Subject: Revised Investor Presentation (Errata)

Dear Sir,

This has a reference to our intimation letter dated August 06, 2026, wherein the Company has submitted Investor Presentation, inter-alia, to the Stock Exchanges, pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. In this connection, please find enclosed herewith revised Investor presentation, for the purpose of revision carried out due to typographical error in the following slide:

Slide No.	Particulars	Old Disclosure	New Disclosure
6	Profit and Loss Statement	Q1FY26 - Revenue from Gas ; INR 671.46 Mn	Q1FY26- Revenue from Gas ; INR 1,111.23 Mn

The Investor's Presentation will be available on the Company's website www.aegisvopak.com.

We apologize for any inconvenience this may have caused.

Kindly take the same on the record and inform all your constituents accordingly.

Thanking you.

Yours faithfully,
For AEGIS VOPAK TERMINALS LIMITED

Priyanka Vaidya
Company Secretary and Compliance Officer
M. No. A64156

Encl: as above

AEGIS VOPAK TERMINALS LIMITED

This presentation and the accompanying slides (the “**Presentation**”), which have been prepared by **Aegis Vopak Terminals Limited** (the “**Company**”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company’s ability to successfully implement its strategy, the Company’s future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company’s market preferences and its exposure to market risks, as well as other risks. The Company’s actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third party statements and projections

Overview

Aegis Vopak
Terminals Limited
("AVTL") Overview

Joint Venture
Strengths

AVTL
Operations
Overview

Overview of Business
Segments

Company Overview

- Largest Indian third-party liquid and gas storage tank terminal owner and operator¹
- Offers secure storage and associated infrastructure for products including petroleum, chemicals, lubricants, vegetable oil and LPG (propane and butane)
- Operates in 2 segments: Liquid and Gas
- New Project Announcements during Q1FY27
 - Upcoming 51,998 MT capacity of refrigerated double steel LPG storage tank in JNPA
 - Upcoming 49,577 cbm capacity of liquid storage tank in Kochi
- AVTL is a Joint Venture between:
 - **Aegis Logistics**: Listed Indian conglomerate providing sourcing, storage, distribution & third-party logistics services in oil, gas, and chemicals¹
 - **Royal Vopak**: Listed company headquartered in the Netherlands and is among the world’s leading tank storage companies with 400+ years of experience¹

Products and Infrastructure

- AVTL can store and handle 30+ chemicals of various categories and classes; 10+ products in edible and non-edible oil category; and LPG
 - Tanks have a designed life of ~40 years
- Connectivity infrastructure:
 - Tanks are connected via pipelines to jetty, ship loading and unloading infrastructure
 - Multimodal evacuation infrastructure through road, rail and pipeline

AVTL Shareholders

Year of Exp. ¹	50+	400+
MSCI ESG Rating	AA	AAA

AVTL’s Geographical Footprint Across Major Ports in India

Notes: (1) Source: CRISIL Report

India's leading integrated oil, gas & chemical logistics company and importers of LPG amongst private players

Vopak is the world's leading independent tank storage company, storing oil, chemicals, gases, biofuels and edible oils

Benefits from co-branding terminals in India

Global technical expertise for handling of oil, gas, chemicals and new products

Services **customers across various categories**, including OMCs, MNCs, specialty chemical companies and traders

Potential **diversification** into storage of **new gases and renewables**

Leverage **industry leading best practices** of promoters for ESG and health / safety standards

Proven **project execution capability**

Snapshot of Business Segments

Fundamental Value Drivers

Notes: (1) For Liquids and LPG; (2) Source: CRISIL Report

India's Largest Third-Party Owner and Operator of Tank Storage Terminals

Overview

- India's largest third-party owner and operator of tank storage terminals for LPG and liquid products in terms of storage capacity
- Strategically Located Necklace of Terminals across the coastline of India

Track Record of Consistently Expanding Capabilities (1/2)

Liquid Capacity Expansion

Notes: (1) Source: CRISIL Report

LPG Static Capacity Ramp-up

Among multi-location third party players in LPG port terminalling business, AVTL has one of the highest 'design throughput turns' of ~84.75x¹ (as of December 31, 2024)

Expansion at Mangalore intended to augment market share in India's static storage capacity to address the growing demand for LPG¹

Expansion in Pipavav to benefit from the operations of Rail Gantry at the port¹

Availability of connectivity of our LPG storage facilities to Jamnagar-Loni Pipeline & Kandla-Gorakhpur Pipeline, as well as Pipavav terminal existing connectivity through rail

Notes: (1) As per CRISIL Report

This acquisition enhances AVTL’s national LPG infrastructure footprint and positions it for long-term growth in India’s expanding energy logistics sector

Transaction Snapshot

- AVTL acquired 75% stake in Hindustan Aegis LPG Ltd (HALPG) from Aegis Gas (LPG) Pvt. Ltd. & Vopak India B.V.
- Board approved on: 29 Oct 2025 (subject to shareholder approval) and Share Purchase Agreement entered on 02nd January, 2026
- HALPG is now a subsidiary of AVTL

Connectivity to Multiple Gas Evacuation Modes

■ AVTL Pipavav Terminal

- One of the five port-based LPG terminal in India with rail siding capabilities
- Terminal is connected to Western DFC at Mehsana and Ahmedabad
- Further connects to the existing routes of northern and central railways

■ AVTL Kandla Terminal

- Terminal is connected to Western DFC which further connects to existing routes
- Used for dispatching vegetable oils

■ Other AVTL Facilities

- JNPA will be connected to northern hinterland via Western DFC with its full commissioning.

