Our Environment, Social, Governance and Safety Policy

Cost Savings and Energy conservation are one of the key focus areas for Apollo Pipes

- Installed rooftop solar plant at Dadri for optimum utilisation of energy
- Evaluating opportunities to install rooftop solar plants at Ahmedabad and Bengaluru in the near future
- Organized various awareness programmes for Shop-floor manpower to ensure optimum utilization of energy across plants
- Complete in-house set-up for re-use of Polymer Waste ensuring nil environmental pollution

Social Welfare of the Society

- Funds and efforts towards Education and Welfare of orphaned and abandoned children and Health Care of the unprivileged
- Associated with Bharat Lok Shiksha Parishad ("BLSP") and FCS Foundation to include scholarship programme for meritorious students who are socially backward and under-privileged
- Effective safety policy and regular safety audits conducted regularly RO and water softening plant facilitating safe consumption of water Regular workshops & training for machine operations / handling & safety
- Mechanized Finished Goods movement Usage of masks and safety gears for plant personnel

Highest standards of corporate governance practices

- Maintains high levels of transparency, accountability in all its interactions with its stakeholders including shareholders, employees, lenders and the government

Apollo Pipes Ltd. **achieves 67th Percentile** in industry in S&P Global Corporate Sustainability Assessment (CSA) 2025

GROWTH LEVERS

Strategic acquisition of Kisan Mouldings

- Established in 1982 with 40+ yr. old legacy brand
- Have a capacity of ~58k Ton
- Apollo pipes investment amounted to Rs 156 Cr for acquiring majority stake (61.94%) in Kisan.
- Wide range of SKU's including Plastic Pipes and fittings for building and agricultural purposes.
- Cost-effective PVC products
- Wide dealer network with over 300+ dealers and 15,000+ retailers

Strategic venture with Lubrizol Advanced Material

Apollo Pipes has entered into a partnership with Lubrizol, for the supply of CPVC Resin manufactured using Lubrizol's proprietary **TempRite® Technology**.

This collaboration strengthens product performance and documentation standards, and supports spec-driven growth with consultants and institutional buyers.

- Lubrizol is a world class CPVC technology with trusted brand
- Original inventor of CPVC and a global leader in engineered polymer solutions
- Technology will be used for advanced plumbing solutions
- It offers long lasting performance, resistance to corrosion, high temperatures and pressure conditions

We expect mix improvement brand lift, and better win-rates in projects.

Capacity Expansion to aid long-term growth plan

MACRO GROWTH DRIVERS

PVC Pipe Industry

The Indian PVC pipes and fittings market expected to register 15% CAGR during FY25 - FY28

- The domestic plastic pipes industry size at ~ ₹ 350Bn
- Organized players account for ~70% market share
- Key features of plastic pipes against other pipes
 - Lightweight
 - Ease of transportation
 - Longer life span
- Key growth drivers:
 - Government's push for cleanliness and sanitation to boost water management sector
 - Increased Building of affordable houses and growing housing demand
 - Requirement for infrastructure for irrigation and water supplies

Demand Segmentation - Domestic Industry

Demand Split- Domestic Industry

At the Forefront of multiple sector trends

Urban Infrastructure & Construction

- Infrastructure push - plumbing and distribution requirements
- Water Management, Waste Management, Water Drainage & Sewerage System
- 'Housing for All' scheme and 'Smart Cities' scheme to drive demand
- Govt targeted construction of 20M and 40M houses in urban and rural areas,
 - One unit in the urban area nearly consumes 200 kg of PVC products
 - Rural house consumes ~75kg

Water Management

- Rehabilitation of aging pipelines and installation of new pipes in transportation of liquids offers a significant opportunity
- Government focus on providing clean water, clean cities with well-organized plans for sewage removal and efficient transport facilities
- National Rural Drinking Water Mission (NRDWM) to create a safe drinking water program

Agriculture Focus

- Improving irrigation schemes for farmers
- Water Table Depletion – increase in bore well activities leading to higher demand of larger diameter pipes
- Increase in land under irrigation for food production
- Increasing agriculture focus will have better demand for irrigation and thus demand for PVC pipes

FUTURE OUTLOOK

Capacity expansion plan

Existing capacity

Current capacity

240,000 Ton

Q1FY27 Consolidated Business Performance

- Sales volume decreased 3% YoY to 24,477 Ton
- Revenue increased 7% YoY to Rs 3.0 Bn
- EBITDA decreased 85% YoY to Rs 30 Mn
- Net loss of Rs 86 Mn (vs Profit of Rs 81 Mn in Q1FY26)

Noida, July 30, 2026: Apollo Pipes Limited, among the top 6 leading piping solution providing Company in India, announced its financial results for the quarter ended June 30, 2026

Management's Message

Commenting on the Company's performance for Q1FY27, Mr. Sameer Gupta, Managing Director, Apollo Pipes (APL) said,

"The PVC industry was impacted during Q1FY27 driven by sharp fluctuations in polymer prices. The steep price correction during April prompted channel partners to defer purchases and rationalize inventories, resulting in subdued demand across Home Plumbing and Bath Fittings industry.

As inventory levels across the distribution channel normalize and demand gradually revives, the Company expects business activity and volume growth to improve over the coming quarters. With PVC prices stabilizing, we are confident of delivering a significantly better performance in H2FY27.

The company has a robust pipeline of new and value-added products and is confident of delivering an improved performance in the coming year and creating long term value for all stakeholders. We are on track to expand our annual capacity to 288,000 Ton in the next 2 years from current 2,40,000 Ton. We remain committed to fund business expansion from internal cashflow generation without leveraging balance sheet."

About the Company

Apollo Pipes (BSE: 531761; NSE: APOLLOPIPE), is among the top 6 leading piping solution providing Company in India. Headquartered in Delhi, the Company enjoys strong brand equity in the domestic markets.
