Dear Sir/Madam,

Sub: Newspaper advertisement(s) pertaining to financial results of the Company for the quarter and half year ended September 30, 2026

Pursuant to Regulation 30 read with Schedule III Part A Para A and Regulation 47 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed herewith copies of newspaper advertisements published in Financial Express and Jansatta on Tuesday, October 13, 2026, in relation to unaudited financial results of the Company for the quarter and half year ended September 30, 2026.

These newspaper advertisement(s) includes a Quick Response code and the web link to access complete financial results for the said period.

This intimation would also be made available on the Company's website at www.icicipruamc.com.

We request you to please take the above information on record.

Form PAS-1

[Pursuant to Section 27(1) of Companies Act, 2013 and Rule 7(2) of Companies (Prospectus and Allotment of Securities) Rules, 2014]

Advertisement giving details of notice of Special Resolution for varying the terms of any contract referred to in the Prospectus or altering the objects for which the prospectus was issued

Corporate Identification Number (CIN) : L74999HR2003PLC124254
Name of the Company : Oswal Pumps Limited
Registered office address : Oswal Estate, NH-1, Kutail Road, P.O. Kutail, Distt. Karnal, Haryana-132037

Public Notice

Notice is hereby given that by a resolution dated October 10, 2026, the Board has proposed to vary the objects referred to in the prospectus dated June 17, 2025 ("Prospectus"), issued in connection with the initial public offering of fresh issue of 14,495,114 Equity Shares of Face Value of INR 1/- each at an issue price of Rs. 614/- per Equity Share aggregating to INR 8,900 million and offer for sale of 8,100,000 Equity Shares of Face Value INR 1/- each at an issue price of Rs. 614/- per Equity Share aggregating to INR 4,973.40 million.

In pursuance of the said resolution, further notice is given that for approving the said proposition, a Special Resolution is to be passed by postal ballot. The details regarding such variation/ alteration are as follows:

1. Particulars of the terms of the contract to be varied (or objects to be altered)

The Company had, in terms of Prospectus dated June 17, 2025 proposed to utilise the net proceeds from the fresh issue under the Initial Public Offer of its Equity Shares of INR 8,415.14 million (hereinafter referred to as "IPO Proceeds") in the following manner:

(a) funding certain capital expenditure of our Company;

(b) investment in our wholly-owned Subsidiary, Oswal Solar Energy Private Limited (formerly known as Oswal Solar Structure Private Limited) ("Oswal Solar"), in the form of equity, for funding the setting up of new manufacturing units at Karnal, Haryana;

(c) pre-payment/ re-payment, in part or full, of certain outstanding borrowings availed by our Company;

(d) investment in our wholly-owned Subsidiary, Oswal Solar, in the form of equity, for repayment/prepayment, in part or full, of certain outstanding borrowings availed by Oswal Solar; and

(e) general corporate purposes (collectively, the "Objects").

The Company had in terms of Prospectus proposed to utilise INR 2,727.58 million out of the IPO Proceeds towards investment in Oswal Solar in the form of equity, for funding the setting up of new manufacturing units at Karnal, Haryana as detailed below:

(i) manufacturing unit for aluminium frame for PV solar panel ("Aluminium Frame Facility") at the manufacturing facility located Opposite DD International Private Limited, Link Road, Village Kutail, District Karnal, Haryana 132 037, India ("Existing OSSPL Facility");

(ii) 1,500 MW manufacturing unit for PV solar module ("Solar Module Facility") at 1118, GT Road, Opposite Neelkanth Star Dhaba, 71/3 Delhi Side 141 Milestones, Karnal, Haryana 132001 ("Initial Project Land"); and

(iii) 1,500 MW manufacturing unit for ethylene-vinyl acetate ("EVA") encapsulant at the Initial Project Land ("EVA Encapsulant Facility", and together with the Solar Module Facility, the "New Manufacturing Facility").