• Kandla - Gorakhpur Pipeline¹

- Three leading Indian OMCs are constructing world's longest LPG pipeline - 2,805 km long
- Pipeline will be capable to transport 25%+ of India's total LPG demand (8.25 MMTA)
- Sources LPG from Kandla, Pipavav and Dahej terminals
- Traverses Gujarat, Madhya Pradesh & Uttar Pradesh; to connect 40+ LPG bottling plants

• Jamnagar - Loni Pipeline

- 1,427-km-long pipeline operated by GAIL (India) Limited; starts in Gujarat and ends in Uttar Pradesh, passing through Rajasthan, Haryana and Delhi
- Capacity of 3.3 MMTA; sources LPG from Jamnagar, Vadinar & Kandla

• Mangaluru - Hassan - Cherlapally Pipeline

- Originates from Mangaluru and terminates at Mysuru; passes through multiple districts
- Feeds LPG to Bottling Plants at Mysuru and Yedyur
- Hassan - Cherlapally: Capacity augmentation of existing pipeline which feeds into bottling plants at Anantpur and Cherlapally

• Uran - Chakan Pipeline

- Operates from Raigad to Chakan and passes through Raigad and Pune districts
- Feeds into bottling plants at Chakan (HPCL & IOCL) & Shikrapur (BPCL)

Successfully Built Relationships with Diversified Customer Base

Strategic Positioning in the LPG Ecosystem of Aegis Logistics

Multiple Benefits of Vopak Parentage to AVTL

Robust Growth in Bulk Chemicals Trade

India Bulk Chemicals Trade (MMT)

Growth to be Driven by Demand from Multiple End-Industries

Favorable Government Initiatives

- Initiatives such as ‘Make in India’ to benefit end-use industries
- Petroleum, Chemical & Petrochemical Investment regions (PCPIRs) for large scale projects through PPPs
- Technology Upgradation Fund (TUF) to aid new technology in chemicals
- 100% FDI under automatic route for foreign investors in chemicals space

Overall Liquid Bulk Trade Mix Across India

Key Clusters	AVTL Presence	Cluster Demand as a % of Overall Demand
Gujarat	Kandla Port, Pipavav Port	39%
Mumbai	JNPA	17%
East	Haldia Port	12%
South-East ¹	-	14%
Others	Kochi Port, Mangalore Port	18%
Total		100 %

Source: CRISIL Report; (1) Includes multiple ports such as Chennai, Tuticorin, Vizag, etc.

Attractive Market Opportunity - LPG

Rise in Domestic LPG Consumption...

Domestic LPG Consumption (in mn MT)

...will be met by imports, given relatively static domestic LPG production1...

Domestic LPG Production (in mn MT)

LPG Imports (in mn MT)

India is expected to witness strong industrial LPG demand; similar to China story

Current Level of India – 29.7 MT

Key Growth Drivers for LPG

i Lower Carbon Emission and a Cleaner Fuel

KG CO₂ / mn metric BTU

ii Key Advantages

- **Ease of storage and transportation:** Can be stored and transported in liquid form at moderate temperatures through cylinders
- **Low Maintenance:** Appliances using LPG require less maintenance & sophistication rendering LPG as more cost effective
- **Stable Prices:** LPG is more reliable as its prices are less volatile than gas and crude oil derivatives

iii Government Support to Promote Domestic LPG Adoption

- Launched in 2016, PMUY sought to provide free LPG connections to below poverty line ("BPL") households, especially women
- From Oct-23, govt. continued targeted subsidy of INR 300 (\$3.6) per 14.2 kg cylinder for 12 refills per annum
- Select state governments also provide subsidy to non-PMUY consumers
 - Maharashtra government is providing three cylinders free per annum

Attractive Market Opportunity - Ammonia

Imports of ammonia will help meet the increasing demand-supply deficit...

Supply Demand Imports

...Which is attributed to fertilizer plants¹...

...Secularly spread across Indian Peninsula¹

DAP fertilizer plants near ports are major consumption hubs for ammonia imports²

Growth Strategy

Strategically Expand our Network of Terminals at Existing Locations

- ✓ By expanding its capacities, AVTL aims to increase the market share, positioning it for sustained growth
- ✓ Leverage economies of scale and synergies with current operations with the ability to manage newer products

Enter New Locations

- ✓ Evaluating opportunities to enter into emerging ports across India
- ✓ New ports would be prominent in managing flows of liquids, gases and energy transition products like ammonia, hydrogen, etc.

Establish Industrial Terminals

- ✓ Build storage infrastructure which is connected to multiple production units in a manufacturing cluster
- ✓ Leverage Vopak's global experience to build and operate such Industrial Terminals

Invest in Capabilities to Address Alternative Energies

- ✓ Build capacities for feedstock and ammonia terminals
- ✓ Repurposing existing terminals and building new infrastructure for new products
- ✓ Promoters have a track record of successfully building and operating global infrastructure for cleaner fuels

Inorganic Growth Opportunities

- ✓ Will evaluate acquisition opportunities which offers expansion potential at existing locations and entry into newer locations
- ✓ Intend to leverage the experience of our past acquisitions to execute our strategic objectives
