MUKESH JAGOTA
New Delhi, April 27

THE OUTSTANDING DEBT of the National Highways Authority of India (NHAI) has dropped below ₹2 lakh crore, following the repayment of ₹6,057 crore in the first 15 days of the current financial year.

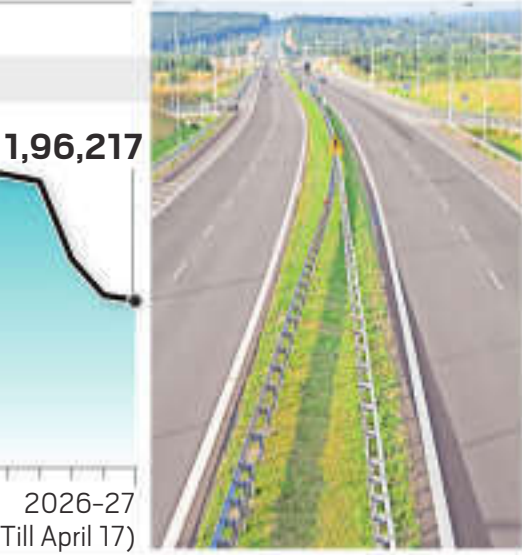

By April 17 this year, NHAI's debt dropped to ₹1.96 lakh crore, following the repayment of ₹6,057 crore in the first 15 days of the current financial year.

During 2025-26, the NHAI repaid ₹42,265 crore of loans, of which ₹31,011 crore was prepayment and ₹11,251 crore was the repayment of principal.

In 2024-25, the agency had repaid ₹90,635 crore, of which ₹50,000 crore was the

ROAD TO RECOVERY

NHAI debt path

repayment of loans raised from the National Small Savings Fund.

As fresh borrowings were strictly curbed, the government picked up the costs of highway development while creating alternate revenue streams in the form of asset monetisation.

Proceeds from the monetisation of highways through infrastructure investment trusts are exclusively used for debt repayment.

Since monetisation through INVIT started, NHAI has raised ₹59,524 crore through that route.

As per the National Monetisation Pipeline 2.0, which will run from FY26 to FY30, the highway sector is expected to contribute ₹4.42 lakh crore of the overall target of ₹16.72 lakh crore.

For FY27, the monetisation target is ₹68,700 crore which includes private investment in various highways, ropeway and logistics projects.

Oil gap widens: 13.7 MBD supply loss

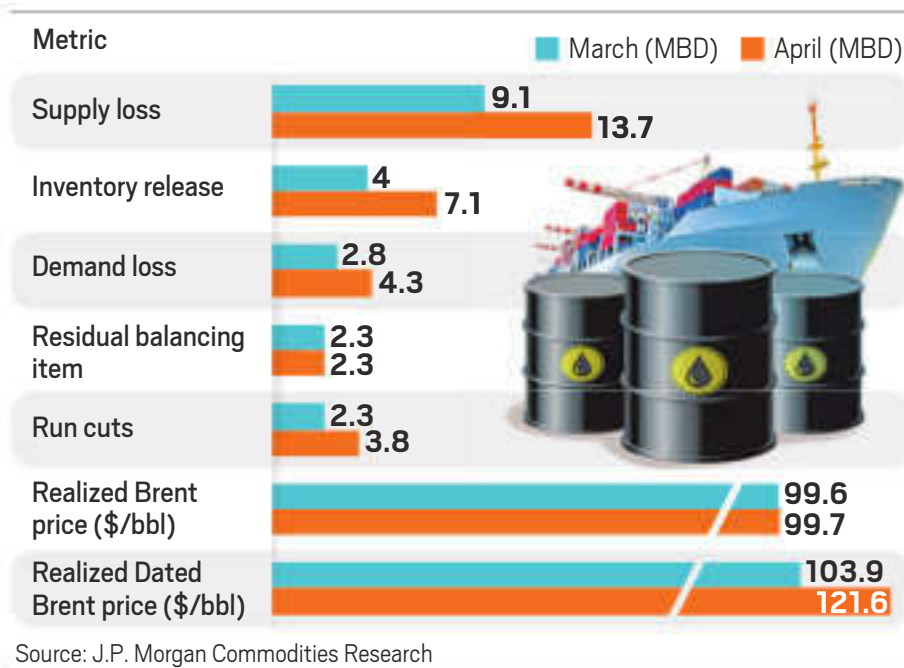

● Forces 7.1 MBD inventory draw

SAURAV ANAND
New Delhi, April 27

A WIDENING GLOBAL oil supply disruption — surging from 9.1 million barrels per day (MBD) in March to 13.7 MBD in April — has triggered a 4.3 MBD demand contraction, forced 7.1 MBD inventory drawdowns, and left a residual 2 MBD imbalance, signalling mounting pressure on global oil prices and market stability.

The scale of the disruption is exposing deep structural stress across the oil system, where multiple balancing mechanisms are failing simultaneously, pushing markets into a phase of forced and disorderly adjustment.

