## NOTICE TO SHAREHOLDERS

### Second 100 days Campaign - "Saksham Niveshak" (April 01, 2026 to July 09, 2026) Update Your KYC Details and Claim Your Unpaid/Unclaimed Dividends

Dear Shareholders,

In continuation with the earlier campaign, the Investor Education and Protection Authority (IEPFA) and Ministry of Corporate Affairs (MCA), through their communication dated March 27, 2026, has requested companies to initiate the Second 100-Day Campaign "Saksham Niveshak" focusing on shareholders whose dividend remain unclaimed, with an emphasis on KYC updation and related compliance measures.

In line with this initiative, we at Acutaas Chemicals Limited are pleased to inform you of the commencement of second phase of the 100-day special outreach initiative titled "Saksham Niveshak" starting from April 01, 2026 to July 09, 2026. This campaign is being undertaken to facilitate shareholders to

- Claim their Unpaid / Unclaimed Dividends for any financial year in order to prevent their dividend amount and shares being transferred to IEPFA.
- Update KYC details including PAN (Linked with Aadhar number), contact details (Postal address with PIN Code and Mobile Number, bank account details, nomination details etc.

Since dividends on shares are payable only through electronic mode for shareholders, for unclaimed or unpaid dividends, the amounts will be credited to the Shareholder's bank account only after the required information/ documents are updated.

Shareholders who have not claimed their dividends or have incomplete KYC records are requested to contact the Company's Registrar and Transfer Agent (RTA) at the earliest:

IN LINE WITH BROADER AI-DRIVEN WORKFORCE RESTRUCTURING

# Startup layoffs rise in Jan-March

AYANTI BERA  
Bengaluru, April 13

**LAYOFFS AT INDIAN** startups surged in the first quarter of 2026, even as the number of companies undertaking job cuts remained relatively limited. Three startups — Livpace, Flipkart, and Zupzee — together laid off around 1,700 employees in Q1 2026, compared with 1,102 employees across three companies during the same period last year, according to data from layoffs.fyi.

In line with broader AI-driven workforce restructuring, several startups have reduced team sizes, betting that large-scale AI adoption will enable leaner teams to deliver higher productivity.

Livpace accounted for the largest share of layoffs this quarter, cutting nearly 1,000 jobs, or about 12% of its workforce. The company said it is reorganising internal teams to become "an AI-native agentic organisation," emphasising that the move is not a "reactive

## TREND MIRRORS GLOBAL WAVE

Three startups — Livpace, Flipkart, and Zupzee — together fired around **1,700** employees in Jan-March

Flipkart cut around **500 jobs** as part of its performance review cycle

Zupzee also sacked about **200 employees**

cost-cutting measure".

The company is also working to narrow its losses amid moderating topline growth. In FY25, Livpace reduced its losses to ₹24.2 crore from ₹41.6 crore, while revenue grew 23% to ₹ crore. This compares with

21% growth in FY24 and a significantly higher 85% growth in FY23, indicating a clear slowdown.

Flipkart, owned by Walmart, reduced its workforce by around 500 employees as part of its annual performance

review cycle. The company has undertaken similar performance-based job cuts in the past. Its last major layoff round was in January 2024, when it cut around 1,000 jobs, or roughly 5% of its workforce.

Gaming platform Zupzee also laid off about 200 employees as it reorganises its business following the ban on real-money gaming.

Prior to this, the company had cut another 170 jobs in September. In the year-ago quarter, Ola Electric had laid off nearly 1,000 employees amid mounting losses.

So far, the trend in India mirrors the broader global wave of layoffs. Worldwide, 81 tech companies laid off more than 70,000 employees in Q1 2026 — a sharp increase in scale compared to Q1 2025, when 101 companies collectively laid off nearly 30,000 employees.

Major global layoffs this quarter included Oracle cutting 30,000 jobs in March and Amazon laying off about

16,000 employees in January. While fewer companies are initiating layoffs this year, the scale of workforce reductions has increased significantly.

Analysts attribute this global trend to ongoing macroeconomic uncertainty, tighter funding conditions, and a sustained shift toward automation and AI-led cost efficiencies. Additionally, many tech firms continue to correct pandemic-era overhiring, resulting in periodic waves of layoffs.

In India, however, the impact appears more concentrated. Startups are becoming increasingly cautious in capital allocation as venture funding remains selective.

In the first three months of 2026, Indian tech startups raised \$3.95 billion across 350 funding rounds — nearly the same amount as last year but across almost half the number of deals.

In Q1 2025, startups had raised \$3.93 billion across 628 rounds, according to Tracxn data.

## Adani's bid for JAL: NCLAT adjourns hearing on Vedanta plea

PRESS TRUST OF INDIA  
New Delhi, April 13

**THE NATIONAL COMPANY** Law Appellate Tribunal (NCLAT) on Monday adjourned its hearing over mining giant Vedanta Group's petitions against the selection of Adani Enterprises' bid for debt-ridden Jaiprakash Associates (JAL) to April 16.

The matter will now be taken up on Thursday, following a change in the composition of the bench due to the unavailability of one of its members.

The tribunal was slated to hear the conclusion of arguments from Vedanta's counsel, after which lenders and the resolution professional were to begin their submissions.

However, after discussions with the parties, NCLAT decided to defer the proceedings and list the case for Thursday.

