NEW GOVT PLANS TO SEEK LOWER POWER PRICES

Bangla govt may revise Adani deal

SWATI GUPTA
February 23

BANGLADESH PLANS TO renegotiate its power purchase deal with Adani Power in order to seek lower prices, according to people familiar with the matter, marking one of the newly elected government's first initiatives since taking office last week.

The cost of coal used by the power supplier is too high, as is the price of electricity being charged to Bangladesh, said one of the people, a senior government official. Reopening negotiations with the company is at the top of the agenda for the new government, the person said. The government hasn't yet raised the matter with the company, the person said.

Rezaul Karim, chairman of the Bangladesh Power Development Board, didn't respond to calls for comment. A representative for Adani Power said it hasn't received any communication from the government regarding renegotiations, and it was meeting with its supply obligations under the contract.

Adani Power has been supplying electricity to Bangladesh from its coal-fired plant in Jharkhand since 2023. Bangladesh began importing all of the power produced at Adani Power's 1,600-megawatt unit under a 2.5-year power purchase agreement negotiated during the reign of then-leader Sheikh Hasina.

DEAL DIARY

■ Adani Power supplies electricity to Bangladesh from its **1,600 MW** coal-fired plant in Jharkhand

■ Bangladesh imports **100%** of the plant's output; the agreement runs for 25 years

■ Power supply began in 2023

■ In late 2024, Adani cut electricity exports due to unpaid bills

■ Supplies were restored in March after payments improved

Hasina was ousted in August 2024 after thousands of mainly young protesters took to the streets demanding she step down. Two months later, Adani Power reduced electricity supply to Bangladesh because of unpaid bills, risking blackouts. The country accumulated billions of dollars in unpaid power bills at the time. Power supplies were returned to normal in March last year.

New Prime Minister Tarique Rahman, whose Bangladesh Nationalist Party won a sweeping victory in elections this month, has pledged to restore political and economic stability in the country.

Renegotiating the contract may complicate relations with India, which has taken steps to reset ties with Rahman's government. Relations came under strain during the interim government led by Nobel laureate Muhammad Yunus, who demanded India—which has sheltered Hasina since 2024—extradite her.

Rahman's government has said it favours a more balanced foreign policy that works for Bangladesh. The government wants to negotiate the agreement with Adani out of court, which would be an easier process for both parties, the official said. —BLOOMBERG

LTIMindtree inks \$100-mn deal with Europe firm

REUTERS
February 23

IT SERVICES COMPANY LTIMindtree on Monday said it has secured a \$100-million, seven-year deal with a Europe-based medical technology company that provides hearing solutions.

The information technology company did not reveal the name of the European company.

Under the agreement, LTIMindtree will develop and support the client's main hearing aid brands and private-label products, including core wearable devices, and a mobile app for users.

Earlier this month, LTIMindtree's board approved a proposal to rename the company LTM Limited, subject to shareholder and regulatory clearances.

In January, the IT firm said total order bookings for the quarter ended December 31 hit a record \$1.69 billion.

Urban Company's InstaHelp hits 50K daily bookings in a yr

FE BUREAU
Bengaluru, February 23

URBAN COMPANY ON Monday said its quick-service housekeeping vertical, InstaHelp, crossed 50,000 daily bookings on February 22, recording approximately 51,520 bookings. The milestone comes less than a year after the service's pilot launch in Mumbai in March 2025.

Urban Company's core consumer business in India took nearly six years to reach the 50,000 daily booking mark. However, the company clarified that the 50,000-plus figure represents a peak day, adding that long-term growth will hinge on sustained customer retention, consistent service quality, and the ability to scale the supply of professionals.

InstaHelp currently operates in select micro-markets across five metros — Mumbai, Bengaluru, Delhi-NCR, Hyder-

ABHIRAJ SINGH BHAL,
CEO & CO-FOUNDER,
URBAN COMPANY

This (bookings record) reflects strong consumer demand for reliable, on-demand house-keeping services

abad, and Pune — offering services such as home cleaning, dishwashing, laundry, and meal preparation. The platform promises to connect customers with service professionals within 10-15 minutes of booking.

Abhiraj Singh Bhal, CEO and

co-founder of Urban Company, said the milestone "reflects strong consumer demand for reliable, on-demand house-keeping services". He added that the company is investing in building a high-frequency category aimed at deepening platform engagement, with unit economics and repeat usage already showing early signs of improvement.

The InstaHelp vertical, positioned as Urban Company's play in the high-frequency, lower-ticket home services segment, appears to be the company's strategic response to the broader market shift toward on-demand services.

During the Q3FY26 earnings call, Bhal indicated that the vertical is expected to remain loss-making for the foreseeable future. "Latest by Q3FY28, the overall profits from the rest of the business should be sufficiently large enough to offset the losses in InstaHelp," he had said.

Telecom tariffs to rise 13-15% in FY27: HSBC

URVI MALVANIA
Mumbai, February 23

THE AVERAGE REVENUE per user (Arpu) for a telecom operator could see a 13-15% lift in FY27, buoyed by headline tariff hikes later in the year, analysts said in a recent report by HSBC.

The report also said that though Vodafone's recent AGR relief improves its financial runway, it doesn't materially alter the competitive dynamics.

"We forecast a 15% mobile tariff hike in Q2FY27 for 4G/5G subscribers and expect mobile Arpu to expand by 13-15% year-on-year for the three operators in FY27," analysts at HSBC said.

The increase is expected to be supported by continued growth in data consumption and a steady migration of subscribers to higher-value plans, reinforcing the sector's focus on monetising rising usage rather than chasing aggressive subscriber additions.

The anticipated tariff move also signals continued pricing discipline among private operators, suggesting that the industry remains structurally aligned on improving returns after years of balance-sheet stress and heavy network investments.

For larger players such as Bharti Airtel and Reliance Jio, expanding home broadband subscriber bases and improving free cash flow are expected to remain the core drivers of earnings growth over the medium term, the analysts added.

Kotak to get EY's special jury award

EY INDIA HAS announced the names of nine finalists for its 27th Entrepreneur of the Year (EOY) Awards.

