Press Release

Anawil Wire & Engineering
Secures Largest-Ever Rs 133.98 Cr Order

Vapi, Gujarat, September 10, 2026: Anawil Wire & Engineering Limited, a specialised player in tubular wind tower manufacturing for the onshore wind energy sector, has secured **its largest-ever order** in value terms, valued at **Rs 133.98 Cr** excluding GST and **Rs 140.68 Cr** including GST.

The order entails the supply of **38** wind turbine towers, conforming to **EN-156/3.3 MW** model with **50 Hz, IEC S** specifications, **for FDRE wind project in Andhra Pradesh**. The order is expected to be completed by Q4 2026-27.

The order marks an important milestone in the Company's growth journey and strengthens its execution visibility, as it continues to build its capabilities to serve the evolving requirements of India's wind energy sector.

Management Commentary:

Nimish Kumar Rameshchandra Vashi, Chairman & Managing Director:

“Securing the largest order in Anawil’s history is a significant milestone for the Company and a strong validation of our manufacturing capabilities and customer confidence. The scale of this order provides meaningful execution visibility and strengthens our confidence in the next phase of growth.

With the addition of our Kutch manufacturing facility, we have expanded our manufacturing platform, while our ongoing backward integration of tower internals at Koppal is enabling greater in-house value addition and execution control. With these capabilities in place, we see significant headroom to scale our operations and participate in the growing opportunities emerging across India’s onshore wind energy sector.”

About Anawil:

Anawil Wire & Engineering Limited is a precision-led manufacturer of tubular wind turbine towers for the onshore wind energy sector, serving leading WTG OEMs and renewable energy companies. With manufacturing facilities at Koppal, Karnataka and Kutch, Gujarat, the Company has a combined annual capacity of 612 towers and capabilities to manufacture customised towers of up to 140 metres. Its integrated manufacturing and engineering capabilities, expanding capacity and focus on in-house tower internals position Anawil to capture the growing opportunities in India's renewable energy infrastructure market.
