Dear Sir(s),

Sub: **Disclosure under Regulation 30, 51 and 55 of SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015- Intimation of Credit Rating**

Pursuant to Regulation 30 and 51 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform you that CARE Ratings Limited vide its press release has re-affirmed the credit ratings on the bank loan facilities and debt securities of the Company, the details of which are provided hereunder:

Name of Credit Rating Agency	Facilities/ Instruments	Size of Issue (crore)	Rating/Outlook	Rating Action
CARE Ratings Limited	Long Term Bank Facilities	526.00	CARE AA, Outlook: Stable	Re-affirmed
	Long Term/ Short Term Bank Facilities	960.00	CARE AA, Outlook: Stable/ CARE A1+	Re-affirmed
	Non-Convertible Debentures	80.00	CARE AA, Outlook: Stable	Re-affirmed
	Non-Convertible Debentures	20.00	CARE AA, Outlook: Stable	Re-affirmed

Further, pursuant to Regulation 55 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with SEBI Master Circular SEBI/HO/DDHS/DDHS-PoD 1/P/CIR/2025/0000000103 dated 11th July, 2025, please find below the details of the ratings that are re-affirmed for the following debt securities of the Company in the prescribed format:

Details of credit rating

Birla Corporation Limited

July 02, 2026

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Long-term bank facilities	526.00 (Reduced from 542.50)	CARE AA; Stable	Reaffirmed
Long-term / Short-term bank facilities	960.00 (Enhanced from 945.00)	CARE AA; Stable / CARE A1+	Reaffirmed
Non-convertible debentures	80.00 (Reduced from 140.00)	CARE AA; Stable	Reaffirmed
Non-convertible debentures	20.00 (Reduced from 35.00)	CARE AA; Stable	Reaffirmed

Details of instruments/facilities in Annexure-1.

The list of facilities / instruments falling under the purview of various financial sector regulators (FSRs), along with the names of respective FSRs has been disclosed under Annexure-7.

Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has reaffirmed ratings for bank loan facilities and instruments of Birla Corporation Limited (BCL) at CARE AA; Stable/ CARE A1+. The rating assessment continues to factor in BCL's healthy competitive position in grey cement manufacturing, supported by installed capacities of 21.4 metric tonne per annum (MTPA) as on March 31, 2026, which are well diversified across central, northern, western, and eastern regions of India. In FY26, the installed capacities grew by 1.4 MTPA, with the commencement of the Kundanganj line (grinding unit) in Uttar Pradesh (UP) in Q4 FY26. The company has further plans to expand its capacities to 27.6 MTPA by FY29. The company has established a healthy brand recall of its cement products, which is supported on ground by its distribution network leading to higher retail trade mix. BCL enjoys cost competitiveness in its business driven by captive limestone mines, coal block mines, power generation with a healthy mix of thermal, and green power and high proportion of blended cement, which further reduces its fuel requirements.

With reduction in debt, the company's capital structure and debt coverage indicators improved in the last two years. However, this remains sensitive to ongoing debt-funded capital expenditure (capex) plans to fund its capacity enhancement.

These strengths are partially tempered by moderate operating efficiencies driven by high fuel requirements in BCL (Standalone) as one of its plants is a very old cement manufacturing unit. However, efficient units under its subsidiary, RCCPL Private Limited (RCCPL), continue to support profitability margins at a consolidated level.

CareEdge Ratings notes that the company remains exposed to cyclicalities in the cement industry, and volatility in input costs and realisations. Ongoing geopolitical tensions may lead to volatility in pet coke prices. The impact is partly mitigated by the availability of raw material inventory sufficient for 2-3 months of operations. Prolonged input cost pressure could lead to higher operating costs and remains a key monitorable.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Significant increase in scale of operations and/or profitability.
- Sustained strengthening of debt coverage metrics particularly, net debt (inclusive of security deposits [SD] and letter of credit [LC] acceptances) to profit before interest, lease rentals, depreciation, and taxation (PBILDT) of less than 2x, on a sustained basis.

Negative factors

- Moderation in net debt/PBILDT levels (inclusive of SD and LC acceptances) of over 3.50x on a sustained basis.
- Announcement of major debt programme leading to expectation of moderation in capital structure.
- Significant deterioration in liquidity from current levels, particularly reduction in cash and cash equivalents (including current investments) below ₹300 crore.

¹Complete definition of ratings assigned are available at www.careratings.com and other CARE Ratings Limited's publications.