NEW GOVT PLANS TO SEEK LOWER POWER PRICES

Bangla govt may revise Adani deal

SWATI GUPTA
February 23

BANGLADESH PLANS TO renegotiate its power purchase deal with Adani Power in order to seek lower prices, according to people familiar with the matter, marking one of the newly elected government's first initiatives since taking office last week.

The cost of coal used by the power supplier is too high, as is the price of electricity being charged to Bangladesh, said one of the people, a senior government official. Reopening negotiations with the company is at the top of the agenda for the new government, the person said. The government hasn't yet raised the matter with the company, the person said.

Rezaul Karim, chairman of the Bangladesh Power Development Board, didn't respond to calls for comment. A representative for Adani Power said it hasn't received any communication from the government regarding renegotiations, and it was meeting all its supply obligations under the contract.

Adani Power has been supplying electricity to Bangladesh from its coal-fired plant in Jharkhand since 2023. Bangladesh began importing all of the power produced at Adani Power's 1,600-megawatt unit under a 25-year power purchase agreement negotiated during the reign of then-leader Sheikh Hasina.

DEAL DIARY

- Adani Power supplies electricity to Bangladesh from its 1,600 MW coal-fired plant in Jharkhand
- Power supply began in 2023
- In late 2024, Adani cut electricity exports due to unpaid bills
- Supplies were restored in March after payments improved
- Bangladesh renegotiates 100% of the plant's output; the agreement runs for 25 years

Hasina was ousted in August 2024 after thousands of mainly young protesters took to the streets demanding she step down. Two months later, Adani Power reduced electricity supply to Bangladesh because of unpaid bills, risking blackouts. The country accumulated billions of dollars in unpaid power bills at the time. Power supplies were returned to normal in March last year.

New Prime Minister Tarique Rahman, whose Bangladesh Nationalist Party won a sweeping victory in elections this month, has pledged to restore political and economic stability in the country.

Renegotiating the contract may complicate relations with India, which has taken steps to reset ties with Rahman's government. Relations came under strain during the interim government led by Nobel laureate Muhammad Yunus, who demanded India—which has sheltered Hasina since 2024—extradite her.

Rahman's government has said it favours a more balanced foreign policy that works for Bangladesh. The government wants to negotiate the agreement with Adani out of court, which would be an easier process for both parties, the official said. —BLOOMBERG

LTIMindtree inks \$100-mn deal with Europe firm

REUTERS
February 23

IT SERVICES COMPANY LTIMindtree on Monday said it has secured a \$100-million, seven-year deal with a Europe-based medical technology company that provides hearing solutions.

The information technology company did not reveal the name of the European company.

Under the agreement, LTIMindtree will develop and support the client's main hearing aid brands and private-label products, including core wearable devices, and a mobile app for users.

Earlier this month, LTIMindtree's board approved a proposal to rename the company LTM Limited, subject to shareholder and regulatory clearances.

In January, the IT firm said total order bookings for the quarter ended December 31 hit a record \$1.69 billion.

Urban Company's InstaHelp hits 50K daily bookings in a yr

FE BUREAU
Bengaluru, February 23

URBAN COMPANY ON Monday said its quick-service housekeeping vertical, InstaHelp, crossed 50,000 daily bookings on February 22, recording approximately 51,520 bookings. The milestone comes less than a year after the service's pilot launch in Mumbai in March 2025.

Urban Company's core consumer business in India took nearly six years to reach the 50,000 daily booking mark. However, the company clarified that the 50,000-plus figure represents a peak day, adding that long-term growth will hinge on sustained customer retention, consistent service quality, and the ability to scale the supply of professionals.

InstaHelp currently operates in select micro-markets across five metros — Mumbai, Bengaluru, Delhi-NCR, Hyder-

URBAN COMPANY

This (bookings record) reflects strong consumer demand for reliable, on-demand house-keeping services

abad, and Pune — offering services such as home cleaning, dishwashing, laundry, and meal preparation. The platform promises to connect customers with service professionals within 10–15 minutes of booking.

Abhiraj Singh Bhal, CEO and

co-founder of Urban Company, said the milestone "reflects strong consumer demand for reliable, on-demand house-keeping services". He added that the company is investing in building a high-frequency category aimed at deepening platform engagement, with unit economics and repeat usage already showing early signs of improvement.

The InstaHelp vertical, positioned as Urban Company's play in the high-frequency, lower-ticket home services segment, appears to be the company's strategic response to the broader market shift toward on-demand services.

During the Q3FY26 earnings call, Bhal indicated that the vertical is expected to remain loss-making for the foreseeable future. "Latest by Q3FY28, the overall profits from the rest of the business should be sufficiently large enough to offset the losses in InstaHelp," he had said.

Telecom tariffs to rise 13-15% in FY27: HSBC

URVI MALYANIA
Mumbai, February 23

THE AVERAGE REVENUE per user (Arpu) for telecom operators could see a 13-15% lift in FY27, buoyed by headline tariff hikes later in the year, analysts said in a recent report by HSBC.

The report also said that though Vodafone Idea's recent AGR relief improves its financial runway, it doesn't materially alter the competitive dynamics. "We forecast a 15% mobile tariff hike in Q2FY27 for 4G/5G subscribers and expect mobile Arpu to expand by 13-15% year-on-year for the three operators in FY27," analysts at HSBC said.

The increase is expected to be supported by continued growth in data consumption and a steady migration of subscribers to higher-value plans, reinforcing the sector's focus on monetising rising usage rather than chasing aggressive subscriber additions.

The anticipated tariff move also signals continued pricing discipline among private operators, suggesting that the industry remains structurally aligned on improving returns after years of balance-sheet stress and heavy network investments.

For larger players such as Bharti Airtel and Reliance Jio, rising Arpu, expanding home broadband subscriber bases and improving free cash flow are expected to remain the core drivers of earnings growth over the medium term, the analysts added.

NEW GOVT PLANS TO SEEK LOWER POWER PRICES

Bangla govt may revise Adani deal

SWATI GUPTA
February 23

BANGLADESH PLANS TO renegotiate its power purchase deal with Adani Power in order to seek lower prices, according to people familiar with the matter, marking one of the newly elected government's first initiatives since taking office last week.

The cost of coal used by the power supplier is too high, as is the price of electricity being charged to Bangladesh, said one of the people, a senior government official. Reopening negotiations with the company is at the top of the agenda for the new government, the person said. The government hasn't yet raised the matter with the company, the person said.

