MANAGEMENT COMMENTARY

Commenting on the performance, **Mr. Unnikrishnan Nair P M, Managing Director, Anlon Technology Solutions Limited**, said:

"We are pleased with how Q2 FY27 has shaped up, with strong growth across every key line and good momentum carried through the first half. We continue to win repeat business from leading airports and industrial customers across spare parts, annual maintenance services and Make in India assembly. The refurbishment order from GMR Hyderabad International Airport shows that the model we spoke about in July is working. Refurbishment turns around faster, helps us work around import delays from the Red Sea disruption and offers good margins.

We were also pleased to welcome Mr. Miron Harri Thoms as our Chief Executive Officer. His experience with the Volvo Group will help us scale our operations and partnerships in India and overseas. The bonus issue and the planned move to the NSE Main Board reflect our commitment to rewarding shareholders and

widening our investor base. With a healthy order book and a stronger leadership team, we are confident about the quarters ahead."
