BEML Puts up Aerospace Manufacturing Complex at SEZ, Bangalore

BEML LIMITED, a Defence Public Sector Undertaking, is moving forward in the aerospace vertical as part of expansion of its Defence Business. In this regard, BEML has started setting up state-of-the-art Aerospace Manufacturing Division at SEZ Park near Bangalore International Airport, Devanahalli. The Bhoomi-Pooja for commencing civil construction was performed today by BEML Chairman & Managing Director, Shri V RS Natarajan in the presence of Functional Directors and other senior executives. BEML is the first company to set up Aerospace Facility at SEZ area. The construction work has begun and this infrastructure facility shall be ready by September 2012. This will pave the way for BEML Limited to enter into Aircraft Manufacturing field with an aim to roll-out an aircraft. This is the second new Aerospace Manufacturing Facility

This Aerospace Facility will be capable of manufacturing aerospace components and parts, assembling of aircraft and helicopter upto 21 metres height. The Facility is spread over 3,00,000 Sqft and the company has invested Rs.455 crores into this project.

It may be recalled that BEML has already se-up Aerospace Manufacturing Division at Mysore and got certified qualifying them to design aircraft, helicopter and engine parts. Currently, this Division is manufacturing Ground Support equipment/Ground Handling equipment like Aircraft Towing Tractor, Crash Fire Tender, Weapon Loader, Jigs & Fixtures, Sub Assembly/components for SU 30 Aircraft.

With opening of new facility at Bangalore, Mysore Aerospace Division will be dedicated towards manufacturing of ground support and handling equipments only whereas the manufacturing of aerospace and related parts will be moved to Bangalore factory.

The upcoming Aerospace SEZ facility will have Assembly Hangar to produce sub/major assembly with 21 Metre height for civil / military aircraft and also could be used for assembly of 90-100 Seater Aircraft and for the MRO of a fixed or Rotary Wing Aircraft, Sheet Metal Shop along with Chemical Milling Centre, Machine Shop with Heat Treatment and Surface Treatment Shops and Composite Facility.

With all these, BEML is able to take jobs in Aerospace Segment right from Design, Virtual Testing, Precision/Heavy Manufacturing of sub-sub assembly, sub assembly, aggregates and parts. BEML will be able to harness all offset opportunities.