Rezaul Karim, chairman of the Bangladesh Power Development Board, didn't respond to calls for comment. A representative for Adani Power said it hasn't received any communication from the government regarding renegotiations, and it was meeting all its supply obligations under its contract.

Adani Power has been supplying electricity to Bangladesh from its coal-fired plant in Jharkhand since 2023. Bangladesh began importing all of the power produced at Adani Power's 1,600-megawatt unit under a 25-year power purchase agreement negotiated during the reign of then-leader Sheikh Hasina.

DEAL DIARY

■ Adani Power supplies electricity to Bangladesh from its 1,600 MW coal-fired plant in Jharkhand

■ Bangladesh imports 100% of the plant's output; the agreement runs for 25 years

■ Power supply began in 2023

■ In late 2024, Adani cut electricity exports due to unpaid bills

■ Supplies were restored in March after payments improved

Hasina was ousted in August 2024 after thousands of mainly young protesters took to the streets demanding she step down. Two months later, Adani Power reduced electricity supply to Bangladesh because of unpaid bills, risking blackouts. The country accumulated billions of dollars in unpaid power bills at the time. Power supplies were returned to normal in March last year.

New Prime Minister Tarique Rahman, whose Bangladesh Nationalist Party won a sweeping victory in elections this month, has pledged to restore political and economic stability in the country.

Renegotiating the contract may complicate relations with India, which has taken steps to reset ties with Rahman's government. Relations came under strain during the interim government led by Nobel laureate Muhammad Yunus, who demanded India—which has sheltered Hasina since 2024—extradite her.

Rahman's government has said it favours a more balanced foreign policy that works for Bangladesh. The government wants to negotiate the agreement with Adani out of court, which would be an easier process for both parties, the official said. —BLOOMBERG

LTIMindtree inks \$100-mn deal with Europe firm

REUTERS
February 23

IT SERVICES COMPANY LTIMindtree on Monday said it has secured a \$100-million, seven-year deal with a Europe-based medical technology company that provides hearing solutions.

The information technology company did not reveal the name of the European company.

Under the agreement, LTIMindtree will develop and support the client's main hearing aid brands and private-label products, including core wearable devices, and a mobile app for users.

Earlier this month, LTI-Mindtree's board approved a proposal to rename the company LTM Limited, subject to shareholder and regulatory clearances.

In January, the IT firm said total order bookings for the quarter ended December 31 hit a record \$1.69 billion.

NEW GOVT PLANS TO SEEK LOWER POWER PRICES

Bangla govt may revise Adani deal

SWATI GUPTA
February 23

BANGLADESH PLANS TO renegotiate its power purchase deal with Adani Power in order to seek lower prices, according to people familiar with the matter, marking one of the newly elected government's first initiatives since taking office last week.

The cost of coal used by the power supplier is too high, as is the price of electricity being charged to Bangladesh, said one of the people, a senior government official. Reopening negotiations with the company is at the top of the agenda for the new government, the person said. The government hasn't yet raised the matter with the company, the person said.

Rezaul Karim, chairman of the Bangladesh Power Development Board, didn't respond to calls for comment. A representative for Adani Power said it hasn't received any communication from the government regarding renegotiations, and it was meeting all its supply obligations under the contract.

Adani Power has been supplying electricity to Bangladesh from its coal-fired plant in Jharkhand since 2023. Bangladesh began importing all of the power produced at Adani Power's 1,600-megawatt unit under a 25-year power purchase agreement negotiated during the reign of then-leader Sheikh Hasina.

DEAL DIARY

- Adani Power supplies electricity to Bangladesh from its 1,600 MW coal-fired plant in Jharkhand
- Bangladesh imports 100% of the plant's output; the agreement runs for 25 years
- In late 2024, Adani cut electricity exports due to unpaid bills
- Supplies were restored in March after payments improved
- Power supply began in 2023

Hasina was ousted in August 2024 after thousands of mainly young protesters took to the streets demanding she step down. Two months later, Adani Power reduced electricity supply to Bangladesh because of unpaid bills, risking blackouts. The country accumulated billions of dollars in unpaid power bills at the time. Power supplies were returned to normal in March last year.

New Prime Minister Tarique Rahman, whose Bangladesh Nationalist Party won a sweeping victory in elections this month, has pledged to restore political and economic stability in the country.

Renegotiating the contract may complicate relations with India, which has taken steps to reset ties with Rahman's government.

Relations came under strain during the interim government led by Nobel laureate Muhammad Yunus, who demanded India—which has sheltered Hasina since 2024—extradite her.

Rahman's government has said it favours a more balanced foreign policy that works for Bangladesh. The government wants to negotiate the agreement with Adani out of court, which would be an easier process for both parties, the official said. —BLOOMBERG

LTIMindtree inks \$100-mn deal with Europe firm

REUTERS
February 23

IT SERVICES COMPANY LTIMindtree on Monday said it has secured a \$100-million, seven-year deal with a Europe-based medical technology company that provides hearing solutions.

The information technology company did not reveal the name of the European company.

Under the agreement, LTIMindtree will develop and support the client's main hearing aid brands and private-label products, including core wearable devices, and a mobile app for users.

Earlier this month, LTIMindtree's board approved a proposal to rename the company LTM Limited, subject to shareholder and regulatory clearances.

In January, the IT firm said total order bookings for the quarter ended December 31 hit a record \$1.69 billion.

Urban Company's InstaHelp hits 50K daily bookings in a yr

FE BUREAU
Bengaluru, February 23

URBAN COMPANY ON Monday said its quick-service housekeeping vertical, InstaHelp, crossed 50,000 daily bookings on February 22, recording approximately 51,520 bookings. The milestone comes less than a year after the service's pilot launch in Mumbai in March 2023.

Urban Company's core consumer business in India took nearly six years to reach the 50,000 daily booking mark. However, the company clarified that the 50,000-plus figure represents a peak day, adding that long-term growth will hinge on sustained customer retention, consistent service quality, and the ability to scale the supply of professionals.

