04 Corporate Snapshot

17 Financial Highlights

23 Strategic Roadmap

Bridging the Supply Gap in Frontier Markets

Successful Produce, Stock, Sell Business Model

Markets	Established operations: Guatemala (Latin America), Dominican Republic (Caribbean) and Angola (Africa) New operations: Honduras, El Salvador, and Nicaragua	Expansion initiated: Ecuador, Chile (Latin America)
Products	Vast range of essential OTC medicines – with healthy mix of generics and branded generics	929 product registrations in Seven countries 300+ registrations submitted or in the pipeline
Supply Chain	Outsourced production from WHO GMP certified plants in India, China and Portugal	Established the Company's first pharmaceutical formulation facility in Hyderabad
Distribution	Deep presence through 38 warehouses and on-ground fleet support	Successful process being replicated in other frontier markets; expansion plans in other global markets over near to medium term
Transformation	New initiatives strengthening functionality in supply chain, regulatory affairs and customer service	Centralized digital procurement, regulatory management and customized CRM tools

Key Success Factors

Market Selection Methodology

- Focus on countries with high-potential economic growth framework
- Identify non-English speaking countries with similar characteristics
- Low competitive intensity and potential to establish top-2 position
- On-ground feedback mechanism allows deep understanding of demand dynamics
- As population crosses prosperity thresholds, healthcare spends expand exponentially

Human Capital Management

- Established unique ecosystem of 100+ Indian expatriates in operating geographies
- Financial security ecosystem for key personnel, creating a highly motivated leadership team
- Local language training and support from local staff improves on-ground effectiveness
- Home grown management systems have already proven successful in several countries
- Homogeneous target markets allow cross-movement of people and resources

Regulatory Affairs Systems

- Appreciation and full compliance of local regulatory framework
- Comprehensive, in-house capabilities backed by cross-functional coordination with business/tech teams
- Digitization of regulatory operations with end-to-end management and data security
- Typical 12-24 months regulatory process is monitored at every stage – supports corporate planning and creates strong local IP

Transition from “Asset Light” to “Asset Right”

As a part of its corporate evolution, Balaxi has moved its business model from ‘Asset Light’ to ‘Asset Right’. The company has set up its first pharmaceutical manufacturing facility in a Pharma SEZ located at Jadcherla, Hyderabad.

Investment in Manufacturing Facilities

Company's first pharmaceutical formulation manufacturing unit

General Oral Solid Dosage (OSD) formulations

Targeting demand for high quality products in Latin American markets

Allows full backward integration of supply chain

Plant Qualification and Validation is now complete

Historically, Balaxi has successfully executed on its “produce, stock and sell” model. The company has built a large and diversified portfolio of products and a leading position by bridging the supply gap in several countries, first in low-regulation markets in Africa and more recently in semi-regulated markets in Latin America. This outreach has been backed by outsourced, WHO GMP compliant, diversified supply chains developed by the company. As a part of its corporate evolution, Balaxi has now set up its first pharmaceutical formulation manufacturing unit to cater to the demand for high quality products in existing as well as targeted markets.

Favorable ROI on Capital Expenditure

Immediate demand for new production from established markets

Higher efficacy, greater acceptance, enhanced profit margins

Strong control over manufacturing ecosystem

Improved regulatory processes, reduced time-to-market for new launches

Opens up several new market opportunities globally

The Commissioning of Company's first pharmaceutical formulation plant, located at a Pharma SEZ near Hyderabad, is now complete, focusing on General Oral Solid Dosage (OSD) formulations markets in Latin America and Africa. This will drive backward integration of the supply chain to these countries, currently outsourced through contract manufacturing relationships. This facility will produce higher efficacy products that enjoy greater acceptance and enhanced profit margins. From the operations standpoint, Balaxi is establishing a manufacturing ecosystem that affords better control, improves regulatory processes and reduces time to market for new product launches. Over the medium term, Balaxi sees several new market opportunities opening up for its product lines.

