## **Airtel Extends Connectivity to Remote Marwah Region**

**Airtel pioneers mobile connectivity in this difficult-to-reach Marwah region**

**Jammu/Srinagar, March 10, 2026:** Bharti Airtel (“Airtel”), one of India’s leading telecommunications service providers, today announced the expansion of its network footprint to **Marwah** - a geographically remote area linking Kishtwar and Anantnag in Jammu & Kashmir. With this milestone deployment, Airtel has become the first and only service provider to deliver reliable mobile connectivity to this strategically significant and difficult-to-reach region.

Marwah, characterized by its rugged terrain and limited seasonal road access to Kishtwar and Anantnag, remains disconnected during winters due to heavy snow fall. This isolation forces residents to rely on mules or foot travel for essential supplies, work, or emergencies, while the absence of telecom coverage left approximately **150-km** corridor disconnected. Airtel’s high-speed network rollout in this area marks a transformative step, empowering residents, security forces, and tourists with seamless connectivity in one of the India’s most challenging terrains.

This deployment also unlocks immense tourism potential of this globally renowned destination.

“We are proud to bridge the digital divide in Marwah, bringing high-speed mobile connectivity to a region long isolated by nature’s toughest barriers,” said **Dibyendu Aich, COO – Jammu and Kashmir, Bharti Airtel.**” Airtel’s relentless expansion into high-altitude and remote areas underscores our commitment to strengthening India’s digital backbone and ensuring every citizen, no matter how remote, stays connected”.

Airtel’s ongoing expansion in such challenging environments reflects its dedication to bridging the connectivity gap and powering India’s digital transformation.

### **About Bharti Airtel:**

Headquartered in India, Airtel is a global communications solutions provider with over 600 million customers in 15 countries across India and Africa. The company also has its presence in Bangladesh and Sri Lanka through its associate entities. The company ranks amongst the top three mobile operators globally and its networks cover over two billion people. Airtel is India’s largest integrated communications solutions provider and the second largest mobile operator in Africa. Airtel’s retail portfolio includes high-speed 4G/5G mobile, Wi-Fi (FTTH+ FWA) that promises speeds up to 1 Gbps with convergence across linear and on-demand entertainment, video streaming services, digital payments and financial services. For enterprise customers, Airtel offers a gamut of solutions that includes secure connectivity, cloud and data centre services, cyber security, IoT, and cloud-based communication. Airtel’s digital arm – Xtelify, empowers telcos globally to leverage the power of AI, data and technology to accelerate their digital transformation and drive growth. Xtelify also offers Airtel Cloud in India enabling enterprises with a sovereign, telco-grade cloud platform that guarantees secure migration, effortless scaling, lower costs and no vendor lock-ins. Within its diversified portfolio, Airtel also offers passive infrastructure services through its subsidiary Indus Tower Ltd. For more details visit [www.airtel.com](http://www.airtel.com)