2. Particulars of the proposed variation/alteration :

S. No.	Original objects of the IPO as stated in the Prospectus (as amended by the First Variation [^])	Total money raised (as amended by the First Variation [^]) (in INR million)	Amount utilised (in INR million) (as at October 08, 2026)	Extent of achievement of proposed object (that is fifty percent, sixty percent, etc.) (as at October 08, 2026)	Amount unutilized (in INR million) (as at October 08, 2026)	Particulars of the proposed variation in the terms of contracts referred to in the prospectus/First Variation [^]
1.	Funding certain capital expenditure of our Company	898.60	455.46	50.69	443.14	No variation proposed in amount mentioned in the Prospectus for this object. However, it is proposed to extend the estimated schedule of deployment of Net Proceeds to Financial Year 2027.
2.	Investment in our wholly-owned Subsidiary, Oswal Solar, in the form of equity, for funding the setting up of new manufacturing units at Karnal, Haryana*	2,727.58	1,097.14	40.22	1,630.44	It is proposed to utilise INR 1,598.50 million out of the unutilised amount of INR 1,630.44 million towards setting up a solar cell manufacturing plant by Oswal Solar at Karnal, Haryana, in place of the Aluminium Frame Facility, the remaining 300 MW EVA Encapsulant Facility and the remaining 500 MW Solar Module Facility [^] . It is proposed to deploy the Net Proceeds towards the aforementioned solar cell manufacturing facility by Financial Year 2028. The balance unutilised amount of INR 31.94 million shall continue to be utilised towards the original Object.
3.	Pre-payment/ re-payment, in part or full, of certain outstanding borrowings availed by our Company	2,800.00	2,800.00	100	NIL	Object fully achieved; no variation proposed
4.	Investment in our wholly-owned Subsidiary, Oswal Solar, in the form of equity for repayment/prepayment, in part or full, of certain outstanding borrowings availed by Oswal Solar*	310.00	310.00	100	NIL	Object fully achieved; no variation proposed
5.	General corporate purposes	1,678.96	1,650.18	98.29	28.78	No variation proposed
	Total (excluding issue related expenses)	8,415.14	6,312.78	75.02	2,102.36	Out of the total unutilised amount of INR 2,102.36 million, INR 1,598.50 million is proposed to be varied, as detailed against S. No. 2 above. No variation is proposed in respect of the balance INR 503.86 million except as detailed against S. No. 1 above.
	Issue related expenses	484.86	484.77	99.98	0.09	No variation proposed
	Total (including issue related expenses)	8,900.00	6,797.55	76.38	2,102.45	Out of the total unutilised amount of INR 2,102.45 million, INR 1,598.50 million is proposed to be varied, as detailed against S. No. 2 above. No variation is proposed in respect of the balance INR 503.95 million except as detailed against S. No. 1 above.

[^]The Company had made investment in the Equity Shares of Oswal Solar through rights issue on July 22, 2025 aggregating to INR 3,037.58 million

[^]First Variation means the variation in the objects of the IPO approved by the Shareholders of the Company by way of Special Resolution passed through postal ballot (remote e-voting) on December 17, 2025 (being the last date of remote e-voting), pursuant to which the location of the New Manufacturing Facility proposed to be set up by Oswal Solar was changed to a larger land parcel at Karnal, Haryana, adjacent to the existing facility of Oswal Solar, without any change in the amount of INR 2,727.58 million allocated towards such object.

[^]1000 MW Solar Module Facility and the 1,200 MW EVA Encapsulant Facility are being set up by Oswal Solar as per the terms of the Prospectus dated June 17, 2025.

3. Reasons/ justification for the variation :

Strategic rationale

The binding constraint for Oswal Solar's module business is the solar cell, not the frame. Standalone module makers face acute difficulty securing Domestic Content Requirement (DCR) calls from domestic cell manufacturers because (i) long-term contracts are offered only at elevated prices even though cell prices are reasonably likely to soften, and (ii) very large deposits are demanded to secure them. This puts both availability and cost of the key input outside the Company's control - a strategic exposure for a business anchored to DCR-dependent programmes (PM-KUSUM, PM Surya Ghar).

Backward integrating into cell manufacturing directly addresses this. It secures supply, insulates Oswal Solar from spot-price and deposit demands, deepens value addition from module assembly into cell manufacturing, and is expected to strengthen the Group's cost structure, competitive positioning in Government-backed programmes, and profitability at the consolidated level over time. The change re-directs scarce IPO capital from a low value-add, deferrable component (frames), surplus module capacity, and surplus EVA encapsulant capacity to the highest leverage point in the chain (cells), where control of supply is now business-critical.