InstaHelp currently operates in select micro-markets across five metros — Mumbai, Bengaluru, Delhi-NCR, Hyder-

ABHIRAJ SINGH BHAL, CEO & CO-FOUNDER, URBAN COMPANY

This (bookings record) reflects strong consumer demand for reliable, on-demand house-keeping services

abad, and Pune — offering services such as home cleaning, dishwashing, laundry, and meal preparation. The platform promises to connect customers with service professionals within 10-15 minutes of booking.

co-founder of Urban Company, said the milestone "reflects strong consumer demand for reliable, on-demand house-keeping services". He added that the company is investing in building a high-frequency category aimed at deepening platform engagement, with unit economics and repeat usage already showing early signs of improvement.

The InstaHelp vertical, positioned as Urban Company's play in the high-frequency, lower-ticket home services segment, appears to be the company's strategic response to the broader market shift toward on-demand services.

During the Q3FY26 earnings call, Bhal indicated that the vertical is expected to remain loss-making for the foreseeable future. "Latest by Q3FY28, the overall profits from the rest of the business should be sufficiently large enough to offset the losses in InstaHelp," he had said.

Telecom tariffs to rise 13-15% in FY27: HSBC

URVI MALVANIA
Mumbai, February 23

THE AVERAGE REVENUE per user (Arpu) for telecom operators could see a 13-15% lift in FY27, buoyed by headline tariff hikes later in the year, analysts said in a recent report by HSBC.

The report also said that though Vodafone Idea's recent AGR relief improves its financial runway, it doesn't materially alter the competitive dynamics.

"We forecast a 15% mobile tariff hike in Q2FY27 for 4G/5G subscribers and expect mobile Arpu to expand by 13-15% year-on-year for the three operators in FY27," analysts at HSBC said.

The increase is expected to be supported by continued growth in data consumption and a steady migration of subscribers to higher-value plans, reinforcing the sector's focus on monetising rising usage rather than chasing aggressive subscriber additions.

The anticipated tariff move also signals continued pricing discipline among private operators, suggesting that the industry remains structurally aligned on improving returns after years of balance-sheet stress and heavy network investments.

For larger players such as Bharti Airtel and Reliance Jio, rising Arpu, expanding home broadband subscriber bases and improving free cash flow are expected to remain the core drivers of earnings growth over the medium term, the analysts added.

Reopening negotiations with the company is at the top of the agenda for the new government, the person said. The government hasn't yet raised the matter with the company, the person said.

Rezaul Karim, chairman of the Bangladesh Power Development Board, didn't respond to calls for comment. A representative for Adani Power said it hasn't received any communication from the government regarding renegotiations, and it was meeting all its supply obligations under its contract.

Adani Power has been supplying electricity to Bangladesh from its coal-fired plant in Jharkhand since 2023. Bangladesh began importing all of the power produced at Adani Power's 1,600-megawatt unit under a 25-year power purchase agreement negotiated during the reign of then-leader Sheikh Hasina.

DEAL DIARY

■ Adani Power supplies electricity to Bangladesh from its 1,600 MW coal-fired plant in Jharkhand

■ Bangladesh imports 100% of the plant's output; the agreement runs for 25 years

■ Power supply began in 2023

■ In late 2024, Adani cut electricity exports due to unpaid bills

■ Supplies were restored in March after payments improved

Hasina was ousted in August 2024 after thousands of mainly young protesters took to the streets demanding she step down. Two months later, Adani Power reduced electricity supply to Bangladesh because of unpaid bills, risking blackouts. The country accumulated billions of dollars in unpaid power bills at the time. Power supplies were returned to normal in March last year.

New Prime Minister Tarique Rahman, whose Bangladesh Nationalist Party won a sweeping victory in elections this month, has pledged to restore political and economic stability in the country.

Renegotiating the contract may complicate relations with India, which has taken steps to reset ties with Rahman's government. Relations came under strain during the interim government led by Nobel laureate Muhammad Yunus, who demanded India—which has sheltered Hasina since 2024—extradite her.

Rahman's government has said it favours a more balanced foreign policy that works for Bangladesh. The government wants to negotiate the agreement with Adani out of court, which would be an easier process for both parties, the official said. —BLOOMBERG

LTIMindtree inks \$100-mn deal with Europe firm

REUTERS
February 23

IT SERVICES COMPANY LTIMindtree on Monday said it has secured a \$100-million, seven-year deal with a Europe-based medical technology company that provides hearing solutions.

The information technology company did not reveal the name of the European company.

Under the agreement, LTIMindtree will develop and support the client's main hearing aid brands and private-label products, including core wearable devices, and a mobile app for users.

Earlier this month, LTIMindtree's board approved a proposal to rename the company LTM Limited, subject to shareholder and regulatory clearances.

In January, the IT firm said total order bookings for the quarter ended December 31 hit a record \$1.69 billion.

Urban Company's InstaHelp hits 50K daily bookings in a yr

FE BUREAU
Bengaluru, February 23

URBAN COMPANY ON Monday said its quick-service housekeeping vertical, InstaHelp, crossed 50,000 daily bookings on February 22, recording approximately 51,520 bookings. The milestone comes less than a year after the service's pilot launch in Mumbai in March 2023.

Urban Company's core consumer business in India took nearly six years to reach the 50,000 daily booking mark. However, the company clarified that the 50,000-plus figure represents a peak day, adding that long-term growth will hinge on sustained customer retention, consistent service quality, and the ability to scale the supply of professionals.

InstaHelp currently operates in select micro-markets across five metros — Mumbai, Bengaluru, Delhi-NCR, Hyder-

ABHIRAJ SINGH BHAL, CEO & CO-FOUNDER, URBAN COMPANY

This (bookings record) reflects strong consumer demand for reliable, on-demand house-keeping services

abad, and Pune — offering services such as home cleaning, dishwashing, laundry, and meal preparation. The platform promises to connect customers with service professionals within 10-15 minutes of booking.

Abhiraj Singh Bhal, CEO and

co-founder of Urban Company, said the milestone "reflects strong consumer demand for reliable, on-demand house-keeping services". He added that the company is investing in building a high-frequency category aimed at deepening platform engagement, with unit economics and repeat usage already showing early signs of improvement.

The InstaHelp vertical, positioned as Urban Company's play in the high-frequency, lower-ticket home services segment, appears to be the company's strategic response to the broader market shift toward on-demand services.