Analytical approach: Consolidated

CareEdge Ratings has considered a consolidated view of the parent, BCL, and its subsidiaries owing to significant business, operational, and financial linkages between the parent and subsidiaries. Details of subsidiaries consolidated are listed under Annexure-6.

Outlook: Stable

'Stable' outlook reflects CareEdge Ratings' expectation of the company, which is sustaining its current financial risk profile, particularly, debt coverage metrics, while continuing strong operating performance.

Detailed description of key rating drivers:**Key strengths****Healthy competitive position supported further by diversified geographical profile**

BCL is among the oldest cement manufacturing companies in India. Over the years, it has established a strong presence in cement markets of central, eastern, and northern India. The company's standalone cement capacity of 10.19 MTPA is supplemented by 11.21 MTPA capacity of RCCPL, wholly owned subsidiary of BCL. RCCPL's capacity increased by 1.4 MTPA, with the commencement of the Kundanganj line (grinding unit) in UP in Q4 FY26. The company derives ~50% sales volumes from central India, catered by dedicated 10.75 MTPA cement capacity in the region, followed by ~20% share from eastern region, 16% share from western region, and 13% share from the northern region in FY26. In June 2026, BCL also commenced the Bikram coal block, which is expected to augment coal production.

In FY26, the consolidated cement sales volume for BCL were reported at 18.72 MT, registering a growth of 3.6% y-o-y. BCL's total operating income (TOI) improved by 5% y-o-y in FY26, to ₹9662 crore, supported by healthy volume sales while overall realisations were reported at ₹4818/ton (₹4821/ton in FY25), remaining largely stable. The company continued to maintain a healthy capacity utilisation of 87% in FY26 (90% in FY25), though slightly moderated on a y-o-y basis as a result of increase in consolidated cement capacities. Going forward, no steep price hikes are anticipated; however, volume growth and capacity expansion in the medium term is expected to provide overall support to the company's TOI with steady expected capacity utilisation of ~90%.

Large retail trade mix driven by healthy brand recall and established distribution network

Despite being a commoditised business, BCL has been able to establish its brand over the years with its flagship cement brand "MP Birla Cement". The company has a portfolio of 11 cement brands with varied characteristics, where "M.P Birla Perfect Plus" and "Rakshak" are its premium brands. This is further characterised by a distribution network of 310 sales promoters, 9000 dealers, and 41000+ sub-dealers, which significantly supports on-ground sales of BCL's products.

The company largely sells blended cement, which is consumed by the retail trade segment. Accordingly, the company's retail trade mix is 77% (70%) in FY26 (FY25). Considering its significant push on establishing its brand, the company has also been able to maintain its high premium products at 60% of trade sales in FY26 and FY25. Continued focus on premium products is expected to be sustained, which leads to better realisations.

Integrated units with captive limestone mines, coal mines, and power generation allowing cost competitiveness

BCL's manufacturing units are well-integrated with captive limestone reserves, coal mine blocks, and captive power sources, supported by split grinding units allowing the company to remain cost competitive over the years. The company has limestone mines near its Satna, Chanderia, Maihar, and Mukutban plant, which meets over 85% (80%) total limestone requirements in FY26 (FY25). In June 2026, the Bikram coal block also commenced operations for production of coal. With some further capex in this coal block, the company is expected to achieve cost benefits from FY28, when the block will operate at full capacity. With this block, their captive coal consumption is expected to increase to ~38% of total consumption in the medium term.

BCL has multiple power sources having installed 94 MW captive thermal power plant, 43.35 MW of Waste Heat Recovery System (WHRS) and 42.80 MW of solar plant, and a hybrid capacity of 12 MW installed at Maihar in FY25, which can manage more than 60% power requirements. The company's power consumption per tonne of cement produced remains efficient supported by RCCPL's efficient units.

In FY26, the company reported meaningful gains from better input price absorption and improving operational efficiencies with stable blended realisations. The company's PBILDT per tonne increased from ₹674 in FY25, to ₹777 in FY26, resulting in PBILDT margins improvement to 15.2% in FY26, from 13.2% in FY25, supported by reduction in power and fuel costs and stable blended realisations in FY26. Going forward, fuel costs may be impacted due to the ongoing West Asia crisis, which led to significant increase in prices of pet coke, which though have currently moderated from earlier highs. However, the company has long-term fuel contracts, which shall help to partially mitigate the risk arising from increase in fuel prices.