Glimpse of Company's first Formulation Facility:

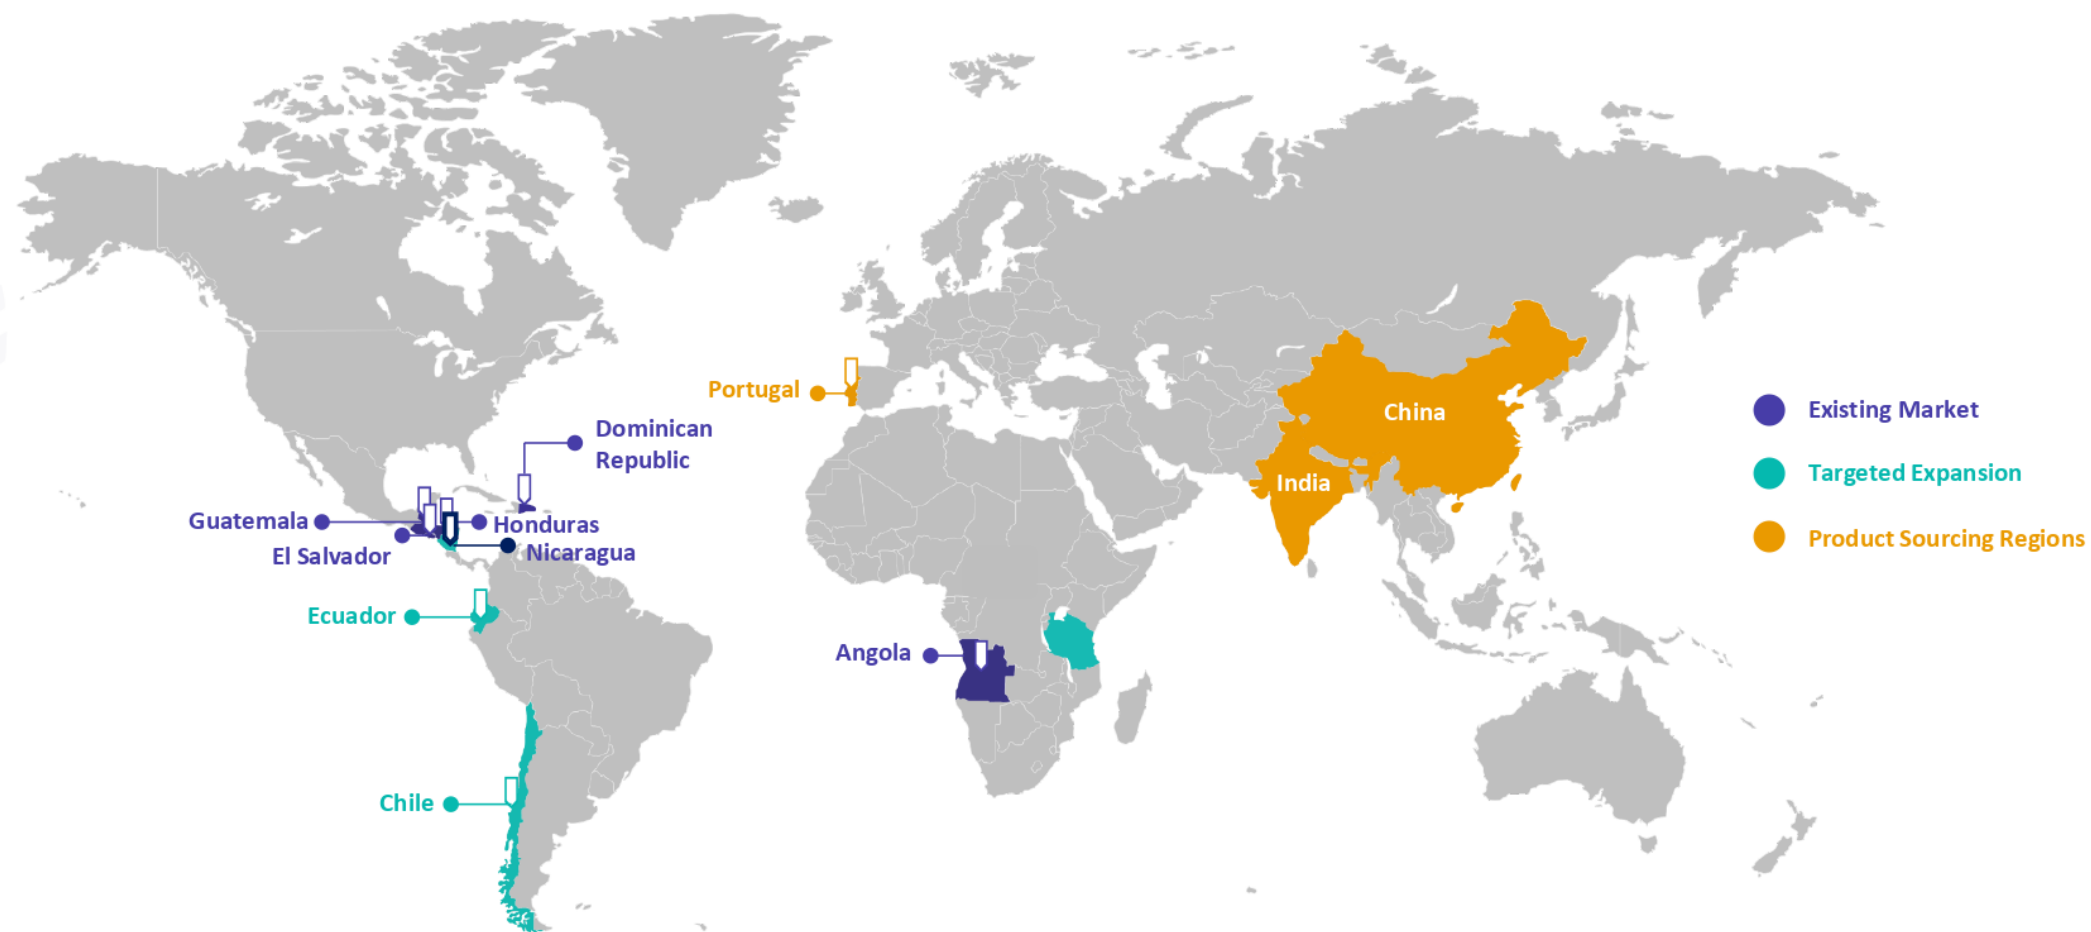

Glimpse of Company's first Formulation Facility:

Glimpse of Company's first Formulation Facility:

Global Footprint

Existing/targeted markets have aggregate GDP of \$ 400 billion and pharma imports of \$ 6 billion

Key Milestones

Started business supplying white labelled products to customers in Africa

Products were sourced from WHO GMP certified plants based in India

2003-07

2008-10

2011-13

2014-16

Clear understanding of the company's businesses spread across four continents and seven countries

Paridhi Maheshwari

Head – Alternate Channels

MBA Graduate from London Business School.
Stickler for well-defined systems and processes
Initiated and leads the consumer products business

“

FINANCIAL HIGHLIGHTS

Management's Comments – Q1 FY26 Performance

“Q1 FY26, a quarter marked by steady growth, ongoing investments in strategic initiatives, and continued execution on our long-term roadmap. The Company recorded revenue of ₹70.74 crore in Q1 FY26, reflecting a growth of 8% YoY, supported by stable demand and operational execution across markets. Gross profit margin remained healthy at 44%, underscoring the strength of our branded generic business. However, the bottom line declined sharply to ₹29 lakhs (vs ₹6.48 crore in Q1 FY25), primarily due to increased in operational cost – driven by one-time write-offs under administrative expenses, and the recently subsidiarized Nicaragua business which is yet to reach break-even.

