# Over 6 cr people trained under Skill India Mission: Jayant Chaudhary

New Delhi, July 16 (ANS) More than six crore people in the country have been trained under the Skill India Mission, said Jayant Chaudhary, Union Minister of State (IC) Ministry of Skill Development and Entrepreneurship (MSDE).  
Launched in 2015, the Skill India Mission has turned India's youth into a force of transformation, both at home and abroad, said the Minister.  
He described the 10-year journey as 'Kausalik Dasha', and 'pride of the nation' on the transformative impact of the Mission. He also outlined the government's roadmap for the future of skilling in India.  
Over the decade, through concerted efforts across skilling, apprenticeship, entrepreneurship, global mobility, and traditional trades, MSDE has

empowered more than 6 crore Indians to build a better future for themselves and the country," Chaudhary said.  
"Indian workers are known the world over for their hard work and discipline. The Prime Minister recognised this latent potential and gave it national direction through Skill India Mission. Today, it has become a powerful identity of New India," the MoS added.  
Over the past decade, schemes like the Pradhan Mantri Kausalik Vikas Yojana (PMKVY) have trained over 1.64 crore youth, while more than 14,500 Industrial Training Institutes (ITIs) have been supported through reforms in quality, governance, and affiliation norms.  
"India's youth are our greatest strength. As we march towards the goal of

Viksit Bharat by 2047, it is their skill, spirit, and innovation that will shape our collective destiny," he said, while emphasising the need to enhance employability through trust, verifiability, and industry participation.  
Marking the 10-year milestone of the Skill India Mission, the Minister also launched a week-long celebration.  
The week-long celebration will see programmes, workshops, and exhibitions across ITIs, skill centres, and industry participation in every state. The celebrations will culminate in the 'Bharat SkillNxt 2025' event on July 22 at Bharat Mandapam, New Delhi, during which major skilling initiatives will be launched, including a dedicated programme on AI skilling for school children.

## EV sales in India set to cross 7 pc market share by FY28: Report

Mumbai, July 16 (ANS) The electric car sales penetration in India is expected to rise rapidly and reach 7 per cent by FY28, subject to timely resolution of rare earth element (REE) disruption, backed by new model launches and government push for improving the charging infrastructure in the country, according to a new report on Wednesday, as US EV giant Tesla finally entered the Indian market. India's electric car ecosystem has witnessed significant momentum over the past three years, growing from just over 5,000 units in FY21 to more than 1.07 lakh units in FY25, representing a nearly 21 times increase, according to the CareEdge Advisory report. While electric four-wheelers still comprise a small share of total EV sales — dominated by two and three-wheelers — segments are now entering a high-growth trajectory supported by both public policy and private

sector commitment. The Indian government has announced to achieving 30 per cent EV penetration by FY30 and is taking an active role in enabling this transition. Initiatives such as FAME II, the Production Linked Incentive (PLI) Scheme for advanced chemistry cell (ACC) batteries, and basic customs duty exemptions on critical battery materials — including cobalt, lithium-ion waste, and graphite — are expected to lower vehicle production costs and improve do-

11.35 or 1.39 per cent. If the bank goes ahead with the expected discount, the Qualified Institutional Placement issue price could be slightly lower than this level. The Life Insurance Corporation of India is likely to be the biggest anchor investor in this  
CareEdge Advisory & Research, Charging Infrastructure, historically one of the most significant bottlenecks in India's electric vehicle (EV) adoption journey, is now witnessing unprecedented growth. The report said that over the past three years, the number of Public EV Charging Stations (EVPES) in India has grown nearly 5x, from 5,151 in FY21 to over 26,000 in FY25, translating into a robust CAGR of more than 72 per cent. The FAME II scheme includes dedicated outlays for expanding EV charging infrastructure, while states such as Maharashtra, Delhi, Tamil Nadu, and Gujarat have rolled out targeted EV infrastructure incentives — ranging from subsidies to support urban municipal programs mandating EV-ready parking slots in residential and commercial developments.
