Auto parts sector all set for EV shift

SURAJEET DAS GUPTA
New Delhi, 26 May

India's auto component industry is all set to hitch its wagon to the electric vehicle (EV) revolution. According to a recent survey by the Automotive Component Manufacturers Association of India (ACMA), 60 per cent of its 800 members say that they are ready to supply to EVs, while the rest say that they will be prepared to do so later this year, or latest by 2023.

Says ACMA president, Sunjay Kapur, "The investment cycle by auto component companies to prepare themselves for EVs has already begun, and is on track. From the supply side, the EV revolution will give component makers a brand new market segment to operate in. They can supply different kinds of components like telematics, batteries, and cater to the requirements of a new ecosystem which is being created."

He points out that despite the difference in the drive train and the fact that EVs are powered by a battery, many other components like seats, steering systems, brakes, mirrors (might have more electronics) are the same in EVs as they are in internal combustion engine (ICE) vehicles.

Giving his assessment of the kind of investments auto components will need to make to supply to EVs, Kapur says that the 75 companies eligible for the auto components production-linked incentive (PLI) scheme, have to invest ₹250 crore each in five years to get the incentive.

"This means that together, they have to make a minimum investment of ₹18,600 crore in five years to build future technologies in the automobile industry."

He adds that though the bulk of the money will be used for EVs, some will go towards building technology which is currently imported.

Kapur also points out that to justify the volume, exports must be given a priority. "To justify the volume we have to look at the global market as the Indian piece is still small, especially in passenger cars. But just like global trends, we will also grow and we are heading that way," he says.

The auto component industry has zeroed in on certain areas where India can become a global hub for the manufacturing of EV components, says Kapur. These include electric motors, steering, drive trains, amongst others. The good news is that there are a lot of opportunities now as both the US and Europe are open for the Indian manufacturing industry.

A key problem, though, is electronics, says Kapur. "I think the choke point is electronics and that is something that we are going to have to invest in heavily." He also points out that one way would be to forge alliances between the automotive industry and the electronic industry to see how the former can localise and reduce its dependence on imports.

For that to happen, companies have to invest in technology and research and development (R&D). However, the average R&D spends by auto component companies in India is a mere 0.5 per cent of their total spends, whereas to ensure localisation and become global players, it should be over 3 per cent, says Kapur.

HOPES & CONCERNS

- 800 auto component companies say they are ready to supply products for electric vehicles by 2023
- 75 companies eligible for PLI in auto components would collectively have to invest ₹18,600 crore in 5 years
- High volumes of production will lead companies to look at exports, as domestic market is still small
- Makers zeroed in on certain products where India can become a global hub
- India, though, is weak in electronics for EVs . R&D in this space also remains lacklustre

'One-sidedness' a worry: Adani at WEF

VINAY UMARJI
Ahmedabad, 26 May

Adani Group Chairman Gautam Adani on Thursday raised concerns over the one-sided attendance at The World Economic Forum's (WEF's) annual meet at Davos, Switzerland, this year.

Highlighting the "sparse" attendance from China, Japan, and South Korea this year at Davos, Adani said this "one-sidedness" was a "cause for concern". The billionaire said countries were growing close-minded and withdrawing behind their borders.

"The response to the pandemic, around the world, has been a strange mix of ingenuity and global cooperation on the one hand and blatant selfishness on the other," he said, while talking about paradoxes such as the contrast in speed of vaccine development via cross-border collaborations and the "deep mistrust, suspicion, prejudice, and greed" in its rollout, availability and pricing.

> THE RESPONSE TO THE PANDEMIC HAS BEEN A STRANGE MIX OF INGENUITY AND GLOBAL COOPERATION ON THE ONE HAND AND BLATANT SELFISHNESS ON THE OTHER
>
> GAUTAM ADANI
> CHAIRMAN, ADANI GROUP

Adani further argued that the same response was now evident in the turmoil over energy, as developed nations that set climate change targets for the rest of the world were now "less censorious" amid their own energy security being threatened.

"Very few are willing to admit that there had been an overswing on the side of green solutions and technologies that were still in their nascent stage and that this fragility has been totally exposed by the crisis in Ukraine," he said.

Adani rued the fact that more than climate change, several of the delegates that he met at Davos ended up discussing defence, triggered by the Russia-Ukraine war.

Terming the current state cooperation among nations a "façade", Adani said a combination of the pandemic, the war in Ukraine, and the effort to limit climate change has exposed the limits of global cooperation.

Adani said in response to global conditions India needs to be more self-reliant across sectors, be it vaccinations, defence, or semiconductors.

However, he also warned of "push-backs" in India's efforts to be self-reliant such as attempts to stop India building semiconductor plants.

"Many will dissuade us from investing a larger portion of our GDP in defence. Our principles will come under criticism. What we must keep in mind is that many of those who set targets for emission reductions for India are also those that shy away from acknowledging the disproportionate responsibility borne by a small number of developed countries for the climate crisis. In other words, it is far easier to talk than to walk the talk," he added.

Talking about India's "very large" presence at the WEF, Adani said this showed India was no longer shy of asserting itself in the global arena.

तेलाचा अधिकाधिक पुनर्वापर टाळा

आरोग्यवार्ता

नवी दिल्ली : स्वयंपाकघरात आधीच वापरलेल्या तेलात पुन्हा-पुन्हा पदार्थ तळणे अगदी सामान्य बाब असली, तरी ती आरोग्यासाठी घातक बनून शरीरातील जळजळीचे प्रमुख कारण ठरू शकते.

