Dear Sir,

Sub : Disclosure in compliance of the Listing Agreement.

Ref : NSE Symbol - BGRENERGY; Series - EQ.

Pursuant to Clause 29 and 36 and other applicable clauses of the Listing Agreement, we wish to inform you that the Environmental Engineering Division of the Company has secured a contract for ₹ 29.76 crore from "Powergen Infrastructure (LLC), UAE" for design, engineering, manufacturing, assembly, inspection, testing, supply and supervision of erection and commissioning of Condensate Polishing Unit ("CPU") for 2 x 660 MW Super critical thermal power project, Tiroda, Maharashtra and 2 x 660 MW Kawai Thermal Power Project, Baran, Rajasthan of Adani Power Maharastra Limited.

In this connection, we are making an announcement by way of separate Press release to the public and the same are attached before publication.

Thanking you,

Yours truly,
for BGR Energy Systems Limited

R. RAMESH KUMAR
President - Corporate & Secretary

MEDIA RELEASE

4 March 2011

Chennai

**BGR's Environment Division Secures Contracts for
Condensate Polishing Units**

Power EPC company, BGR Energy Systems' Environmental Engineering Division has won two orders from Powergen Infrastructure (LLC), UAE to design, engineer, manufacture, supply and commission two Condensate Polishing Units (CPU) for Adani Power Maharashtra Limited's upcoming super critical power projects at Tiroda (2X660 Mw, Maharashtra) and Kawai (2X660 Mw, Rajasthan). The orders are valued at about Rs. 30 crore.

CPU in power plants prevents returning steam condensate contaminants and corrosion products from entering into the plants' boilers and turbines. This results in increasing the efficiency and life-span of these critical equipment.

These orders, being executed for India's top private power player, are significant in two ways: Adani Power has ten other forthcoming 660 Mw projects and the orders pave the way for BGR's environmental engineering capabilities being considered and accepted by other private power producers. The fact that these orders were secured in the face of intense competition from Chinese and Indian CPU vendors is attributable to superior technology from BGR's collaboration with global leader in CPU technology, TME of Italy.

About BGR Energy Systems Limited

BGR Energy is a leading company in the business of Turnkey Engineering and Contracting for Balance of Plant ("BoP") and full service Engineering, Procurement and Construction (EPC) for Power projects in India and LSTK Contracts for Oil and Gas projects in India and abroad. BGR Energy designs and manufactures 22 high technology equipment / systems for Power, Process and Infrastructure projects for world markets.
