PRESS RELEASE
15-04-2025

NRF establishes NRF Romania S.R.L.

NRF is a leading supplier of engine cooling and air conditioning parts for the automotive aftermarket. The total offer exists of more than 13,000 references, which is rapidly growing. Combined with an increasing sales volume, NRF needs to expand its warehouse capacity. After the opening of a new 12,700 m² in Valencia, Spain, early last year, NRF announced in the beginning of this year the opening a brand-new 18,613 m² warehouse in Chitila, Romania. NRF established NRF Romania S.R.L. as the next step in its venture in Romania.

NRF is proud to announce the establishment of NRF Romania S.R.L. The opening of this entity follows the step taken in the beginning of the year with the major expansion in Romania regarding the opening of a warehouse Chitila, situated to the north-west of the capital of Romania, Bucharest. The opening of the new warehouse and the entity NRF Romania S.R.L. reflects the company's goal to meet growing customer demand in that region. In addition, it will improve NRF's operational efficiency and ensures that the company can adapt easily to future growth expectations.

The opening of the new warehouse is planned for 2025. NRF does not expect any disruptions to their regular operations during the transition period. In the meanwhile, with the establishment of NRF Romania S.R.L., NRF will take all the necessary steps to prepare for the opening of the warehouse and for setting up the organization required for NRF Romania.
