Dear Sir

Sub: Intimation under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 - Revised

Further to our earlier letter dated 4th March 2025, please find enclosed the revised disclosure relating to the commissioning of a comprehensive Oncology Centre, including India's first Proteus One Proton System along with ancillary equipment, over the next three years at a cost of Rs 250 crores.

This may please be considered in place of the earlier disclosure required to be made under SEBI Listing Regulations read with SEBI Circular No. SEBI/HO/CFD/CFD-PoD-1/P/CIR/2023/123 dated July 13, 2023 and SEBI/HO/CFD/PoD2/ CIR/P/0155 dated November 11, 2024.

You are requested to take the same on record for dissemination purposes.

Thanking You,

Yours faithfully,
For APOLLO HOSPITALS ENTERPRISE LIMITED

//Press Release//

Apollo Hospitals & IBA Pioneer the Next Era of Cancer Treatment: To Introduce Proteus One - Proton Beam Therapy to India

The momentous collaboration was graced by Her Royal Highness Princess Astrid of Belgium, Representative of His Majesty King Philippe.

New Delhi, March 4, 2025: Apollo Hospitals, the nation's foremost integrated healthcare provider, has inked a landmark partnership with Ion Beam Applications (IBA), the global leader in Proton Beam Therapy (PBT) solutions, to introduce **Proteus One system in India.**

This momentous signing was officiated by Dr. Preetha Reddy, Executive Vice Chairperson, Apollo Hospitals Enterprise Ltd (AHEL) and Mr. Olivier Legrain, Chief Executive Officer, IBA, in the distinguished presence of Her Royal Highness Princess Astrid of Belgium, Representative of His Majesty King Philippe.

This partnership represents a defining milestone in India's relentless pursuit of excellence in cancer care. A pioneer in ushering in advanced oncology, Apollo Hospitals Enterprise Ltd introduced Proton Therapy to India in 2019 at Apollo Proton Cancer Centre, its futuristic cancer centre in Chennai—becoming the first and only Proton Therapy facility in South Asia and the Middle East. Since its inception, over 2,000 patients from 147 countries have benefited from this cutting-edge technology. Proton therapy is an effective treatment of tumors of the Central Nervous System, head and neck tumors, paediatric and urological, and complex cancers.

According to the studies, the global burden of cancer is projected to increase to 21.4 million incident cases by 2030. As per the study published in The Lancet Regional Health, worldwide in terms of absolute incidence number, following China and the US, India ranks third, contributing 7.5% of all new cancer incidences and is expected to grow to 1.5 million this year.

Dr. Prathap C Reddy, Founder-Chairman, Apollo Hospitals Enterprise Ltd, expressed his pride in Apollo's pioneering spirit, stating, "At Apollo, we are driven by an unyielding passion for excellence in healthcare. Our commitment is to ensure that India remains at the forefront of medical innovation, providing patients with access to the world's most advanced treatments. The addition of Proteus One to our Apollo Proton Cancer Centres further solidifies our position as a global leader in Proton Therapy. This next-generation technology will allow us to achieve superior clinical outcomes and significantly improve the quality of life for cancer patients in India and beyond."

Being at the forefront of medical innovations and providing the world's best and most advanced treatments, Apollo Proton Cancer Centres continue to expand their expertise in treating complex cancer cases, reaffirming our leadership in Proton Therapy across South Asia and the Middle East. The new Proteus One system includes the DynamicARC® beam delivery technology, subject to statutory approvals.

Mr. Olivier Legrain, Chief Executive Officer of IBA, underscored the deep trust and collaboration between the two organizations and said, "These contracts expand upon the close relationship we have built for more than a decade with Apollo Hospitals. Seeing an existing customer reaffirming its confidence in our solutions not only demonstrates the reliability and superiority of the IBA portfolio but also highlights the level of excellence of the services we deliver. We look forward to further strengthening our relationship with Apollo as we enable more patients in India to gain access to this life-saving treatment modality."

Dr. Preetha Reddy, Executive Vice Chairperson, Apollo Hospitals Enterprise Ltd, highlighted the broader vision behind this collaboration, stating, "Cancer care is evolving rapidly, and at Apollo, we remain steadfast in our mission to stay ahead of this evolution. The introduction of the Proteus One system is a significant leap towards personalized, precise, and highly effective treatment for cancer patients. Our partnership with IBA reflects our dedication to bringing new hope and healing to patients and families fighting cancer."

This initiative is not only a monumental leap in cancer care but also a beacon of hope for countless patients. It will facilitate knowledge-sharing and training for oncologists, enabling the widespread adoption of advanced treatment modalities across the region. With this milestone, Apollo Hospitals continues its mission to redefine global healthcare, ensuring that the most advanced treatments are within reach for every patient, anywhere in the world.

#WinningOverCancer

About Apollo Proton Cancer Centre

Apollo Proton Cancer Centre is the first Proton Therapy Centre in South Asia & the Middle East, and India's first JCI-accredited Cancer hospital. With its widespread network across India, Apollo Cancer Centres has over 400 oncologists to oversee the delivery of high-end precision Oncology Therapy. Our oncologists deliver world-class cancer care following an organ-based practice under competent Cancer Management Teams (CMTs). This helps us in delivering exemplary treatment to the clinical outcomes.