Moderate financial risk profile

The company has a strong tangible net worth² reported at ₹5,389 crore as on March 31, 2026 (₹5,005 crore as on March 31, 2025). The company's capital structure is moderately leveraged, with an overall gearing of 0.75x as on March 31, 2026, improving from 0.83x as on March 31, 2025, and from 0.97x as on March 31, 2024, with scheduled repayments and no major addition of debt. Net debt/PBILDT also improved to 2.17x in FY26, compared to 2.97x in FY25 (2.71x in FY24), with reduction in debt and increase in profitability, considering better input price absorption and improved operational efficiencies achieved in FY26.

Going forward, the company is expected to incur sizeable debt-funded capex in the medium term to enhance its production capacity, in grinding and clinker units. The total capex outlay is expected at ₹4,300-4,500 crore from FY27-FY29, which includes increasing grinding capacity from 21.4 MTPA to 27.6 MTPA by FY29, through the establishment of three new grinding units at Prayagraj (1.4 MTPA, under RCCPL), Gaya (Phase I & II, totalling 2.8 MTPA, under BCL), and Aligarh (2 MTPA, under RCCPL). The clinker production capacity is to be expand by 3.7 MTPA in its Maihar Line unit. Apart from this, the company is expected to undertake operational efficiency capex and sustenance capex. These projects are expected to be funded by a combination of debt and internal accruals in a 2:1 ratio. While leverage levels are expected to increase owing to sizeable capex plans, coverage metrics are expected to remain largely comfortable. Net debt/PBILDT though, may witness a moderation in the range of 3-3.3x as project execution gather pace. CareEdge Ratings will monitor the timely execution of the capex and improvement in its scale and profitability, impacting BCL's overall credit profile.

Key weaknesses

Profitability exposed to volatile input costs and price realisations

The company continues to remain exposed to commodity price risk, arising from raw material price fluctuation (gypsum, fly ash and slag) and fuel (coal and pet coke). Coal (indigenous and international) is used for power generation to run its plants and fuel for kilns. In the recent past, the cement industry witnessed significant spike in power and fuel costs; post pent-up demand for fuel after multiple COVID-19 waves, post which Russia-Ukraine war exacerbated fuel cost in FY22 and FY23. Spike in fuel costs impacted profitability margins in FY22 and FY23, while subdued realisations have been constraining factor in profitability margins in FY25.

Going forward, fuel costs may be impacted due to the ongoing West Asia crisis, which has led to significant increase in prices of pet coke. Freight expenses, which account for a significant portion of total costs, are expected to be affected by rising diesel prices. The company's profitability will remain exposed to significant input cost volatility and cement price realisation, which depends on each region's demand and supply dynamics (volume growth and installed capacity) in a particular region.

Cyclicality of the cement industry

The cement industry is highly cyclical and depends largely on the country's economic growth. There is a high degree of correlation between the GDP growth and growth in cement consumption. Being a cyclical industry, cement goes through phases of ups and downs and accordingly impacts unit realisations.

Liquidity: Strong

BCL's strong liquidity is marked by a liquid balance of ₹832 crore, comprising free cash of ₹127.76 crore and liquid investments of ₹704 crore as on March 31, 2026 (₹525 crore comprising free cash and bank balance of ₹124.55 crore and liquid investments of ₹400 crore as on March 31, 2025). Adequate gross cash accruals (GCA) of ₹1106 crore as on March 31, 2026, and low bank limit utilisation of 27% in BCL, and 10% in RCCPL for trailing 12 months ending March 2026, provides further liquidity cushion. Going forward, the company has repayment obligations of ₹679 in FY27, and ₹583 crore in FY28, expected to be covered adequately by projected GCA of over ₹1100 crore in the medium term.

² Tangible net worth excludes revaluation surplus

The company also has non-current investments in listed companies (including M. P. Birla group companies) and bonds totalling to ₹586.14 crore as on March 31, 2026.

Assumptions/Covenants: Not applicable

Environment, social, and governance (ESG) risks

The cement sector has a significant impact on the environment, owing to higher emissions, generation of waste, and consumption of water. Cement manufacturing process is energy intensive and its high dependence on natural resources, such as limestone, and coal, as key raw materials are key reasons. Due to operations affecting the local community and health hazards involved in the cement manufacturing process, the sector also has a social impact. BCL has continuously focused on mitigating its environmental and social risks. CareEdge Ratings believes BCL's commitment to ESG will support its strong credit profile. Few steps are as below:

Environment

- The company integrates sustainability into its operations by maintaining emissions within regulatory limits using online monitoring and SNCR systems, optimising limestone use, and reusing treated wastewater for dust suppression and plantation.
- Water positivity is achieved through rainwater harvesting, use of air cooled condensers, water recharge systems, and reuse of treated water.
- The company reduces reliance on fossil fuels through waste heat recovery systems, solar power installations, and continuous use of alternative fuels, and efficient utilisation of fly ash, slag, and co-processing of municipal waste. The company is capping carbon footprints, with ~85% of its product portfolio comprising blended cement and extensive plantations across its sites.

