Adani Power Ltd.(APL) synchronizes fourth 330 MW unit at Mundra

Adani Power Limited. (APL), a power business arm of Adani Group today announced the successful synchronization of its fourth unit of 330 megawatt (MW) at Mundra in Kutch district of Gujarat. With synchronization of this unit Adani Power completes commissioning of all 330 MW units at Mundra and has achieved total generation capacity of 1320 MW of coal fired thermal power generation. Gautam Adani, Chairman Adani Group said "I am pleased with the progress made by our project implementation and commissioning team, we are expecting that the first 660 MW super critical unit too will be in operation in next couple of months and the subsequent units in rapid succession"

APL is setting up 4620 MW coal fired power plant at Mundra, consisting of four units of 330 MW and five units of 660 MW, the 660MW units are based on energy efficient and environment friendly super critical technology. The financial closure of the entire 4620 MW project at Mundra has already been achieved.

The company has made arrangements for evacuating power from the Mundra power station by laying 400 kV Mundra to Dehgam transmission line in Gujarat covering 430 KM length and ± 500 kV HVDC line from Mundra to Mohindergarh covering 1000 KM length.

About Adani Group

Adani Group is one of the fastest growing business houses in India. The group is now focusing on Infrastructure Sector and targets to achieve 20,000 MW of Power Generation, 200 MMTPA of cargo capacity in Ports and 200 MMTPA of Coal Mining by year 2020.

About Adani Power Ltd.

Adani's initiatives into power sector are spearheaded by Adani Power Ltd. It is implementing power projects for generating 16500 MW of power at Mundra (4620), Bhadreshwar (3300) and Dahej (2640), Tiroda (3300), Kawai (1320) and Chindwara (1320). The company aims at owning and operating 20,000 MW generation capacity by 2020. In addition to generation we are also actively investing in cross country power transmission lines for evacuating power from our generation facilities. Adani Power has entered into long term power purchase agreements with various state electricity utilities for supplying 7144 MW of power, Gujarat (2000 MW), Harayana (1424), Maharashtra (2520) and Rajasthan (1200).