भारतीय अन्न सुरक्षा आणि मानक प्राधिकरणच्या (एफएसएसएआय) मते, स्वयंपाकाचे तेल पुन्हा-पुन्हा गरम केल्याने त्यात विषारी घटक तयार होतात. असे पदार्थ खाल्ल्यामुळे जळजळ आणि विविध प्रकारचे आजार होतात. 'एफएसएसएआय'च्या मार्गदर्शक तत्त्वांनुसार, तेलाचा आवश्यकतेनुसार एकदाच किंवा कमीत कमी वेळा वापर व्हायला हवा. तीन वेळांहून अधिक काळ तेल गरम केल्यास त्याचे दुष्परिणाम जाणवू शकतात.

तज्ज्ञांच्या मतानुसार वारंवार तेल गरम केल्याने तेलात रासायनिक बदल होतात. ते

विषाप्रमाणे कार्य करू लागते. त्यामुळे अशा तेलात तळलेले पदार्थ खाल्ल्यामुळे तणाव, उच्च रक्तदाब या आरोग्य समस्या उद्भवू शकतात.

अशा तेलातील पदार्थ सेवन केल्यामुळे पोटात जळजळ, घशाच्या समस्या आणि इतर आरोग्य समस्यांचा धोका वाढू शकतो. त्यामुळे जर एखाद्या व्यक्तीला नेहमीपेक्षा जास्त आम्लपित्ताचा त्रास जाणवत असेल तर त्यांनी रस्त्याच्या बाजूला हातगाडीवरील तयार केलेले तळलेले पदार्थ खाणे टाळावेत.

जेव्हा तेलाचा पुन्हा-पुन्हा वापर केला जातो तेव्हा त्यात घातक आम्ल तयार होते. त्यामुळे त्या तेलातील पदार्थांमुळे हृदय व रक्तवाहिन्यासंबंधी रोगाचा धोका वाढतो. तसेच असे पदार्थ कर्करोगाला आमंत्रण देणारेही ठरतात.

माणूस निर्भय होणार नसेल, तर साहित्याचे प्रयोजन काय?

अशोक वाजपेयी यांचा सवाल

लोकसत्ता प्रतिनिधी

पुणे : माणसाला विचारप्रवण आणि निर्भय बनविणे हेच साहित्याचे उद्दिष्ट असले पाहिजे. माणूस निर्भय होणार नसेल तर साहित्यनिर्मितीचे प्रयोजनच काय? असा सवाल ज्येष्ठ हिंदी साहित्यिक अशोक वाजपेयी यांनी गुरुवारी उपस्थित केला. प्रस्थापित व्यवस्थेला प्रश्न विचारणे हेच साहित्यकाराचे काम असते, असेही ते म्हणाले.

"आपला सार्वजनिक संवाद अभद्र झाला आहे. दूरचित्रवाणी वाहिन्यांवरील राजकीय कार्यक्रम पाहिल्यानंतर आपण भाषेचा सौम्यपणा आणि ऋजुता हरवून बसलो आहोत, याची प्रचीती येते. प्रस्थापितांविरोधातील आपण ही लढाई जिंकू शकणार नाही. अशा विफल लढाईचे साहित्यकार हेच वाहक असतात. विफल माणसेच इतिहास घडवतात.
– अशोक वाजपेयी

भाषा वाचविण्याची जबाबदारी...

आज साऱ्या भारतीय भाषा संकटात आहेत. भाषा टिकविणारा मध्यमवर्ग मातृभाषेचा विश्वासघात करून आपल्या मुलांसाठी इंग्रजी माध्यमामध्ये प्रवेशाचा आग्रह धरत आहे. त्यामुळे मातृभाषेचे पुनर्वसन करण्याची जबाबदारी आता साहित्यावर आहे, असेही वाजपेयी म्हणाले.

महाराष्ट्र साहित्य परिषदेच्या ११६ व्या वर्धापनदिनानिमित्त आयोजित कार्यक्रमात वाजपेयी यांच्या हस्ते वार्षिक ग्रंथ आणि ग्रंथकार पुरस्कार प्रदान करण्यात आले. त्या प्रसंगी वाजपेयी बोलत होते. वाजपेयी म्हणाले, माणसाला विचारप्रवण करण्याची क्षमता साहित्यामध्ये असते. पण, सध्या विचार करण्याची प्रक्रिया आम्ही दुसऱ्यांवर सोपविली आहे. रथ या सुंदर शब्दाला राम हा शब्द जोडून आम्ही राजकारण सुरू केले. स्वातंत्र्य संग्रामातील गांधीजींचे योगदान विसरले तरी चालेल. पण, मुघलांनी किती मंदिरे तोडली हे लक्षात ठेवा. विस्मृती वाढविण्याचे अभियान राबविले जात आहे. प्रश्नवाचकता हा साहित्याचा गुणधर्म असतो. महाभारत हे महाकाव्य धर्मयुद्धावर प्रश्न उपस्थित करते. या परंपरेचे पाईक असलेल्या साहित्यकाराने प्रस्थापित व्यावस्थेविरुद्ध प्रश्न उपस्थित केले पाहिजेत.