It is also relevant to note that the proposed cell plant is intended for captive consumption. At a capacity of 1.2 GW, it will meet approximately 75% of the Company's overall cell requirement, with the balance continuing to be sourced externally in the near term.

Potential benefits of the solar cell plant :

- Versus further module capacity:** the Oswal Solar's existing and planned module lines (the ~570 MW line plus the 1 GW now being set up) are sufficient for current requirements; adding further module capacity would deepen, not reduce, the Company's exposure to externally-sourced, DCR-constrained cells.
- Versus continuing the Aluminium Frame Facility:** frames are a commoditised, low value-add component that can be sourced from the market in the interim and the frame technology itself is in flux, carrying a real risk of stranded or mis-specified capex; cells, by contrast, are the binding constraint on both supply security and margin, and are the highest-leverage point in the value chain.
- Versus building out the balance of the EVA Encapsulant Facility:** the 1.2 GW of EVA capacity being retained is majorly sufficient to service the Company's module-manufacturing capacity with only a small incremental quantum expected to be sourced externally; committing capital to the balance 300 MW would tie up funds in an encapsulant-manufacturing step that is not the binding constraint on the Company's solar-manufacturing economics, unlike cells.

Across all three sources, the common thread is that each represents capital committed to a lower-value-add or currently adequate part of the value chain, whereas the cell plant addresses the single most capital-scarce and strategically urgent gap in the Company's integrated solar-manufacturing operations. Concentrating the re-purposed proceeds into Oswal Solar's equity contribution is therefore expected to be more value-accretive than continuing to fund incremental module capacity or the conventional aluminium-frame line.

The intention of the management is to enhance shareholders' value by utilizing the issue proceeds adequately and appropriately, which will lead to increased value without compromise on services being rendered by the Company.

4. Effect of the proposed variation/ alteration on the financial position of the company : With the proposed variation, the Company intends to re-directs IPO proceeds from a low value-add, deferrable component (frames), surplus module capacity, and surplus EVA encapsulant capacity to the highest-leverage point in the chain (cells), where control of supply is now business-critical, which is expected to strengthen the group's cost structure, competitive positioning in Government-backed programmes, and profitability at the consolidated level over time.

The management of the Company is of the view that the proposed variation will ensure optimum utilisation of IPO Proceeds and maximize Shareholders' wealth.

5. Major Risk factors pertaining to the new Objects :

- Risk Factors** shall remain the same as mentioned in the Prospectus. In addition, the proposed variation may also be subject to various risks and uncertainties and may require necessary approvals and consents under applicable law, such as from the Board of Directors of the Company and/ or its subsidiaries under Companies Act, 2013 or other applicable laws, and under applicable contracts such as financing arrangements, and will be subject to the terms thereof.
- Further, considering projected demand of solar power generation and investment plan in module manufacturing capacity in coming years, domestic market may be oversupplied considering demand supply gap. For the manufacturing of Solar Cells, wafers are the principal raw material which the company has proposed to import. Solar wafers, usually made using silicon, are in great demand all over the world as governments are looking to switch to renewable ways of producing electricity. Hence, dependence on a few suppliers may have an adverse impact on the procurement and implementation of the proposed manufacturing.
- In case any such approvals or consents as outlined in the paragraph above are not obtained or are delayed, this may adversely impact or delay the implementation of the proposed variation/ reallocation, including the proposed time lines.
- The proposed variation will ease the additional burden on finance plans and internal accruals of the Company. However, any unforeseen economic, market, business conditions or any other conditions beyond the control of the management may lead to escalation in costs, impact on the working capital position of the Company and this may affect the financial condition of the Company.

6. Names of Directors who voted against the proposed variation/ alteration:

None

Any interested person may obtain the copy of the Special Resolution along with the Explanatory Statement free of charge at the Registered Office of the Company or at the office of its Company Secretary Mr. Anish Kumar at Oswal Estate, NH-1, Kutail Road, P.O. Kutail, Distt. Karnal, Haryana-132037 or visit the website of the Company viz. <https://oswalpumps.com/> for a copy of the same.
