PRESS RELEASE

BHEL signs Technology Collaboration Agreement with Babcock Power Environmental Inc., USA

New Delhi, September 24: For offering state-of-the-art competitive air pollution control products, Bharat Heavy Electricals Limited (BHEL) has entered into a Technology Collaboration Agreement (TCA) with Babcock Power Environmental Inc., USA (BPE) for Selective Catalytic Reduction (SCR) Systems for De-NOx application.

In the presence of Mr. Atul Sobti, CMD, BHEL, and Mr. Nathan Hevrony, Chairman, Babcock Power Inc., USA, the TCA was signed by Mr. Subrata Biswas, Director (E, R&D), BHEL and Dr. Clayton A. Erickson, Sr. Vice President (Environment Technology & Products), BPE, USA. Other senior officials from BHEL and Babcock Power Inc. were also present on this occasion.
