PRESS RELEASE

AURO IMPEX & CHEMICALS LIMITED ACCELERATES EXPANSION WITH NEW 15,400 SQ. FT. MANUFACTURING AND STORAGE FACILITY IN SERAMPORE, HOOGHLY - WEST BENGAL

Auro Impex & Chemicals Limited is pleased to announce a major milestone in its operational expansion. The Company has executed a Leave and License Agreement with Success Commodeal Private Limited for a new state-of-the-art manufacturing and storage facility located in Serampore, Hooghly, West Bengal.

This strategic initiative is designed to strengthen Company's operational and manufacturing footprint. The new facility will provide vital additional space for manufacturing, warehousing, and storage, enabling the Company to better align its production capabilities and inventory management with growing customer demand. The property is strategically situated at Delhi Road, Serampore, Hooghly - West Bengal. This location provides superior logistical connectivity via the National Highway-2 (Delhi Road), ensuring seamless movement of raw materials and finished goods.

Following the official commencement of the agreement on July 1, 2026, the Company has assumed possession of the premises. Phase-wise integration of warehousing and manufacturing operations is currently underway. The facility is expected to become fully operational during the upcoming quarter of FY 2026-27, enabling near-term capacity enhancement and improved order fulfillment timelines.

Management Commentary

Commenting on the development, Mr. Madhusudan Goenka, Managing Director of Auro Impex & Chemicals Limited, said:

"The addition of this facility marks an important step in our expansion journey, strengthening our manufacturing and storage capabilities while providing greater operational flexibility to support our growing business requirements. This is expected to enhance operational efficiency and enable us to respond more effectively to evolving customer and market requirements."

About Auro Impex & Chemicals Limited

Auro Impex & Chemicals Limited is an ISO 9001:2015 certified Company that specializes in the manufacturing of Collecting Electrode, Discharge Electrode Plate steel structures and other internal components of an Electrostatic Precipitator (ESPs), along with Stainless Steel Pipes and Railway Trough Floors for Indian Railways. The addition of this facility is a significant step in our ongoing expansion and capacity-building initiatives. By securing additional space for manufacturing operations along with warehousing and storage, we are strengthening the infrastructure required to support our growing business and future operational requirements. The expansion is also expected to strengthen the Company's ability to take on larger orders, improve capacity utilisation, and enhance operational efficiency. Over the medium term, the management expects that strengthening our operational footprint at this stage will position the Company to pursue growth opportunities in a more efficient and structured manner. We remain focused on disciplined execution, operational efficiency and creating sustainable long-term value for our customers and shareholders.
