## **Airtel brings wider 5G coverage and faster speeds to millions in Maharashtra & Goa with 3,400+ new sites**

Pune/Nagpur, April 21, 2026: Bharti Airtel, one of India's leading telecommunications service providers, today said it has deployed more than 3,400 new 5G sites across Maharashtra & Goa over the last 12 months, delivering faster speeds, wider coverage and a significantly improved network experience for customers.

The company's network expansion across 36 districts now brings dependable, high-speed coverage to 22 million+ customers in bustling cities, fast-growing towns and even remote rural villages. Thus, customers in emerging and underserved districts like Gadchiroli, Nandurbar, and Sindhudurg are seeing the benefits with the site additions effectively bridging connectivity gaps, fostering digital inclusion, and enabling reliable access.

With more than nine new sites going live every day, customers across districts of Maharashtra and Goa now can count on smoother streaming, faster downloads, uninterrupted online work and learning, and more reliable digital payments—no matter where they live or travel. This enhanced 5G footprint has enabled seamless access to high-speed services that power the everyday digital needs of citizens, students, micro-businesses, tourists, and government institutions, among others.

“Data demand across Maharashtra and Goa continues to grow rapidly, and our focus is to stay ahead by consistently strengthening our network. With the addition of 3,400+ new 5G sites, we are delivering faster speeds, wider coverage and a more reliable experience for over 22 million customers. Our continued investments, especially in underserved districts, reflect Airtel's commitment to bridging connectivity gaps and powering the region's digital growth with a future-ready network.” said **Rabi Shankar Mishra, CEO – Maharashtra & Goa, Bharti Airtel**

Additionally, to empower customers with uninterrupted digital access across Maharashtra & Goa, Airtel now offers a fully unlimited data plan in its ₹399 recharge pack for smartphone users – designed for seamless streaming, studying, working, and staying connected, without worrying about data limits. Backed by sustained investments in network density across rural, semi-urban villages, highways, boarder areas, and key economic and cultural corridors, Airtel ensures robust, future ready connectivity even in high mobility and high usage zones.

### **About Bharti Airtel:**

Headquartered in India, Airtel is a global communications solutions provider with over 650 million customers in 15 countries across India and Africa. The company also has its presence in Bangladesh and Sri Lanka through its associate entities. The company is ranked second amongst mobile operators globally and its networks cover over two billion people. Airtel is India's largest integrated communications solutions provider and the second largest mobile operator in Africa. Airtel's retail portfolio includes high-speed 4G/5G mobile, Wi-Fi (FTTH+ FWA) that promises speeds up to 1 Gbps with convergence across linear and on-demand entertainment, video streaming services, digital payments and financial services. For enterprise customers, Airtel offers a gamut of solutions that includes secure connectivity, cloud and data center services, cyber security, IoT, and cloud-based communication. Airtel's digital arm – Xtelify, empowers telcos globally to leverage the power of AI, data and technology to accelerate their digital transformation and drive growth. Xtelify also offers Airtel Cloud in India enabling enterprises with a sovereign, telco-grade cloud platform that guarantees secure migration, effortless scaling, lower costs and no vendor lock- ins. Within its diversified portfolio, Airtel also offers passive infrastructure services through its subsidiary Indus Tower Ltd. For more details visit [www.airtel.com](http://www.airtel.com)
