Sub: Submission of Intimation regarding Commencement of Production of Interactive Flat Panel Displays (IFPDs).

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with Schedule III thereto, we are pleased to submit herewith an intimation regarding the commencement of production of **Interactive Flat Panel Displays (IFPDs)** at the Company's newly established manufacturing facility in Raipur.

The commencement of IFPD production marks a significant milestone in the Company's growth strategy and strengthens its presence in the technology-driven education and professional display solutions segment. The enclosed announcement contains the details of the development.

The above information is also being disseminated on the Company's website.

You are requested to take the same on record.

Thanking you,

Yours faithfully,

For Arham Technologies Limited

Mrs. Pooja Avinash Gandhewar

Company Secretary cum Compliance Officer

Encl: commencement of production of Interactive Flat Panel Displays (IFPDs)

Arham Technologies Commences IFPD Production in New Facility, Enabling the Classrooms and Workspaces of Tomorrow

Raipur, 24th July 2026: Arham Technologies Limited (NSE-SME: ARHAM), a leading Consumer Electronics Brand and Manufacturer under the **STARSHINE** brand, has commenced the production of **Interactive Flat Panel Displays**, or **IFPDs**, at its newly established manufacturing unit in Raipur. The development marks the Company's entry into the rapidly evolving segment of technology-led education and professional display solutions.

The IFPDs manufactured at the new facility will be marketed under Arham Technologies' consumer electronics brand, **STARSHINE**. The Company will also manufacture IFPDs for select **Original Equipment Manufacturer (OEM)** partners, strengthening its presence across both branded and contract manufacturing channels.

IFPDs represent a new generation of intelligent display systems designed to make teaching, presentations and visual communication more interactive, efficient and engaging. These products are increasingly being adopted across **government and private classrooms, educational institutions, corporate offices, training centres and other professional environments**.

With conventional blackboards, projectors and static display systems gradually being supplemented by digitally enabled teaching and collaboration tools, IFPDs are emerging as an **important part of modern education** and institutional infrastructure. They enable educators, students and professionals to interact with information through a single integrated display platform, supporting a more visual, collaborative and technology-driven experience.

The commencement of production at the new Raipur unit expands Arham Technologies' manufacturing capabilities and further diversifies its product portfolio into a high-potential electronics category. It also positions the Company to participate in the ongoing transition towards smart classrooms, digitally equipped institutions and technology-enabled workplaces across India.

Speaking on the development, Mr. Ankit Jain, Executive Director and Chief Financial Officer, commented, *"The commencement of IFPD production is an important milestone in our growth journey. Technology is changing the way students learn, teachers communicate and organisations collaborate. Through STARSHINE and our OEM partnerships, we aim to make new-generation interactive display solutions more accessible to schools, institutions and enterprises across the country."*

The Company intends to leverage its manufacturing infrastructure, distribution capabilities and growing STARSHINE brand presence to build a meaningful position in the interactive display segment.

With this expansion, Arham Technologies is not merely adding another product to its portfolio. It is creating the manufacturing foundation for the classrooms, institutions and workplaces of the future.

About Arham Technologies Limited:

Arham Technologies Limited is a leading Electronics Manufacturer and Original Equipment Manufacturer (OEM) specializing in Smart LED Televisions under the premium STARSHINE and economy ARATTON brand. Incorporated in 2013 and based in Raipur, Chhattisgarh, the company operates from the Electronic Manufacturing Cluster in New Raipur with State-Of-The-Art facilities including 1K standard clean rooms and advanced testing protocols. The company has established itself as a dominant player in Central India's consumer electronics sector, manufacturing LED Smart TVs, Ceiling Fans, Air Coolers along with other appliances like Washing Machines, and Mixer Grinders for both B2B and B2C segments.