During the Q3FY26 earnings call, Bhal indicated that the vertical is expected to remain loss-making for the foreseeable future. "Latest by Q3FY28, the overall profits from the rest of the business should be sufficiently large enough to offset the losses in InstaHelp," he had said.

Telecom tariffs to rise 13-15% in FY27: HSBC

URVI MALVANIA
Mumbai, February 23

THE AVERAGE REVENUE per user (Arpu) for telecom operators could see a 13-15% lift in FY27, buoyed by headline tariff hikes later in the year, analysts said in a recent report by HSBC.

The report also said that though Vodafone Idea's recent AGR relief improves its financial runway, it doesn't materially alter the competitive dynamics.

"We forecast a 15% mobile tariff hike in Q2FY27 for 4G/5G subscribers and expect mobile Arpu to expand by 13-15% year-on-year for the three operators in FY27," analysts at HSBC said.

The increase is expected to be supported by continued growth in data consumption and a steady migration of subscribers to higher-value plans, reinforcing the sector's focus on monetising rising usage rather than chasing aggressive subscriber additions.

The anticipated tariff move also signals continued pricing discipline among private operators, suggesting that the industry remains structurally aligned on improving returns after years of balance-sheet stress and heavy network investments.

For larger players such as Bharti Airtel and Reliance Jio, rising Arpu, expanding home broadband subscriber bases and improving free cash flow are expected to remain the core drivers of earnings growth over the medium term, the analysts added.

NEW GOVT PLANS TO SEEK LOWER POWER PRICES

Bangla govt may revise Adani deal

SWATI GUPTA
February 23

BANGLADESH PLANS TO renegotiate its power purchase deal with Adani Power in order to seek lower prices, according to people familiar with the matter, marking one of the newly elected government's first initiatives since taking office last week.

The cost of coal used by the power supplier is too high, as is the price of electricity being charged to Bangladesh, said one of the people, a senior government official. Reopening negotiations with the company is at the top of the agenda for the new government, the person said. The government hasn't yet raised the matter with the company, the person said.

NEW GOVT PLANS TO SEEK LOWER POWER PRICES

Bangla govt may revise Adani deal

SWATI GUPTA
February 23

BANGLADESH PLANS TO renegotiate its power purchase deal with Adani Power in order to seek lower prices, according to people familiar with the matter, marking one of the newly elected government's first initiatives since taking office last week.

The cost of coal used by the power supplier is too high, as is the price of electricity being charged to Bangladesh, said one of the people, a senior government official. Reopening negotiations with the company is at the top of the agenda for the new government, the person said. The government hasn't yet raised the matter with the company, the person said.

Rezaul Karim, chairman of the Bangladesh Power Development Board, didn't respond to calls for comment. A representative for Adani Power said it hasn't received any communication from the government regarding renegotiations, and it was meeting all its supply obligations under its contract.

Adani Power has been supplying electricity to Bangladesh from its coal-fired plant in Jharkhand since 2023. Bangladesh began importing all of the power produced at Adani Power's 1,600-megawatt unit under a 25-year power purchase agreement negotiated during the reign of then-leader Sheikh Hasina.

DEAL DIARY

■ Adani Power supplies electricity to Bangladesh from its 1,600 MW coal-fired plant in Jharkhand

■ Bangladesh imports 100% of the plant's output; the agreement runs for 25 years

■ Power supply began in 2023

■ In late 2024, Adani cut electricity exports due to unpaid bills

■ Supplies were restored in March after payments improved

Hasina was ousted in August 2024 after thousands of mainly young protesters took to the streets demanding she step down. Two months later, Adani Power reduced electricity supply to Bangladesh because of unpaid bills, risking blackouts. The country accumulated billions of dollars in unpaid power bills at the time. Power supplies were returned to normal in March last year.

New Prime Minister Tarique Rahman, whose Bangladesh Nationalist Party won a sweeping victory in elections this month, has pledged to restore political and economic stability in the country.

Renegotiating the contract may complicate relations with India, which has taken steps to reset ties with Rahman's government. Relations came under strain during the interim government led by Nobel laureate Muhammad Yunus, who demanded India—which has sheltered Hasina since 2024—extradite her.

Rahman's government has said it favours a more balanced foreign policy that works for Bangladesh. The government wants to negotiate the agreement with Adani out of court, which would be an easier process for both parties, the official said. —BLOOMBERG

LTIMindtree inks \$100-mn deal with Europe firm

REUTERS
February 23

IT SERVICES COMPANY LTIMindtree on Monday said it has secured a \$100-million, seven-year deal with a Europe-based medical technology company that provides hearing solutions.

The information technology company did not reveal the name of the European company.

Under the agreement, LTIMindtree will develop and support the client's main hearing aid brands and private-label products, including core wearable devices, and a mobile app for users.

Earlier this month, LTIMindtree's board approved a proposal to rename the company LTM Limited, subject to shareholder and regulatory clearances.

In January, the IT firm said total order bookings for the quarter ended December 31 hit a record \$1.69 billion.

Urban Company's InstaHelp hits 50K daily bookings in a yr

FE BUREAU
Bengaluru, February 23

URBAN COMPANY ON Monday said its quick-service housekeeping vertical, InstaHelp, crossed 50,000 daily bookings on February 22, recording approximately 51,520 bookings. The milestone comes less than a year after the service's pilot launch in Mumbai in March 2023.

Urban Company's core consumer business in India took nearly six years to reach the 50,000 daily booking mark. However, the company clarified that the 50,000-plus figure represents a peak day, adding that long-term growth will hinge on sustained customer retention, consistent service quality, and the ability to scale the supply of professionals.

InstaHelp currently operates in select micro-markets across five metros — Mumbai, Bengaluru, Delhi-NCR, Hyder-

ABHIRAJ SINGH BHAL, CEO & CO-FOUNDER, URBAN COMPANY

This (bookings record) reflects strong consumer demand for reliable, on-demand house-keeping services

abad, and Pune — offering services such as home cleaning, dishwashing, laundry, and meal preparation. The platform promises to connect customers with service professionals within 10-15 minutes of booking.

Abhiraj Singh Bhal, CEO and

co-founder of Urban Company, said the milestone "reflects strong consumer demand for reliable, on-demand house-keeping services". He added that the company is investing in building a high-frequency category aimed at deepening platform engagement, with unit economics and repeat usage already showing early signs of improvement.