Our first pharma formulation facility in Telangana has made substantial progress. Installation Qualification (IQ), Operational Qualification (OQ), and Performance Qualification (PQ) of all the plant and Machinery are now complete. Water Validation and Vendor Qualification processes are currently underway and expected to be concluded by end of August 2025. We have also obtained manufacturing test license, and the production of stability batches is expected to commence in early September. This facility will significantly strengthen our integrated business model and enable access to ROW market, driving long-term growth and margin enhancement.

During the quarter, we secured 14 new product registrations, taking the total to 929. This consistent regulatory progress supports our strategy of expanding therapeutic offerings and deepening our presence in key geographies.

We remain committed to building long-term value through our core strategic levers: deepening our presence in existing markets, expanding our geographic footprint, driving product portfolio diversification, enhancing distribution capabilities, and operational integration through our in-house manufacturing. These initiatives position us well for sustainable growth in the coming years.

We sincerely thank our shareholders for their continued trust and support in Balaxi's vision.”

Quarterly Financial Performance - Consolidated

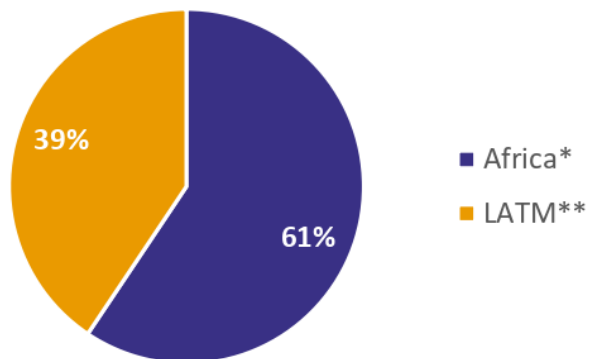

Particulars <i>(INR Crore)</i>	Q1 FY26	Q1 FY25	YoY
Revenue	70.74	65.62	7.8%
Gross Profit	31.18	27.48	13.5%

PAT Margin %	8.6%	-	-
Earnings Per Share (INR)	4.54	(0.46)	-

*NOTE: During the 1st quarter of the FY 24, the Angolan currency Kwanza underwent an unprecedented sharp depreciation, falling from 511.50 AOA/USD to 832.5 AOA/USD. Since the creditors in the books of Balaxi Angola are contracted in and due for settlement in USD, this has resulted in a loss on revaluation of 3.65bn AOA (INR 38.29 cr.) The corresponding INR amount has been shown as an exceptional item in the profit and loss statement of FY24 – resulted in negative profit of INR 2.39 Cr. In the previous financial year (FY24)

Core Strategy: Enter, Expand & Excel

Balaxi in 2020: Business Consolidation

- Presence across Angola, Guatemala and Dominican Republic
- Effective and efficient supply chain model consisting of 38 warehouses and a fleet of owned vehicles

