Subject: Disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Symbol: (NSE-SME: ARHAM) ISIN: INE0L2Y01011

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we hereby submit the enclosed disclosure titled “Arham Technologies Secures Google EDLA Certification for STARSHINE IFPDs Powered by Latest Android 14 OS.”

The aforesaid disclosure pertains to the achievement of Enterprise Devices Licensing Agreement (EDLA) certification from Google for the Company’s Interactive Flat Panel Displays (IFPDs), which is considered a material development having a bearing on the operations and business prospects of the Company.

The details are enclosed herewith for your kind perusal and records.

Kindly take the same on record.

Thanking You,

Yours faithfully,

For Arham Technologies Limited

Pooja Avinash Gandhewar

Company Secretary cum Compliance Officer

Arham Technologies Secures Google EDLA Certification for STARSHINE IFPDs Powered by Latest Android 14 OS

Raipur, 1st April 2026: Arham Technologies Limited (NSE-SME: ARHAM), a leading consumer electronics brand and manufacturer, has announced that its Interactive Flat Panel Displays (IFPDs), marketed under its in-house brand STARSHINE, have received **Enterprise Devices Licensing Agreement (EDLA) certification from Google** and are now powered by the latest **Android 14 operating system**.

This certification marks a significant milestone in the Company's product evolution, enabling seamless integration with the Google ecosystem, including official access to Google Play Store, YouTube, Google Classroom, and other enterprise-grade applications, along with enhanced security, compliance, and regular software updates.

The EDLA certification strengthens Arham Technologies' position in the fast-growing IFPD segment by ensuring globally recognized standards of performance, security, and user experience. **This also enables the Company to offer a fully integrated hardware-software solution, reducing reliance on third-party operating systems and improving cost efficiencies, customization capabilities, and long-term scalability.**

This development is expected to significantly enhance the Company's competitiveness in institutional and enterprise markets, particularly in education, where demand for smart classroom solutions is witnessing strong momentum. With increasing government focus on digital learning infrastructure under initiatives such as the **National Education Policy (NEP) 2020**, along with various central and state-level smart classroom programs, the addressable market for IFPDs continues to expand rapidly. Government allocations toward digital education and ICT-enabled classrooms are estimated to run into thousands of crores over the coming years, creating a strong structural growth opportunity.

With EDLA-certified products, Arham Technologies is well-positioned to capitalize on this demand by offering compliant, future-ready, and scalable solutions tailored for schools, colleges, coaching institutes, and corporate environments.

Mr. Ankit Jain, Executive Director and Chief Financial Officer, commented, *"This EDLA certification from Google is a strong validation of our technological capabilities and our commitment to delivering high-quality, future-ready products. With Android 14-powered IFPDs developed for our STARSHINE brand, we have significantly enhanced our control over the product ecosystem, enabling better performance, security, and seamless user experience.*

This milestone strengthens our positioning in the rapidly growing smart classroom and enterprise collaboration segments. With the Government's continued push towards digital education under NEP 2020 and increasing investments in smart learning infrastructure, we see

a substantial opportunity ahead. We remain focused on scaling our IFPD business and capitalizing on this structural demand while improving our margins through deeper integration and in-house capabilities.”

About Arham Technologies Limited:

Arham Technologies Limited is a leading Electronics Manufacturer and Original Equipment Manufacturer (OEM) specializing in Smart LED Televisions under the premium STARSHINE and economy ARATTON brand. Incorporated in 2013 and based in Raipur, Chhattisgarh, the company operates from the Electronic Manufacturing Cluster in New Raipur with State-Of-The-Art facilities including 1K standard clean rooms and advanced testing protocols. The company has established itself as a dominant player in Central India's consumer electronics sector, manufacturing LED Smart TVs, Ceiling Fans, Air Coolers along with other appliances like Washing Machines, and Mixer Grinders for both B2B and B2C segments.
