## **Airtel brings faster speeds and wider 5G coverage to millions in Gujarat with 2,750+ new sites**

**Ahmedabad, March 23, 2026:** Bharti Airtel, one of India's leading telecommunications service providers, today said it has deployed more than 2,750 new 5G sites across Gujarat over the last 12 months, delivering faster speeds, wider coverage and a significantly improved network experience for customers.

The company's network expansion across 36 districts now brings dependable, high-speed coverage to 41 million+ customers in bustling cities, fast-growing towns and even remote rural villages. With eight new sites going live every day, customers can count on smoother streaming, faster downloads, uninterrupted online work and learning, and more reliable digital payments—no matter where they live or travel.

Customers in key districts including Ahmedabad, Baroda, Rajkot, Surat, and several others will directly benefit from this enhanced footprint. The expanded coverage will enable seamless access to high-speed 5G services, supporting the everyday digital needs of citizens, students, micro-businesses and government institutions, among others.

"Data consumption across Gujarat continues to grow rapidly, and our focus is to stay ahead of this demand by consistently strengthening our network. The addition of over 2,750 new 5G sites across the state will deliver faster speeds, wider coverage and a superior connectivity experience for millions of customers. At Airtel, we remain committed to powering Gujarat's digital growth with a robust and future-ready network," said **Adarsh Verma, CEO – Gujarat, Bharti Airtel.**

To empower customers with **uninterrupted digital access across Gujarat, Airtel now offers a fully unlimited data plan in its ₹399 recharge pack for smartphone users** – designed for seamless streaming, studying, working, and staying connected, without worrying about data limits. Backed by sustained investments in network density across rural, semi-urban villages, highways, border areas, and key economic and cultural corridors, Airtel ensures robust, future ready connectivity even in high mobility and high usage zones.

### **About Bharti Airtel:**

Headquartered in India, Airtel is a global communications solutions provider with over 600 million customers in 15 countries across India and Africa. The company also has its presence in Bangladesh and Sri Lanka through its associate entities. The company ranks amongst the top three mobile operators globally and its networks cover over two billion people. Airtel is India's largest integrated communications solutions provider and the second largest mobile operator in Africa. Airtel's retail portfolio includes high-speed 4G/5G mobile, Wi-Fi (FTTH+ FWA) that promises speeds up to 1 Gbps with convergence across linear and on-demand entertainment, video streaming services, digital payments and financial services. For enterprise customers, Airtel offers a gamut of solutions that includes secure connectivity, cloud and data centre services, cyber security, IoT, and cloud-based communication. Airtel's digital arm – Xtelify, empowers telcos globally to leverage the power of AI, data and technology to accelerate their digital transformation and drive growth. Xtelify also offers Airtel Cloud in India enabling enterprises with a sovereign, telco-grade cloud platform that guarantees secure migration, effortless scaling, lower costs and no vendor lock-ins. Within its diversified portfolio, Airtel also offers passive infrastructure services through its subsidiary Indus Tower Ltd. For more details visit [www.airtel.com](http://www.airtel.com)
