SC turns down Rlnfra arm's plea, upholds HC's interest calculation

FE BUREAU
New Delhi, May 5

THE SUPREME COURT on Thursday dismissed the plea of Reliance Infrastructure's arm, Delhi Airport Metro Express (DAMEPL), for additional interest (interest on interest) payment of around ₹1,200 crore pursuant to an arbitration case that was decided in favour of the firm in its dispute with Delhi Metro Rail Corporation.

A bench comprising justice LN Rao and GR Gavi upheld the Delhi High Court judgment that had refused computation of post-award interest on sums awarded to DAMEPL.

Challenging a part of the Delhi High Court's judgment that asked DMRC to pay balance arbitration award amount of around ₹3,300 crore it owed to the firm by May 31, DAMEPL said that only the pre-award interest component awarded to it was in respect of the termination payment (TP), while the

remaining claims awarded, other than TP which carry interest from May 12, 2017 (the date of stamp duty) were yet to be paid.

The DMRC had opposed payment of any further interest on interest to DAMEPL.

Finding "no merit" in the DAMEPL's appeal, the SC said that in view of the specific agreement between the parties, the interest prior to the date of award as well as also after the date of award will be governed by Article 29.8 of the Concession Agreement, as directed by the arbitral tribunal, which had

reached finality on September 9 last year when the apex court had upheld the ₹4,600-crore arbitration award in favour of DAMEPL.

According to the judgment, if there is an agreement between the parties to the contrary, the tribunal loses its discretion to award interest and will have to be guided by the agreement between the parties. "The provision is clear that the tribunal is not bound to award interest. It has a discretion to award the interest at such rate as it deems reasonable or not to award at all. It further has a discretion to award interest on the whole or any part of the money. It is also not necessary for the tribunal to award interest for the entire period between the date on which the cause of action arose and the date on which the award is made. It can grant interest for the entire period or any part thereof or no interest at all," the order stated.

Telecom industry records best AGR at ₹55,151 crore during Oct-Dec

KIRAN RATHEE
New Delhi, May 5

THE ADJUSTED GROSS revenue (AGR) of the telecom industry grew 3.07% sequentially and 15.81% on year to ₹55,151 crore during the October-December 2021 quarter, which is the highest so far, underlining that the revenue of the top two operators is growing at a brisk pace.

The AGR for the January-March quarter is expected to be even better as the tariff hikes undertaken by the operators would fully reflect during this period.

The AGR data was released by the Telecom Regulatory Authority of India (Trai) on Thursday.

In fact, this is second consecutive quarter that the industry AGR has been over ₹50,000 crore. The industry AGR had started declining after the entry of Reliance Jio in September 2016.

The AGR of telecom industry stood at ₹53,383 crore in April-June 2016 but it declined to ₹50,539 crore in July-September 2016 and after that, the AGR never breached the ₹50,000 crore figure till July-September 2021.

But 2021 can be termed as a good year for the Indian telecom sector. As work from home became the norm due to COVID-19, telecom industry has seen its revenue reach new heights. All the operators have managed to increase their rev-

enues during the year.

As per analysts, the revenues of telecom sector would grow again in 2022 led by December 2021 prepaid tariff hikes of 20% by all the operators. Further, telecom operators may again raise tariffs in the coming months as there was little churn because of the tariff hike. In fact, the active customer base of industry has risen after the hikes.

Bharti Airtel expects to reach an Arpu of ₹200 this year. The company had reported an Arpu of ₹163 at the end of December. Similarly, Vodafone Idea has been vocal about increasing the Arpu for telecom industry, though the company has not shared any specific number.

SMART BUSINESS EVENT ON HOW MSMEs CAN PROFIT FROM CRYPTO

(L-R) Mr. Anil Velde, Deputy General Manager - Trade Promotion, IT & Marketing, World Trade Center Mumbai, Mr. Rajesh Bhayani, Associate Editor, Business Standard, Mr. Gaurav Somvanshi, CEO & Co-Founder, EmerTech Innovations Pvt Ltd, Mr. Ashish Anand, Founder, Whrri, Mr. Siddharth Soghani, CEO, CREBACO Global, Ms. Rupa Naik, Executive Director World Trade Center Mumbai and Mr. Fiorenzo Andhyarujina, Senior Counsel, Supreme Court of India during an interactive meeting on 'Decrypting Crypto - Blockchain and Digital Currencies for MSMEs'

Crypto, NFT and blockchain are all that everybody is talking about. But how can MSMEs make use and profit off of this new era of digital currency? To answer this question and several more, Business Standard had organised a panel discussion under the Smart Business event series with the World Trade Centre last Thursday on 'The role of blockchain and digital currencies in strengthening MSMEs'.

At the event, Ashish Anand, founder of WHRRL, said "Crypto and blockchain will see a convergence of the real and crypto worlds with the help of solutions that are bridging the gap between these two worlds. Decentralised finance for the real world will be one such solution. This also has the potential to bridge the Rs. 30 lac Cr. credit gap that Indian MSME sector faces."

Gaurav Somvanshi, CEO and Co-founder, EmerTech Innovations Pvt Ltd, said "Blockchain technology is trying to solve, to bring trust in our systems instead of individuals or organisations, has many wide-ranging effects that go beyond currency. It is leading to the advent of Web 3.0 where the creators will have control instead of the middlemen or aggregators. It is leading to a more decentralised world where the people can have a say over how things are governed and administered. And once a technology is out there, there is no going back."

Siddharth Soghani, MD, CREBACO Global, emphasised the immediate need for regulations to stop the brain drain of the industry players and professionals from the country. Siddharth stated "The government cannot regulate decentralised cryptocurrencies, but it can regulate their use. WEB.3, non-fungible Token (NFTs) are for the first time giving ownership to the users, which can be the paradigm shift in the way we interact with the internet."
