**Subject:-Beta Drugs Expands International Market Access with Key Regulatory Milestones in Azerbaijan and Philippines**

Dear Sir,

Beta Drugs Limited has achieved important regulatory milestones in Azerbaijan and the Philippines, further enhancing access to the CIS and Southeast Asian markets and strengthening the company's export sales.

The company's manufacturing facility was successfully inspected by the Ministry of Health of Azerbaijan Republic from 13 April 2026 to 17 April 2026, and the company expects to receive GMP approval within the next one to two months. This approval, together with the Company's existing EAEU approval, is expected to enable market entry in Azerbaijan and strengthen wider commercialization opportunities across the CIS region.

In the Philippines, Beta Drugs has received Certificates of Product Registration (CPR) for 2 brands, both of which are the first generic approvals in the market. It will provide the company an opportunity to establish early market presence in these products.

In addition, the Company anticipates receiving further approvals over the next six months, which are expected to expand its presence in the Philippines and provide a strong foundation for its planned entry into other Southeast Asian markets, including Vietnam and Thailand.

These regulatory developments build on company's existing approvals from PIC/S, ANVISA, INVIMA, and the Eurasian Economic Union (EAEU), while the Company has also triggered for European Union Good Manufacturing Practice (EU GMP) inspection. These developments reinforce the company's presence in regulated international markets and expected to strengthen the company's international filings and support future export revenues.

Thanking You  
Your's faithfully  
For Beta Drugs Ltd.

Beta Drugs Limited
