Business Update Release

BEW Delivered Cutting-Edge Sterile/Containment Suitable Cantilever Rotocone Vacuum Dryer

Mumbai, 6th February 2025: BEW Engineering - Among leading designers & manufacturers of process equipment for Pharmaceutical & Chemical Industry, proudly announces the successful delivery of a state-of-the-art Sterile/Containment Suitable Cantilever Rotocone Vacuum Dryer (RCVD). This latest innovation reaffirms BEW's commitment to providing high-quality, customized solutions for the pharmaceutical industry.

The Cantilever Rotocone Vacuum Dryer is of 500 Liters working capacity 1000 Liters (Gross Capacity) designed for optimal performance in containment/cleanroom applications. The contact parts are constructed from SS 316, while the non-contact parts are made of SS 304, guaranteeing compliance with stringent Pharmaceutical standards and good manufactures practice.

Key Features & Advantages:

Integrated Utility & Vacuum System: A single-shaft integration ensures zero maintenance within the cleanroom area.

Complete Process & Technical Area Separation: A wall partition allows the drive unit to be placed in a technical room, ensuring a controlled and contamination-free environment in product area.

Optimized for Sterile/Containment Applications: The design meets the highest industry requirements for containment applications.

Management Comment:

Commenting on this development, **Mr. Rohan Lade, Managing Director, BEW Engineering Limited** said:

"It is our great privilege to announce the recent supply of our Sterile/Containment Suitable Cantilever Rotocone Vacuum Dryer (RCVD) to our esteemed client/customers in the pharmaceutical sector. This cutting-edge machinery demonstrates our dedication to offering creative solutions that guarantee the highest levels of quality and safety in the production of pharmaceuticals.

We are proud of our capacity to create and manufacture equipment that satisfies the requirements of containment/cleanroom applications. In addition to improving operational efficiency, the RCVD's integrated utility and vacuum system guarantees a clean room environment that requires minimal maintenance, which is essential for preserving product integrity.

I want to express my sincere appreciation to our clients for putting their faith in BEW Engineering. We look forward to continuing our collaboration and supporting their efforts in advancing pharmaceutical research and development. Together, we can achieve remarkable outcomes that benefit the healthcare industry."

Company Overview

Incorporated in the year 2011, BEW Engineering Limited ("BEW") is engaged in the design and manufacturing engineers of Pharmaceutical & Chemical plants and process equipment's.

BEW designs and manufactures special range of filtration, mixing and drying equipments specifically used in Pharmaceuticals, Sterile Applications, Intermediate Compounds, Fine Chemicals, Speciality Chemicals, Agro Chemicals, Pesticides, Insecticides, Dyes and Food Products. These equipment's are manufactured from material such as Stainless Steel, Alloy Steel etc.

The Company's major products are Agitated Pressure Nutsche Filter Dryer (ANFD), Rotocone Vacuum Filter Dryers (RVFD), Cantilever Rotocone Vacuum Dryer (RCVD), Retractable Plough Shear Mixer Agitated Pan Dryer, Rotary Vacuum Paddle Dryer (RVPD) and Spherical Dryer. The portfolio of products currently includes design and manufacturing of filters and dryers for chemicals industry comprising of Agro Chemicals and Pharmaceutical Industries like API, Bulk Drug, and Intermediate Specialty Chemicals.

Having a registered office at Dombivali and being a leading design and manufacturing engineers of Pharmaceutical & Chemical plants and process equipment's, the Company has developed long term relationships with reputed and renowned customers globally, which include corporations such as Cipla, Ipca, Lupin, Dr. Reddy's, Sun Pharma, SRF, Mylan, Biocon, among others.
