**Airtel launches *'Work@Home'* - India's First Enterprise Grade Work From Home Solution for Businesses**

*Enables a fully secure and seamless 'office like experience at home' by offering world-class Connectivity, Collaboration tools and Security as an integrated solution*

*Peace of mind for Businesses with quick provisioning, corporate billing and Airtel's dedicated customer support for enterprises*

**New Delhi, May 18, 2020:** With work for home becoming the new normal for millions of Indian professionals, Airtel Business – the B2B arm of Bharti Airtel – today launched **Work@Home** solutions for enterprises.

Airtel **Work@Home** is India's first enterprise grade solution designed to enable employees operate efficiently and securely from their homes. With a range of connectivity options – wired & wireless, immersive collaboration tools, and security solutions that adhere to Indian regulatory norms, enterprises can now safely embrace the open, borderless new world of work.

**Ajay Chitkara, Director & CEO-Airtel Business** said**:** "These are unprecedented times and businesses are adapting to the evolving environment with new way of working. For a large proportion of employees, working from their homes is set to become the new normal. Airtel Work@Home is yet another innovation to ensure that our B2B customers are able to empower their people with best-in-class connectivity and digital tools to drive business continuity."

Airtel Work@Home comes in the form of Essential and Add-on bundles and allows business to customize their own plans.

| Connectivity | Collaboration Tools | Security |
|---|---|---|
| • Ultrafast Airtel Corporate Broadband with speeds upto 1 Gbps<br>• High speed Airtel 4G Corporate Mi-Fi devices with complimentary G Suite pack<br>• Airtel Corporate Postpaid Mobile Plans with complimentary G Suite Pack<br>• 4G Data SIM with complimentary G Suite pack<br>• MPLS over Airtel 4G | • Google Meet<br>• Cisco Webex<br>• Zoom | • Provider provisioned VPN |

Key advantages of Airtel Work@Home:

- Flexibility to bundle a wide range of services based on employee specific remote connectivity requirements and bulk procurement on a company paid model
- Combines the strength of Airtel's robust pan-India network offerings – 4G mobile, FTTH broadband, MPLS and VPN for secure remote access with industry leading collaboration and productivity tools
- Service Assurance and faster deployment. Dedicated call centre and fault resolution teams

In addition, Airtel is offering priority 4G network to all its Platinum corporate postpaid customers and cutting edge voice over Wi-Fi (VoWifi) technology to provide superior indoor coverage. Airtel Business is the largest player in B2B connectivity segment in India and serves over 2500 large enterprises along with 500,000 plus MSMEs.
