

15 February 2012

Alstom T&D India Limited announces Q4, 2011 results

Alstom T&D India Ltd (formerly AREVA T&D India Ltd) announced its financial results on February 12, 2012 for the fourth quarter and twelve months to December 31, 2011. The Company has changed its financial year, and accordingly, the current financial year/period would be for a period beginning January 1, 2011 to March 31, 2012.

For Q4, 2011:

- Sales Revenue: 6,789 MINR
- Profit After Tax (PAT): 302 MINR
- Order Backlog: 43,356 MINR

Twelve Months results

- Sales Revenue: 31,163 MINR
- Profit After Tax (PAT): 1,171 MINR

Despite tough competition, the Company has achieved sales revenue of 31,163 MINR for twelve months of 2011 and Profit after Tax of 1,171 MINR for twelve months ending on December 31, 2011.

In Q4, 2011 the Company achieved yet another milestone by successfully delivering the National Load Dispatch Centre for Bhutan Power Corporation, which manages the entire electricity network of Bhutan. With this, Alstom establishes undisputed leadership in the Energy Management System in the SAARC region having delivered similar systems to Bangladesh (manages 100% of Bangladesh's Grid Power Flow) and India (manages 70% of India's Grid Power flow).

Mr. Rathin Basu, Managing Director of Alstom T&D India Ltd said, *"The market continues to be extremely tough due to postponement of investments as well as huge SEB losses, preventing investments in the Power Sector. Despite adverse market conditions, we have posted 11.8 % increase in Order Intake and 13% increase in Order Backlog (all time high) over annual 2010. Success came mostly through selected Utilities, including Power Grid, small and medium size orders across Industry and Infrastructure segments of the market."*

About Alstom

Alstom is a global leader in the world of power generation, power transmission and rail infrastructure and sets the benchmark for innovative and environmentally friendly technologies. Alstom builds the fastest train and the highest capacity automated metro in the world. It provides turnkey integrated power plant solutions and associated services for a wide variety of energy sources, including hydro, nuclear, gas, coal and wind, and it offers a wide range of solutions for power transmission, with a focus on smart grids. The Group employs 92,700 people in 100 countries and had sales of €20.9 billion in 2010/11.

Alstom Grid has over 100 years of expertise in electrical grids. Whether for utilities or electro-intensive industries or facilitating the trading of energy, Alstom Grid brings power to its customers' projects. Alstom Grid ranks among the top 3 in electrical transmission sector with an annual sales turnover of more than €4 billion. It has 20,000 employees and over 90 manufacturing and engineering sites worldwide. At the heart of the development of Smart Grid, Alstom Grid offers products, services and integrated energy management solutions across the full energy value chain—from power generation, through transmission and distribution grids and to the large end user.
