Symbol : BALAMINES

Dear Sir/ Madam,

Subject:- Intimation Under Regulation 30 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

This is to inform you that the ongoing war in the Middle East region has significantly disrupted global shipping lines, logistics networks and supply chains. Certain key suppliers of raw materials have invoked the Force Majeure clause.

The disruption has adversely affected the supply of Liquefied Natural Gas (LNG)—a key input used for the production of Ammonia by most fertiliser manufacturers in India. Consequently, several Ammonia manufacturers have expressed their inability to supply the product during this period due to Force Majeure conditions.

As a consequence, Balaji Amines Limited is currently experiencing significant logistics disruptions in the procurement of Ammonia, which is one of the key raw materials used in the manufacture of Methylamines, Ethylamines and their derivatives. The situation has arisen due to the non-availability of Ammonia. Owing to this, some of the plants of the Company are presently non-operational. At present, the financial and operational impact of the shortage of this key raw material cannot be estimated at this point of time.

The Company is closely monitoring the developments and is in continuous discussions with its key suppliers to explore possible alternatives for securing the supply of Ammonia. The Company shall keep the Stock Exchanges informed of any further material developments in this regard.

You are requested to take note of the above.

Thanking you.

Yours Faithfully,

For Balaji Amines Limited

Abhijeet Kothadiya
Company Secretary & Compliance Officer
