Arisinfra Bags ₹79.05 Crore Work Order for Mumbai's GMLR Twin Tunnel Project

Mumbai, July 16, 2026: Arisinfra Solutions Limited (NSE: ARIS | BSE 544419), a leading technology-enabled construction materials and infrastructure solutions company, has secured a **work order worth ₹79.05 crore** from **J. Kumar – NCC (GMLR) JV** for the **loading, transportation and disposal of excavated material** for the prestigious **Goregaon-Mulund Link Road (GMLR) Twin Tunnel Project** in Mumbai.

Under the work order, Arisinfra will undertake the end-to-end management of excavated material generated from the tunnel excavation, including deployment of loading equipment, transportation through a dedicated fleet, identification and management of approved dumping yards, statutory approvals, environmental compliances and disposal in accordance with project requirements.

The Goregaon-Mulund Link Road is one of Mumbai's flagship infrastructure projects and features twin tunnels connecting Film City, Goregaon, to Khindipada, Mulund, significantly improving east-west connectivity and reducing travel time across the city.

Commenting on the development, **Ronak Morbia, Chairman & Managing Director, Arisinfra Solutions Limited**, said:

"Securing this work order reinforces our growing capabilities in supporting large-scale infrastructure projects through integrated execution and efficient project management. As infrastructure development accelerates across the country, we remain committed to delivering operational excellence while adhering to the highest standards of safety, environmental compliance and execution."

The work order further strengthens Arisinfra's participation in India's rapidly expanding infrastructure sector and reflects the Company's ability to execute complex, large-scale logistics and project support assignments.

ABOUT ARIS:

Arisinfra Solutions Ltd. (NSE: ARIS | BSE: 544419) is India's first listed company offering an organised construction material supply and services network — bringing together fragmented suppliers and manufacturers to reliably serve large developers and contractors.

The company serves a wide spectrum of infrastructure and real estate clients, delivering value through operational efficiency, material supply exclusivity, and high-margin service offerings. With a strong presence across high-growth regions, ARIS is committed to setting new benchmarks in innovation, sustainability, and profitability within the Indian construction ecosystem.
