Trading Symbol: BANSALWIRE

Sub.: Press Release-Intimation under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

Dear Sir/Madam,

Pursuant to regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("the Listing Regulations"), we pleased to enclosed herewith the press release on "**Unveiling of largest Steel Wire Manufacturing Facility at Dadri by Bansal Wire Industries Limited.**"

This information is also being uploaded on the website of the Company i.e. www.bansalwire.com.

This is for information and Records of the Exchanges and the Members.

Thanking you,

Yours faithfully,
For **Bansal Wire Industries Limited**

Sumit Gupta
Company Secretary & Compliance Officer

Bansal Wire Industries Limited Unveils Largest Steel Wire Manufacturing Facility in Dadri, Sets New Benchmark in Innovation and Sustainability

Massive 3.6 lakh MTPA (Metric Tons Per Annum) capacity plant set to redefine wire manufacturing with advanced tech, sustainable practices

Delhi, India | April 10, 2025: In a landmark move to bolster India's manufacturing and infrastructure backbone, Bansal Wire Industries Ltd. (BWIL) — the country's largest stainless steel wire manufacturer — has inaugurated its largest cutting-edge facility in Dadri, envisioned as one of the most advanced and sustainable wire manufacturing units in the country. With a current production capacity of **3.6 lakh MTPA**, the facility is poised to scale up to **4.2 lakh MTPA by H1 FY26**. BWIL's total infrastructure is capable of supporting up to **6 Lakh MTPA**. The plant positions Bansal Wire at the forefront of the steel wire industry.

Strategically designed to serve high-growth sectors such as **Automotive, Agriculture, Power & Transmission, Construction, and General Engineering**, the Dadri plant blends industrial scale with environmental stewardship.

Designed with sustainability at its core, the facility features solar power generation, rainwater harvesting, energy-efficient machinery, and an acid-free wire cleaning process. An on-site Effluent Treatment Plant (ETP) and extensive landscaping reinforce its green footprint.

The plant houses a fully equipped R&D Centre to develop high-performance wires like Induction Tempered, Oil Tempered, LRPC, and Brass Coated Reinforced Wires for key sectors including automotive, construction, agriculture, and power.

The Dadri facility is a bold statement of our future-ready vision and commitment to 'Make in India' at global standards, said Pranav Bansal, CEO & MD, Bansal Wire Industries Ltd. It not only strengthens our production capabilities but also reflects our aspiration to lead with technology, sustainability, and precision engineering in the wire manufacturing industry.

Driving Innovation, Sustainability, and Community Impact

The new plant is designed to meet international benchmarks in automation, environmental compliance, and worker safety. Key features include:

- **Advanced Automation:** Equipped with high-speed precision machines and a soon-to-be-launched R&D centre for next-gen product development.
- **Green Manufacturing:** Integration of solar power systems, rainwater harvesting, zero-acid sand belt cleaning, and a robust Effluent Treatment Plant (ETP) to minimize environmental impact.

- **Excellent Certifications:** ISO 9001 and IATF 16949 compliant, with ISO 14001 and ISO 45001 certifications underway — ensuring quality, safety, and environmental standards.
- **Local Empowerment:** The plant has generated hundreds of direct and indirect employment opportunities and is committed to uplifting surrounding communities through skill training and infrastructure support.

Upcoming Product Lines

The facility will soon commence manufacturing a wider range of premium and industrial-grade wires, including:

- Induction Tempered Wire
- Oil Tempered Wire
- Low Relaxation Pre-Stressed Concrete (LRPC) Wire
- Tyre Cord Wire

These products are expected to meet both domestic and export demands, particularly in critical sectors like construction, transport, and industrial automation.

About Bansal Wire Industries Limited

Bansal Wire Industries Limited is a part of Bansal Group, which started in 1938. It is the largest stainless steel wire manufacturing company and the second largest steel wire manufacturing company by volume. With a legacy of more than 85 years, it has a diversified portfolio, catering to a wide range of sectors such as automotive, general engineering, infrastructure, hardware, consumer durables, power and transmission, agriculture, and auto replacement.