The InstaHelp vertical, positioned as Urban Company's play in the high-frequency, lower-ticket home services segment, appears to be the company's strategic response to the broader market shift toward on-demand services.

During the Q3FY26 earnings call, Bhal indicated that the vertical is expected to remain loss-making for the foreseeable future. "Latest by Q3FY28, the overall profits from the rest of the business should be sufficiently large enough to offset the losses in InstaHelp," he had said.

Telecom tariffs to rise 13-15% in FY27: HSBC

URVI MALVANIA
Mumbai, February 23

THE AVERAGE REVENUE per user (Arpu) for telecom operators could see a 13-15% lift in FY27, buoyed by headline tariff hikes later in the year, analysts said in a recent report by HSBC.

The report also said that though Vodafone Idea's recent AGR relief improves its financial runway, it doesn't materially alter the competitive dynamics.

"We forecast a 15% mobile tariff hike in Q2FY27 for 4G/5G subscribers and expect mobile Arpu to expand by 13-15% year-on-year for the three operators in FY27," analysts at HSBC said.

The increase is expected to be supported by continued growth in data consumption and a steady migration of subscribers to higher-value plans, reinforcing the sector's focus on monetising rising usage rather than chasing aggressive subscriber additions.

The anticipated tariff move also signals continued pricing discipline among private operators, suggesting that the industry remains structurally aligned on improving returns after years of balance-sheet stress and heavy network investments.

For larger players such as Bharti Airtel and Reliance Jio, raising Arpu, expanding home broadband subscriber bases and improving free cash flow are expected to remain the core drivers of earnings growth over the medium term, the analysts added.

Kotak to get EY's special jury award

NEW GOVT PLANS TO SEEK LOWER POWER PRICES

Bangla govt may revise Adani deal

SWATI GUPTA
February 23

BAGLADESH PLANS TO renegotiate its power purchase deal with Adani Power in order to seek lower prices, according to people familiar with the matter, marking one of the newly elected government's first initiatives since taking office last week.

The cost of coal used by the power supplier is too high, as is the price of electricity being charged to Bangladesh, said one of the people, a senior government official. Reopening negotiations with the company is at the top of the agenda for the new government, the person said. The government hasn't yet raised the matter with the company, the person said.

Rezaul Karim, chairman of the Bangladesh Power Development Board, didn't respond to calls for comment. A representative for Adani Power said it hasn't received any communication from the government regarding renegotiations, and it was meeting all its supply obligations under the contract.

Adani Power has been supplying electricity to Bangladesh from its coal-fired plant in Jharkhand since 2023. Bangladesh began importing all of the power produced at Adani Power's 1,600-megawatt unit under a 25-year power purchase agreement negotiated during the reign of then-leader Sheikh Hasina.

DEAL DIARY

- Adani Power supplies electricity to Bangladesh from its 1,600 MW coal-fired plant in Jharkhand
- Power supply began in 2023
- In late 2024, Adani cut electricity exports due to unpaid bills
- Supplies were restored in March after payments improved
- Bangladesh imports 100% of the plant's output; the agreement runs for 25 years

Hasina was ousted in August 2024 after thousands of mainly young protesters took to the streets demanding she step down. Two months later, Adani Power reduced electricity supply to Bangladesh because of unpaid bills, risking blackouts. The country accumulated billions of dollars in unpaid power bills at the time. Power supplies were returned to normal in March last year.

New Prime Minister Tarique Rahman, whose Bangladesh Nationalist Party won a sweeping victory in elections this month, has pledged to restore political and economic stability in the country.

Renegotiating the contract may complicate relations with India, which has taken steps to reset ties with Rahman's government. Relations came under strain during the interim government led by Nobel laureate Muhammad Yunus, who demanded India—which has sheltered Hasina since 2024—extradite her.

Rahman's government has said it favours a more balanced foreign policy that works for Bangladesh. The government wants to negotiate the agreement with Adani out of court, which would be an easier process for both parties, the official said. —BLOOMBERG

LTIMindtree inks \$100-mn deal with Europe firm

REUTERS
February 23

IT SERVICES COMPANY LTIMindtree on Monday said it has secured a \$100-million, seven-year deal with a Europe-based medical technology company that provides hearing solutions.

The information technology company did not reveal the name of the European company.

Under the agreement, LTIMindtree will develop and support the client's main hearing aid brands and private-label products, including core wearable devices, and a mobile app for users.

Earlier this month, LTIMindtree's board approved a proposal to rename the company LTM Limited, subject to shareholder and regulatory clearances.

In January, the IT firm said total order bookings for the quarter ended December 31 hit a record \$1.69 billion.

Urban Company's InstaHelp hits 50K daily bookings in a yr

FE BUREAU
Bengaluru, February 23

URBAN COMPANY ON Monday said its quick-service housekeeping vertical, InstaHelp, crossed 50,000 daily bookings on February 22, recording approximately 51,520 bookings. The milestone comes less than a year after the service's pilot launch in Mumbai in March 2025.

Urban Company's core consumer business in India took nearly six years to reach the 50,000 daily booking mark. However, the company clarified that the 50,000-plus figure represents a peak day, adding that long-term growth will hinge on sustained customer retention, consistent service quality, and the ability to scale the supply of professionals.

InstaHelp currently operates in select micro-markets across five metros — Mumbai, Bengaluru, Delhi-NCR, Hyderabad, and Pune — offering services such as home cleaning, dishwashing, laundry, and meal preparation. The platform promises to connect customers with service professionals within 10–15 minutes of booking.

Abhiraj Singh Bhal, CEO and

ABHIRAJ SINGH BHAL, CEO & CO-FOUNDER, URBAN COMPANY

This (bookings record) reflects strong consumer demand for reliable, on-demand house-keeping services

co-founder of Urban Company, said the milestone "reflects strong consumer demand for reliable, on-demand house-keeping services". He added that the company is investing in building a high-frequency category aimed at deepening platform engagement, with unit economics and repeat usage already showing early signs of improvement.

The InstaHelp vertical, positioned as Urban Company's play in the high-frequency, lower-ticket home services segment, appears to be the company's strategic response to the broader market shift toward on-demand services.