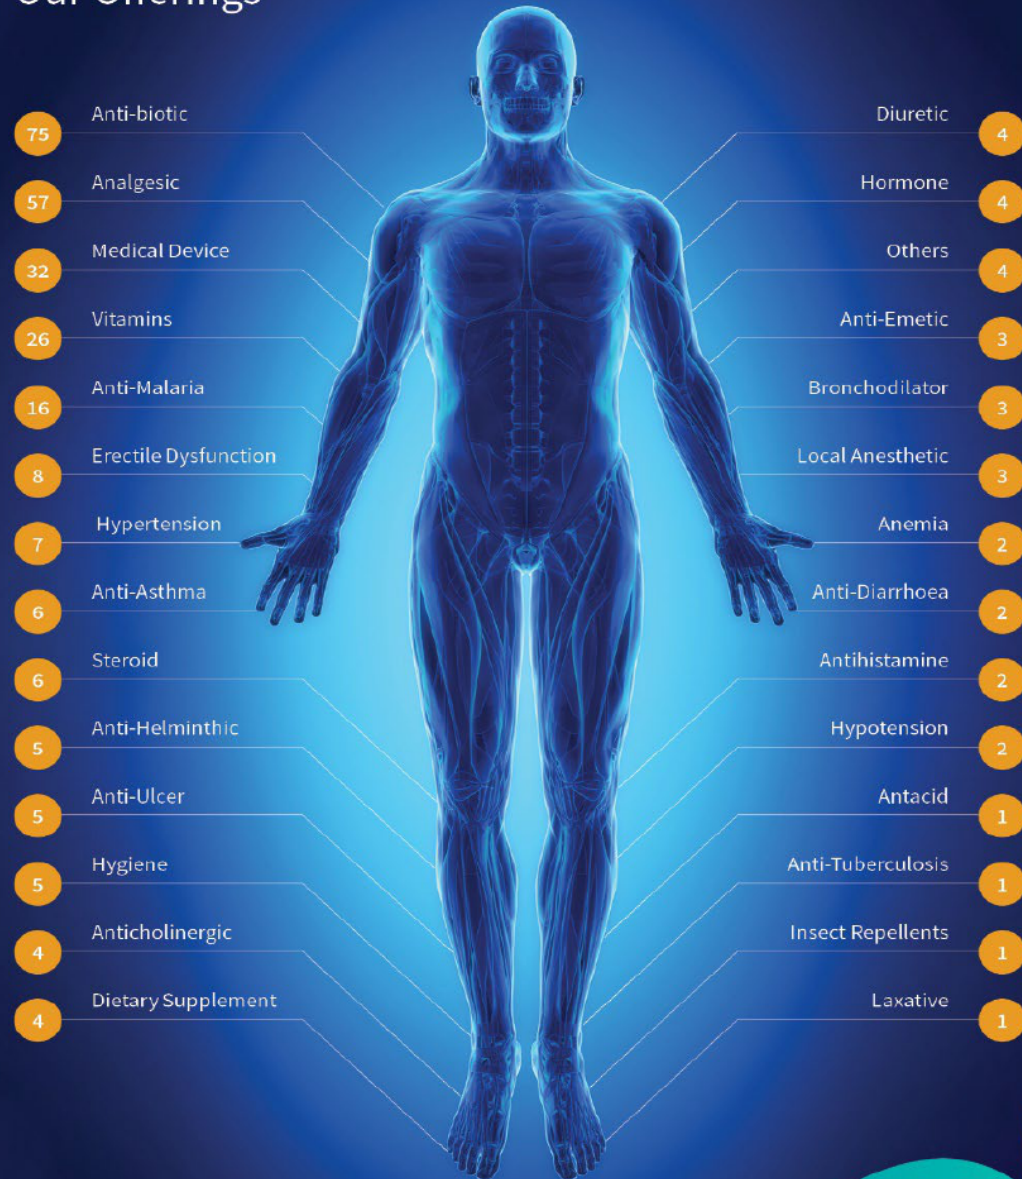

Balaxi in 2021-24: Expansion into New Geographies

- Aim to capture incremental market share in existing geographies by continuing to pursue various opportunities by leveraging physical assets
- Expanding presence in Honduras, El Salvador, Nicaragua, and Central African Republic
- Focus on offering a comprehensive product portfolio to fulfill consumer demand

Balaxi in 2025 & Beyond

- Foray into other Latin American countries, South-East-Asia and CIS markets, replicating the established and differentiated business model
- Backward integration of supply chain by setting up Company's first pharma formulation manufacturing facility
- Focus on ideal mix of branded and generic medicines, maximizing returns in key geographies
- Targeting strong global presence in potential frontier markets over the next five years
- Tapping into new channels for deeper penetration in existing markets
