--	---

Dear Sir/ Madam,

Subject: Intimation regarding Credit Rating

Pursuant to Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform you that the Company has received rating letter dated December 16, 2025, from ICRA Limited ('ICRA') with the following rating action w.r.t. below mentioned instrument:

Sl. No.	Instruments	Rated Amount (Rs. In Crores)	Rating Action
1	Long Term / Short Term- Unallocated	450.00	[ICRA]AA+(Stable)/ [ICRA]A1+

A copy of rating rationale issued by ICRA is enclosed.

The above information will also be available on the website of the Company at www.biocon.com.

Kindly take the same on record and acknowledge.

Thanking You,

Yours faithfully,

For **Biocon Limited**

Rajesh U. Shanoy
Company Secretary and Compliance officer
ICSI Membership Number: A16328

Biocon Limited: Update on material event

Summary of rating action

Instrument*	Previous rated amount (Rs. crore)	Current rated amount (Rs. crore)	Rating outstanding
Long term/Short term – Unallocated	450.00	450.00	[ICRA]AA+ (Stable)/[ICRA]A1+
Total	450.00	450.00	

*Instrument details are provided in Annexure I

Rationale

Material event

On December 06, 2025, Biocon Limited (Biocon/the company), announced vide a National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) disclosure that it would be acquiring minority stake of Mylan Inc., Serum Institute Life Sciences, Tata Capital, and Activ Pine in Biocon Biologics Limited (BBL), making BBL its wholly-owned subsidiary. The transaction, valued at approximately \$1.17 billion, will be funded by Biocon through a mix of share swap (171.3 million shares of Biocon worth \$773 million or Rs. 6,950 crore) and a cash payment of \$400 million to Mylan Inc. The cash payment to Mylan will be made in two stages – \$200 million (Rs. 1,800 crore) to be paid immediately funded through commercial paper (CP) and the remaining \$200 million to be funded through a qualified institutional placement (QIP) fund. The share swap ratio has been set at 70.28 Biocon shares for every 100 BBL shares for Serum Institute Life Sciences, Tata Capital, and Activ Pine, and 61.70 Biocon shares for every 100 BBL shares for Mylan Inc., based on Biocon's share price of Rs. 405.78. According to the company, this restructuring aims to simplify the Group's corporate structure, eliminate the holding company discount for Biocon, and consolidate operations under Biocon. Post-integration, Biocon expects operational and commercial synergies across manufacturing, procurement, and global distribution.

Impact of material event

The proposed acquisition is expected to be strategically positive for Biocon, as it simplifies the Group structure. By making BBL its wholly-owned subsidiary, Biocon will gain full control over its largest revenue contributor (58% of consolidated revenues in FY2025), enabling better operational alignment. The integration is anticipated to deliver synergies across supply chain, procurement, and commercial operations.

From a financial perspective, the transaction values BBL at \$5.5 billion equity value (\$6.6 billion enterprise value) and involves a cash payment of \$400 million to Mylan Inc., which will be funded through a two-step mechanism: (i) interim bridge financing via commercial paper of up to Rs. 1,800 crore and (ii) a QIP of up to Rs. 4,500 crore. The proposed QIP will be utilised to repay the aforementioned CP and pay the remaining Rs. 1,800 crore to Mylan Inc. Additionally, the Edelweiss structured debt raised in FY2024 to fund BBL's acquisition of Viatris will be repaid by January 31, 2026, using the residual QIP proceeds.

Post-integration, while the consolidated leverage is expected to reduce as the entire structured debt gets repaid, Biocon's adjusted net debt (excluding structured debt) is not likely to alter materially as the entire QIP proceeds will be earmarked for CP repayment and payment to Edelweiss. Key monitorable factors include the timely repayment of the CP following the successful equity raise by Biocon through a QIP. Biocon's ability to maintain adequate liquidity and execute its deleveraging plans in a timely manner will be critical for sustaining its credit profile.

Analytical approach

Analytical approach	Comments
Applicable rating methodologies	Corporate Credit Rating Methodology Pharmaceuticals
Parent/Group support	Not applicable
Consolidation/Standalone	For arriving at the ratings, ICRA has considered the consolidated financials of Biocon. Refer to Annexure II for the list of entities considered for consolidation.

About the company

Biocon Limited was initially set up as a joint venture (JV) between Biocon Biochemicals Limited of Ireland and Indian entrepreneur Ms. Kiran Mazumdar Shaw in 1978 to manufacture and export enzymes. After the JV partner was acquired by Unilever and the businesses were restructured, Biocon became an independent entity, and the Indian promoters bought the entire stake in 1998. In 2000, the company commissioned its first fully automated submerged fermentation plant to produce speciality biopharmaceuticals and received US Food and Drug Administration (FDA) approval for lovastatin in 2001. From being a predominantly fermentation-based active pharmaceutical ingredient (API) and enzymes manufacturer, Biocon has emerged as a research & development (R&D) based biotechnology company, having developed its own proprietary products and offering research services to global pharmaceutical majors.

Complexity level of the rated instruments

Instrument	Complexity indicator
Long term/Short term – Unallocated	Not applicable

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