During the Q3FY26 earnings call, Bhal indicated that the vertical is expected to remain loss-making for the foreseeable future. "Latest by Q3FY28, the overall profits from the rest of the business should be sufficiently large enough to offset the losses in InstaHelp," he had said.

Telecom tariffs to rise 13-15% in FY27: HSBC

URVI MALVANIA
Mumbai, February 23

THE AVERAGE REVENUE per user (Arpu) for telecom operators could see a 13–15% lift in FY27, buoyed by headline tariff hikes later in the year, analysts said in a recent report by HSBC.

The report also said that though Vodafone Idea's recent AGRelief improves its financial runway, it doesn't materially alter the competitive dynamics.

"We forecast a 15% mobile tariff hike in Q2FY27 for 4G/5G subscribers and expect mobile Arpu to expand by 13–15% year-on-year for the three operators in FY27," analysts at HSBC said.

The increase is expected to be supported by continued growth in data consumption and a steady migration of subscribers to higher-value plans, reinforcing the sector's focus on monetising rising usage rather than chasing aggressive subscriber additions.

The anticipated tariff move also signals continued pricing discipline among private operators, suggesting that the industry remains structurally aligned on improving returns after years of balance-sheet stress and heavy network investments.

For larger players such as Bharti Airtel and Reliance Jio, rising Arpu, expanding home broadband subscriber bases and improving free cash flow are expected to remain the core drivers of earnings growth over the medium term, the analysts added.

NEW GOVT PLANS TO SEEK LOWER POWER PRICES

Bangla govt may revise Adani deal

SWATI GUPTA
February 23

BANGLADESH PLANS TO renegotiate its power purchase deal with Adani Power in order to seek lower prices, according to people familiar with the matter, marking one of the newly elected government's first initiatives since taking office last week.

The cost of coal used by the power supplier is too high, as is the price of electricity being charged to Bangladesh, said one of the people, a senior government official. Reopening negotiations with the company is at the top of the agenda for the new government, the person said. The government hasn't yet raised the matter with the company, the person said.

Rezaul Karim, chairman of the Bangladesh Power Development Board, didn't respond to calls for comment. A representative for Adani Power said it hasn't received any communication from the government regarding renegotiations, and it was meeting all its supply obligations under its contract.

Adani Power has been supplying electricity to Bangladesh from its coal-fired plant in Jharkhand since 2023. Bangladesh began importing all of the power produced at Adani Power's 1,600-megawatt unit under a 25-year power purchase agreement negotiated during the reign of then-leader Sheikh Hasina.

DEAL DIARY

■ Adani Power supplies electricity to Bangladesh from its 1,600 MW coal-fired plant in Jharkhand

■ Bangladesh imports 100% of the plant's output; the agreement runs for 25 years

■ Power supply began in 2023

■ In late 2024, Adani cut electricity exports due to unpaid bills

■ Supplies were restored in March after payments improved

Hasina was ousted in August 2024 after thousands of mainly young protesters took to the streets demanding she step down. Two months later, Adani Power reduced electricity supply to Bangladesh because of unpaid bills, risking blackouts. The country accumulated billions of dollars in unpaid power bills at the time. Power supplies were returned to normal in March last year.

New Prime Minister Tarique Rahman, whose Bangladesh Nationalist Party won a sweeping victory in elections this month, has pledged to restore political and economic stability in the country.

Renegotiating the contract may complicate relations with India, which has taken steps to reset ties with Rahman's government. Relations came under strain during the interim government led by Nobel laureate Muhammad Yunus, who demanded India—which has sheltered Hasina since 2024—extradite her.

Rahman's government has said it favours a more balanced foreign policy that works for Bangladesh. The government wants to negotiate the agreement with Adani out of court, which would be an easier process for both parties, the official said. —BLOOMBERG

LTIMindtree inks \$100-mn deal with Europe firm

REUTERS
February 23

IT SERVICES COMPANY LTIMindtree on Monday said it has secured a \$100-million, seven-year deal with a Europe-based medical technology company that provides hearing solutions.

The information technology company did not reveal the name of the European company.

Under the agreement, LTIMindtree will develop and support the client's main hearing aid brands and private-label products, including core wearable devices, and a mobile app for users.

Earlier this month, LTIMindtree's board approved a proposal to rename the company LTM Limited, subject to shareholder and regulatory clearances.

In January, the IT firm said total order bookings for the quarter ended December 31 hit a record \$1.69 billion.

Urban Company's InstaHelp hits 50K daily bookings in a yr

FE BUREAU
Bengaluru, February 23

URBAN COMPANY ON Monday said its quick-service housekeeping vertical, InstaHelp, crossed 50,000 daily bookings on February 22, recording approximately 51,520 bookings. The milestone comes less than a year after the service's pilot launch in Mumbai in March 2023.

Urban Company's core consumer business in India took nearly six years to reach the 50,000 daily booking mark. However, the company clarified that the 50,000-plus figure represents a peak day, adding that long-term growth will hinge on sustained customer retention, consistent service quality, and the ability to scale the supply of professionals.

InstaHelp currently operates in select micro-markets across five metros — Mumbai, Bengaluru, Delhi-NCR, Hyder-

ABHIRAJ SINGH BHAL, CEO & CO-FOUNDER, URBAN COMPANY

This (bookings record) reflects strong consumer demand for reliable, on-demand house-keeping services

abad, and Pune — offering services such as home cleaning, dishwashing, laundry, and meal preparation. The platform promises to connect customers with service professionals within 10-15 minutes of booking.

Abhiraj Singh Bhal, CEO and

co-founder of Urban Company, said the milestone "reflects strong consumer demand for reliable, on-demand house-keeping services". He added that the company is investing in building a high-frequency category aimed at deepening platform engagement, with unit economics and repeat usage already showing early signs of improvement.

The InstaHelp vertical, positioned as Urban Company's play in the high-frequency, lower-ticket home services segment, appears to be the company's strategic response to the broader market shift toward on-demand services.

During the Q3FY26 earnings call, Bhal indicated that the vertical is expected to remain loss-making for the foreseeable future. "Latest by Q3FY28, the overall profits from the rest of the business should be sufficiently large enough to offset the losses in InstaHelp," he had said.

Telecom tariffs to rise 13-15% in FY27: HSBC

URVI MALVANIA
Mumbai, February 23

THE AVERAGE REVENUE per user (Arpu) for telecom operators could see a 13-15% lift in FY27, buoyed by headline tariff hikes later in the year, analysts said in a recent report by HSBC.