Social

- The company has supported 379 micro-enterprises, many led by women, and ~10% of its 5,000 vendors are micro, small and medium enterprises (MSMEs), contributing to significant job creation. Its nonprofit leg has funded healthcare and educational institutions.

Governance

- Boards of directors constitute over 60% independent directors, of which, two are women. Women constitute 33% board of directors.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Commodities	Construction Materials	Cement & Cement Products	Cement & Cement Products

Incorporated in August 1919, BCL is currently the flagship company of the M. P. Birla group. The company is a multi-location cement manufacturing company with an aggregate capacity of 21.4 MTPA as on March 31, 2026 (10.19 MTPA in BCL and 11.21 MTPA in RCCPL). It is also engaged in Jute sales. BCL sells cement under well-established brands, prominent being 'Birla Cement Samrat', 'Perfect Plus', 'Rakshak', 'Birla Cement Unique', a premium Portland Slag Cement, and 'Birla Cement Chetak', among others, with its key markets being Madhya Pradesh, Uttar Pradesh, Rajasthan, West Bengal, and Bihar. BCL is currently managed under the chairmanship of H V Lodha.

In August 2016, BCL successfully acquired 100% equity stake in RCCPL Private Limited (RCCPL; erstwhile Reliance Cement Company Private Limited). Currently, RCCPL has 11.21 MTPA cement manufacturing units across Madhya Pradesh (3.20 MTPA integrated cement plant), Uttar Pradesh (3.61 MTPA grinding unit), and Maharashtra (0.5 MTPA grinding unit and 3.90 MTPA integrated cement plant).

14.	Borrowing Programme ~	-
15.	Issuer Ratings #	-
16.	Credit Ratings for Capital Protection Oriented Schemes (By Mutual Funds and AIFs)	SEBI
17.	Credit Quality Ratings (CQRs) for Mutual Fund Schemes and Schemes of AIFs	SEBI
18.	Listed Security Receipts	SEBI
19.	Unlisted Security Receipts	RBI
20.	Independent Credit Evaluation (ICE)	RBI
21.	Expected Loss Ratings (For Loan Facilities (Fund / Non-Fund Based) from Banks / NBFCs / NHB / FIs)	RBI
22.	Expected Loss Ratings (Listed / Proposed to be Listed Bonds / Debentures / Preference Shares (All Securities))	SEBI
23.	Expected Loss Ratings (Unlisted / Proposed to be Unlisted Bonds / Debentures / Preference Shares (All Securities))	MCA
24.	Unlisted PTCs / Securitisation Notes (Originated by Entities Not Regulated by RBI) *	Investor-side regulator such as IRDAI, PFRDA @

* Includes securitisation transactions involving assignee payout, acquirer's payout.

~ The rated instrument may involve issuance of different instruments such as debt securities (listed or otherwise), bank loans, commercial paper (listed or otherwise), among others. The regulator of the instrument may accordingly be SEBI, RBI or MCA and can only be determined upon issuance. In the press releases subsequent to issuance(s), CareEdge Ratings shall separately capture the rated quantum details along with names of respective regulators.

^ Includes bank facilities such as liquidity facility, second loss facility that are part of securitisation transactions.

There is no instrument being rated and hence, Regulator of the Instrument is not applicable. The rating scale and definitions are being followed as stipulated in SEBI Master Circular for CRAs.

@ These ratings were assigned in regulatory regime prior to introduction of SEBI CRA Circular dated February 10, 2026, and the investor side regulators have accordingly been included.

Note: For facilities / instruments falling under the purview of FSRs other than SEBI, the grievance / dispute redressal mechanisms and investor protection mechanisms provided by SEBI shall not be available.

Note on complexity levels of rated instruments: CareEdge Ratings has classified instruments rated by it based on complexity. Investors/market intermediaries/regulators or others are welcome to write to care@careedge.in for clarifications.

About us:

Established in 1993, CareEdge Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the Reserve Bank of India. With an equitable position in the Indian capital market, CareEdge Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CareEdge Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CareEdge Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit. This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
