aurionPro**PRESS RELEASE**

Aurionpro

Banking Solutions

Consulting ☐ Software Development ☐ Outsourcing**VietinBank selects aurionPro's Loan Origination System to improve its credit processing activities.**

Hanoi, Vietnam – July 24, 2012.

aurionPro Solutions is proud to announce that VietinBank has chosen its SmartLender Loan Origination product suite, developed by aurionPro's wholly owned subsidiary, Integro Technologies, to help overcome current limitations in the approval and management of their credit processes. aurionPro was selected over competitors for this effort based on aurionPro's best-in-class functionality set as well as Integro's proven ability to ensure successful implementation and adoption of Loan Origination Systems (LOS).

VietinBank will be implementing several products offered in the SmartLender suite, including the Retail LOS, Corporate LOS, SME LOS, as well as the Collateral and Limits Management System (CLIMS) Document Management modules. Deployment of these products will create a solid foundation for all of VietinBank's credit activities, contributing to increased efficiency and quality of loan processing, as well as improving overall customer service operations. Other benefits of the solution are expected to include increased labor productivity, reduced credit processing costs, effectively managed operational and credit risk, and improved transparency and safety of Vietin's systems.

Commenting on Vietin's selection of SmartLender, Shekhar Mullatti, President of aurionPro's Asia-Pacific region, remarked, "We couldn't be more pleased that Vietin has selected aurionPro's industry-leading Loan Origination product suite to drive their credit processing operations. We are looking forward to a close partnership with VietinBank to deploy SmartLender and help them achieve their business objectives."