The report also said that though Vodafone Idea's recent AGR relief improves its financial runway, it doesn't materially alter the competitive dynamics. "We forecast a 15% mobile tariff hike in Q2FY27 for 4G/5G subscribers and expect mobile Arpu to expand by 13-15% year-on-year for the three operators in FY27," analysts at HSBC said.

The increase is expected to be supported by continued growth in data consumption and a steady migration of subscribers to higher-value plans, reinforcing the sector's focus on monetising rising usage rather than chasing aggressive subscriber additions.

The anticipated tariff move also signals continued pricing discipline among private operators, suggesting that the industry remains structurally aligned on improving returns after years of balance-sheet stress and heavy network investments.

For larger players such as Bharti Airtel and Reliance Jio, rising Arpu, expanding home broadband subscriber bases and improving free cash flow are expected to remain the core drivers of earnings growth over the medium term, the analysts added.

NEW GOVT PLANS TO SEEK LOWER POWER PRICES

Bangla govt may revise Adani deal

SWATI GUPTA
February 23

BANGLADESH PLANS TO renegotiate its power purchase deal with Adani Power in order to seek lower prices, according to people familiar with the matter, marking one of the newly elected government's first initiatives since taking office last week.

The cost of coal used by the power supplier is too high, as is the price of electricity being charged to Bangladesh, said one of the people, a senior government official. Reopening negotiations with the company is at the top of the agenda for the new government, the person said. The government hasn't yet raised the matter with the company, the person said.

DEAL DIARY

- Adani Power supplies electricity to Bangladesh from its 1,600 MW coal-fired plant in Jharkhand
- Power supply began in 2023
- In late 2024, Adani cut electricity exports due to unpaid bills
- Supplies were restored in March after payments improved
- Bangladesh imports 100% of the plant's output; the agreement runs for 25 years

Hasina was ousted in August 2024 after thousands of mainly young protesters took to the streets demanding she step down. Two months later, Adani Power reduced electricity supply to Bangladesh because of unpaid bills, risking blackouts. The country accumulated billions of dollars in unpaid power bills at the time. Power supplies were returned to normal in March last year.

New Prime Minister Tarique Rahman, whose Bangladesh Nationalist Party won a sweeping victory in elections this month, has pledged to restore political and economic stability in the country.

Renegotiating the contract may complicate relations with India, which has taken steps to reset ties with Rahman's government. Relations came under strain during the interim government led by Nobel laureate Muhammad Yunus, who demanded India—which has sheltered Hasina since 2024—extradite her.

Rahman's government has said it favours a more balanced foreign policy that works for Bangladesh. The government wants to negotiate the agreement with Adani out of court, which would be an easier process for both parties, the official said. —BLOOMBERG

LTIMindtree inks \$100-mn deal with Europe firm

REUTERS
February 23

IT SERVICES COMPANY LTIMindtree on Monday said it has secured a \$100-million, seven-year deal with a Europe-based medical technology company that provides hearing solutions.

The information technology company did not reveal the name of the European company.

Under the agreement, LTIMindtree will develop and support the client's main hearing aid brands and private-label products, including core wearable devices, and a mobile app for users.

Earlier this month, LTIMindtree's board approved a proposal to rename the company LTM Limited, subject to shareholder and regulatory clearances.

In January, the IT firm said total order bookings for the quarter ended December 31 hit a record \$1.69 billion.

Urban Company's InstaHelp hits 50K daily bookings in a yr

FE BUREAU
Bengaluru, February 23

URBAN COMPANY ON Monday said its quick-service housekeeping vertical, InstaHelp, crossed 50,000 daily bookings on February 22, recording approximately 51,520 bookings. The milestone comes less than a year after the service's pilot launch in Mumbai in March 2025.

Urban Company's core consumer business in India took nearly six years to reach the 50,000 daily booking mark. However, the company clarified that the 50,000-plus figure represents a peak day, adding that long-term growth will hinge on sustained customer retention, consistent service quality, and the ability to scale the supply of professionals.

InstaHelp currently operates in select micro-markets across five metros — Mumbai, Bengaluru, Delhi-NCR, Hyder-

ABHIRAJ SINGH BHAL, CEO & CO-FOUNDER, URBAN COMPANY
This (bookings record) reflects strong consumer demand for reliable, on-demand house-keeping services

co-founder of Urban Company, said the milestone "reflects strong consumer demand for reliable, on-demand house-keeping services". He added that the company is investing in building a high-frequency category aimed at deepening platform engagement, with unit economics and repeat usage already showing early signs of improvement.

The InstaHelp vertical, positioned as Urban Company's play in the high-frequency, lower-ticket home services segment, appears to be the company's strategic response to the broader market shift toward on-demand services.

During the Q3FY26 earnings call, Bhal indicated that the vertical is expected to remain loss-making for the foreseeable future. "Latest by Q3FY28, the overall profits from the rest of the business should be sufficiently large enough to offset the losses in InstaHelp," he had said.

Telecom tariffs to rise 13-15% in FY27: HSBC

URVI MALVANIA
Mumbai, February 23

THE AVERAGE REVENUE per user (Arpu) for telecom operators could see a 13-15% lift in FY27, buoyed by headline tariff hikes later in the year, analysts said in a recent report by HSBC.

The report also said that though Vodafone Idea's recent AGRelief improves its financial runway, it doesn't materially alter the competitive dynamics. "We forecast a 15% mobile tariff hike in Q2FY27 for 4G/5G subscribers and expect mobile Arpu to expand by 13-15% year-on-year for the three operators in FY27," analysts at HSBC said.

The increase is expected to be supported by continued growth in data consumption and a steady migration of subscribers to higher-value plans, reinforcing the sector's focus on monetising rising usage rather than chasing aggressive subscriber additions.

The anticipated tariff move also signals continued pricing discipline among private operators, suggesting that the industry remains structurally aligned on improving returns after years of balance-sheet stress and heavy network investments.

For larger players such as Bharti Airtel and Reliance Jio, rising Arpu, expanding home broadband subscriber bases and improving free cash flow are expected to remain the core drivers of earnings growth over the medium term, the analysts added.