Last Friday, Vedanta questioned the evaluation metrics adopted by JAL's lenders during the appellate tribunal proceedings, which had selected the lower bid of ₹3,400 crore from Adani Enterprises for the debt-ridden company. He said the "valuation in the process has been used to wipe out commercial wisdom" by the committee of creditors (CoC).

Vedanta has filed two petitions, challenging the March 17 order by the Allahabad bench of NCLT, which approved Adani Enterprises' ₹14,535-crore bid to acquire JAL through the insolvency process.

# Attero to open MetalMandi for third-party buyers

Marketplace pivot and asset-light model to drive next phase of growth

URVI MALVANIA  
Mumbai, April 13

**E-WASTE MANAGEMENT FIRM** Attero is preparing to open its MetalMandi platform to third-party buyers, marking a strategic shift from a captive sourcing model as it targets ₹10,000 crore in revenue over the next five years — a 10x jump from its current ₹1,000 crore, Nitin Gupta, co-founder and chief executive, said.

"We will... open it up very shortly... We are in the process of tying up with different partners for that. We've already reached critical mass already to take that step," Gupta said.

The move signals the next phase of growth for the digital scrap trading platform, which has so far operated with Attero as the sole buyer. Opening it up is expected to transition MetalMandi into a marketplace model, enabling direct interaction between scrap suppliers and multiple corporate buyers. This, in turn, could unlock new revenue streams through transaction fees and value-added services.

Launched in April last year, MetalMandi has over 110,000 registered users, around 50,000 monthly active users, and a presence across more than 100 cities, Gupta said. It currently facilitates the collection of about 15,000 tonne of scrap each month, with volumes projected to grow to an annual rate of roughly 100%.

"From a capex perspective, this is an asset light model. The capex is essentially used in software building and warehouse leasing, but it is still asset light. It's more IP driven," Gupta said,

NITIN GUPTA,  
CO-FOUNDER & CEO, ATTERO

Attero targets ₹10,000 crore in revenue over the next five years

We will open MetalMandi very shortly... We are in the process of tying up with different partners for that

adding that the next phase of expansion will not require significant capital infusion.

At the core of the platform is an AI-based pricing engine that tracks global metal benchmarks and estimates scrap composition to generate dynamic pricing. MetalMandi is also deploying image-based tools to assess material quality, alongside digital KYC and tracking systems to improve traceability and transparency across the value chain.

Attero is positioning MetalMandi to benefit from a broader shift in India's metals ecosystem. Large industrial players such as Tata Group companies, Adani, and Hindalco are ramping up investments in secondary metal production — an emerging trend that is expected to drive demand for more organised and reliable scrap sourcing.

Attero views these companies as potential partners, with MetalMandi designed to aggregate fragmented scrap supply and connect it efficiently with processing capacity.

# PB Health eyes ₹1,500-1,600 cr fundraise

ANEEHS HUSSAIN  
Bengaluru, April 13

**PB HEALTH, THE** healthcare venture incubated by Policy-bazaar parent PB Fintech, is looking to raise ₹1,500-1,600 crore in a fresh funding round from a mix of new and existing private equity investors, co-founder and vice chairman Alok Bansal told FE.

The capital will be deployed primarily towards hospital construction and expansion, as the company accelerates efforts to build an integrated care delivery network.

The proposed round would mark PB Health's second major fundraise, coming roughly a year after its ₹1,850 crore seed round led by General Catalyst, with participation from Faering Capital,

Bay Capital, Think Investments, Avataar, and Select Group. Following that round, PB Fintech held a 25.53% stake in the venture, according to Tracxn.

Founded in January 2025, PB Health aims to address what Bansal describes as a structural misalignment in India's healthcare system. "If I am a consumer, I don't want to go to hospital. The payer, which is the insur-

ance company, also doesn't want me to go to hospital. With the way things are structured, it's only the hospital that wants me in hospital," Bansal said.

He argued that current insurance products offer extensive hospital networks but limited coverage beyond hospitalisation, resulting in a fragmented patient experience. At the same time, insurers con-

tend with fraud, over-treatment, and inefficiencies at the provider level.

PB Health's model seeks to realign incentives by positioning itself as a healthcare service layer spanning preventive care, OPD, chronic disease management, daycare, home care, and pre- and post-operative follow-ups — with hospitalisation treated as a last resort.

## Star Air to connect Mundra with Mumbai, 5 other cities

**REGIONAL AIRLINE STAR Air** on Monday announced it will launch services to Mundra with 38 direct weekly flights, linking the port city to six cities across Western and Northern India, starting April 25. The move will boost air connectivity and economic growth in the region, Star Air said.

The expansion sees Mundra directly linked to Mumbai, Hindon, Goa, and Surat, it said. In addition to the 38 direct weekly flights, the airline will introduce 16 weekly one-stop connections, strengthening ties with Kolhapur and Bhuj and further supporting the region's workforce and entrepreneurs. **PTI**

## Puravankara Q4 pre-sales jump 3-fold to ₹3,547 cr

**REALTY FIRM PURAVANKARA** on Monday reported nearly 3-fold jump in pre-sales to ₹3,547 crore in the fourth quarter of the last fiscal year on better demand for residential properties.

Its pre-sales or sales bookings stood at ₹1,225 crore in the year-ago period. **PTI**

In a regulatory filing, Bengaluru-based Puravankara informed that its total sales bookings rose 55% to ₹7,407 crore in FY26 from ₹4,783 crore in the preceding year.

The company's total land bank is 38 million sq ft and ongoing projects add up to 34 million sq ft. **PTI**
