To,

**Listing Compliance Department,
National Stock Exchange of India Limited,**
Exchange Plaza, Bandra Kurla Complex,
Bandra (East), Mumbai – 400051, Maharashtra, India.

Dear Sir/Madam,

**NSE Symbol: BEWLTD
ISIN: INE0HQI01014**

Subject: Disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations').

Kindly find enclosed herewith Business Update Release pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, ("the Listing Regulations").

This is for information, record and dissemination.

Thanking You,
Yours faithfully,

For BEW Engineering Limited

**Bhavna Dwarkadas Kukreja
Company Secretary and Compliance Officer**

Business Update Release

BEW Engineering Limited launches Cutting-Edge 96-Tray Vacuum Tray Dryer (VTD) with Halar Coating

Mumbai, 10th February 2025: BEW Engineering - Among leading designers & manufacturers of process equipment for Pharmaceutical & Chemical Industry, proudly announces the launch of its 96-Tray Vacuum Tray Dryer (VTD) with Halar Coating. This latest innovation is designed to meet the specific demand of handling corrosive powder during drying- a customized solution.

The Vacuum Tray Dryer (VTD), which ensures accurate and effective moisture removal under controlled vacuum conditions, is an essential component of industrial drying processes mainly in Pharmaceutical Industry. This cutting-edge machinery, which has a 96-tray capacity, greatly improves operational efficiency while preserving a contamination-free environment. Excellent chemical resistance, anti-corrosion qualities are all provided by the use of Halar coating.

Key Features & Advantages:

- **Halar Coating:** Ensures long-term durability and chemical resistance.
- **Versatile Uses:** Perfect for the food, pharmaceutical, and specialty chemical sectors.
- **It is a complete set up with Solvent recovery system.**

The scope comprises of Halar Coated VTD, PP Coated condensate receiver, Alloy C-276 Condenser, Vacuum pump, Hot water system with Alfa Laval make PHE.

Entire operation is controlled by PLC, HMI (21 CFR Part 11 compliant software). Also an Industrial PC is supplied to control operations and data capture from multiple equipment (i.e other process equipment like RCVD and its accessories etc.)

Management Comment:

Commenting on this development, **Mr. Rohan Lade, Managing Director, BEW Engineering Limited** said:

“The launch of our 96-Tray VTD with Halar Coating is another milestone in our commitment to offering advanced solutions that optimize production processes, ensuring both safety and performance.

We take great pride in our ability to develop and deliver innovative process equipment that enhances efficiency and meets the evolving needs of our customers.

This achievement reflects our commitment to delivering advanced, regulatory-compliant, and high-efficiency drying solutions that optimizes productivity and quality control. We continue to support our clients in meeting stringent industry standards while ensuring operational excellence.

I want to express my sincere appreciation to our clients for putting their faith in BEW Engineering. We look forward to continuing our collaboration and supporting their efforts in advancing pharmaceutical research and development. Together, we can achieve remarkable outcomes that benefit the healthcare industry.”

Company Overview

Incorporated in the year 2011, BEW Engineering Limited (“BEW”) is engaged in the design and manufacturing engineers of Pharmaceutical & Chemical plants and process equipment’s.

BEW designs and manufactures special range of filtration, mixing and drying equipments specifically used in Pharmaceuticals, Sterile Applications, Intermediate Compounds, Fine Chemicals, Speciality Chemicals, Agro Chemicals, Pesticides, Insecticides, Dyes and Food Products. These equipment’s are manufactured from material such as Stainless Steel, Alloy Steel etc.

The Company’s major products are Agitated Pressure Nutsche Filter Dryer (ANFD), Rotocone Vacuum Filter Dryers (RVFD), Cantilever Rotocone Vacuum Dryer (RCVD), Retractable Plough Shear Mixer Agitated Pan Dryer, Rotary Vacuum Paddle Dryer (RVPD) and Spherical Dryer. The portfolio of products currently includes design and manufacturing of filters and dryers for chemicals industry comprising of Agro Chemicals and Pharmaceutical Industries like API, Bulk Drug, and Intermediate Specialty Chemicals.

Having a registered office at Dombivali and being a leading design and manufacturing engineers of Pharmaceutical & Chemical plants and process equipment’s, the Company has developed long term relationships with reputed and renowned customers globally, which include corporations such as Cipla, Ipca, Lupin, Dr. Reddy’s, Sun Pharma, SRF, Mylan, Biocon, , among others.