RISING PRESSURE

According to a JPMorgan analysis, "the disruption to global supply totalled 9.1 MBD in March and widened to 13.7

MBD in April. Yet the first balancing lever — spare capacity — failed to engage," effectively removing the industry's primary shock absorber. Spare

capacity, largely concentrated in Saudi Arabia and the UAE, has been cut off from global markets, leaving limited room for immediate supply response. Even in the US, output increases are expected to be gradual, with only 0.3–0.7 MBD likely over 3–6 months, and larger gains taking longer to materialise.

With supply flexibility constrained, the burden of adjustment has shifted sharply to inventories. "With spare capacity constrained, the second lever — inventories — was activated almost immediately," the report said, adding that "observable commercial and strategic inventories drew by 4.0 MBD in March and an extraordinary 7.1 MBD in April." However, even these aggressive drawdowns have not been sufficient to restore

balance. The market continues to face a structural shortfall, with the report noting that "the market would still need to clear an additional 2 MBD through lower demand or through even larger inventory draws."

The adjustment is increasingly visible on the demand side. Global oil consumption fell by 2.8 MBD in March and is tracking a sharper 4.3 MBD fall in April, levels that rival downturns seen during major economic crises. Importantly, the report clarifies that the nature of this decline is atypical.

"This suggests that much of the decline is not traditional, price-driven 'demand destruction' but rather forced demand loss caused by missing supply," indicating that physical shortages are constraining consumption across markets.

Togo-flagged tanker with 12 Indian crew hit by Iran

A TOGO-FLAGGED CHEMICAL tanker carrying Indian seafarers was intercepted by the Iranian coast guard near the Strait of Hormuz, with warning shots fired, even as officials confirmed that all crew members are safe.

The vessel, identified as Chiron 7, was sailing near Oman's Shinas port on April 25 when Iranian forces moved to intercept a group of ships

amid heightened tensions in the region. The incident underscores growing risks to commercial shipping in one of the world's most critical maritime corridors.

Shipping ministry officials said the tanker had Indian crew on board and was part of a convoy of vessels navigating the area. "This ship, along with a few others, was sailing in the area and the Iranian coast

Iranian forces had fired upon 3 foreign-flagged vessels last week, two of which had Indian crew on board

guard asked for the ships to be intercepted, and some warning shots were fired by them," said Mandeep Singh Randhawa, director, ministry of ports,

shipping and waterways.

He confirmed that no injuries were reported. "All Indian seafarers are safe. The ministry is in regular touch with the ministry of external Affairs, Indian missions, and maritime stakeholders," Randhawa said.

The shipping ministry also stated that the incident took place near the outer port limits of Shinas. "The vessel was sailing along with other ships

when it was intercepted by the Iranian Coast Guard, which fired warning shots. All Indian crew members are safe," it said.

The development comes days after similar incidents in the region. Iranian forces had fired upon three foreign-flagged vessels last week, two of which had Indian crew on board, while two India-flagged ships were also targeted earlier, forcing them to turn back.

TN, Karnataka top beneficiaries under PM Jan Arogya Yojana

PRASANTA SAHU
New Delhi, April 27

THE SOUTHERN STATES of Tamil Nadu and Karnataka are the top beneficiaries of the free hospitalisation benefits under the Pradhan Mantri Jan Arogya Yojana (PM-JAY), reflecting their systemic efficiency compared to populous and aspirational states like Uttar Pradesh and Bihar.

Free hospital care worth over ₹1.51 lakh crore has been provided to beneficiaries under the scheme, which

offers ₹5,00,000-a-year free health cover to the 40% of the bottom of the pyramid, since the scheme was rolled out in September 2018.

Even though Uttar Pradesh leads in terms of Ayushman Cards issued and the number

of hospitals empanelled, Tamil Nadu saw the highest number of admissions (1.1 million) during the period, followed by Karnataka (10.93 million).

Authorised admissions under the scheme have reached 106.2 million so far across the country. Despite 6,213 hospitals or 17% of the total hospitals under the scheme (35,987) empanelled in Uttar Pradesh, the populous state comes in third in hospital admissions (9.3 million), reflecting systemic inefficiencies.

Quarterly Return Monthly Payment (QRMP)

A step towards ease of doing business for small taxpayers having Aggregate Annual Turnover up to ₹5 Crore during the F.Y. 2025-26

The eligible taxpayers who wish to avail the QRMP scheme may opt in by performing the following steps on the GST portal (www.gst.gov.in)

- Log in to the Taxpayers' Interface
- Go to Services > Returns > Opt-in for quarterly return option

TAXPAYERS ALREADY AVAILING QRMP SCHEME ARE NOT REQUIRED TO REAPPLY FOR THE SCHEME

Benefits

- File GST Statements>Returns in FORM GSTR-1 & GSTR-3B just once in a Quarter
- Easily opt in and opt out of the Scheme
- Enjoy the convenience of a Flexible Invoice Furnishing Facility (IFF)
- Self Assessment of ITC & Tax once every Quarter
- Pay monthly Tax conveniently using Fixed Sum Method (Pre-filled Challan) or Self-Assessment Method (actual tax due after adjusting ITC) in the first two months of a Quarter

Last date to opt for QRMP Scheme from Q1 of F.Y. 2026-27 is **30th April, 2026**

For more details, please refer to Notification No. 81 to 85/2020-Central Tax & Circular No. 143/13/2020-GST all dated 10.11.2020

GST Return Filing: Fast, Easy and Simplified
