IRAN WAR HITS SENTIMENT

Sebi makes cutting IPO size easier

VIBHUTI SHARMA & JAYSHREE P UPADHYAY
Mumbai, April 15

THE SECURITIES AND Exchange Board of India (Sebi) will allow companies to cut the size of initial public offerings (IPOs) by as much as 50% without filing additional paperwork, as the Iran war has made it hard to follow through with initial plans, according to an email seen by Reuters.

Current rules stipulate that IPO documents need to be refiled if the planned fundraising amount increases or decreases by 20% or more.

Firms will now only have to submit their revised offer size to Sebi for approval and these reviews will be fast-tracked, the regulator said in an email sent to the Association of Investment Bankers of India.

The relief will apply to issuers planning to raise fresh funds before September 30 and will only be granted if there is no change in the main object of the issue, the email said.

“By end of September, the Middle East crisis will either be resolved or companies will be in a position to better plan their fund raises,” said a source with direct knowledge of the matter, who was not authorised to speak to media and declined to be identified.

Sebi did not immediately respond to a request for comment. It said in the email that rules were being eased as market participants were facing

issues in mobilising resources and accessing capital markets due to tensions in the West Asia.

“Some issuers after this regulatory dispensation may proceed with a considerably reduced offer-for-sale component, prioritising the listing itself over maximising immediate secondary exits,” said Manan Lahoty, partner and head of capital markets at law firm Cyril Amarchand Mangaldas.

Last week, Sebi allowed companies whose deadlines for an IPO are due to lapse between April 1 and September 30 to complete them.

FY26 deposit, credit growth at 2-yr highs

● Deposits rise by 13.47%, credit growth at 16.08%

MAHESH NAYAK
Mumbai, April 15

THE BANKING SYSTEM ended FY26 on a strong note, with both credit and deposit growth touching two-year highs.

The deposit growth came in at 13.47%, the fastest pace since May 2024, as households and institutions moved money into safer options after a turbulent spell in financial markets. A sharp correction in equities, volatility in gold and silver, and losses in several mutual fund categories pushed investors towards the relative stability of bank deposits and bonds. This flight to safety lifted system liquidity and pushed absolute deposits to an all-time high,

rising to ₹262 lakh crore as on March 31, 2026.

Credit growth, too, accelerated to 16.08% (₹213 lakh crore), its strongest since June 2024, driven by a decisive shift in borrowing patterns. With yields rising and the rupee's depreciation making overseas borrowing more expensive, large corporates slowed or postponed their capital-market issuances — both domestic

and offshore — and turned to banks instead. The shift was reinforced by strong traction in retail segments, particularly gold loans and vehicle loans, which remained active throughout the year.

Even though some of the early GST-linked enthusiasm in auto loans tapered off by March, year-end numbers remained significantly higher than the previous year. The

credit-deposit (CD) ratio eased to 81.44, down from a recent fortnight's peak of 83.04, largely because the deposit growth outpaced credit expansion in the final fortnight.

Sanjay Agarwal, senior director at CareEdge Ratings, said: “The twin surge is a direct outcome of market dynamics. Higher capital-market rates and currency pressures have pushed borrowers towards banks, while market corrections have driven investors into deposits, creating a rare moment where both credit and deposit growth are simultaneously elevated.”

He believes while the deposit growth may moderate once markets stabilise, the momentum remains stronger than in previous years. However, credit demand is expected to stay healthy, setting the stage for another year of steady expansion of the banking sector.

Fino Payments Bank invests ₹200 cr in Finacle

FINO PAYMENTS BANK has invested ₹200 crore in Finacle, a scalable and future-ready core banking system, to enhance performance, improve agility, and support its transition to a small finance bank. The bank has successfully migrated its core banking system (CBS) to Finacle, marking a significant milestone in its digital transformation journey, a release said. This upgrade establishes a modular, scalable technology platform designed to support the bank's next phase of growth.

The migration was executed through a carefully phased approach, with a temporary moderation in business volumes during Q4FY26 to ensure system stability and data integrity. Despite the scale and complexity of the project, the transition was completed within the expected timeline, reflecting strong execution capabilities and operational discipline.

Expansion made easy for NBFCs

● Gold loan firms stand to gain big

MAHESH NAYAK
Mumbai, April 15

THE RESERVE BANK of India on Wednesday opened the door for a major expansion push by gold loan companies and other retail-focused NBFCs. The RBI issued the Non-Banking Financial Companies - Branch Authorisation Amendment Directions, 2026, allowing NBFCs to open branches without prior approval. The sector's most branch-intensive players, particularly gold loan NBFCs, stand to benefit immediately.

ment for prior approval, the regulator has effectively unlocked the next phase of expansion for all serious players in the segment, said Manish Mayank, an industry expert. He said: Over the past year, several new-age corporate entrants tested the waters with selective branch openings, and the results have given them the confidence to scale aggressively. With gold prices supportive and unit economics improving, most branches are already operating profitably.

“The new norms now eliminate the procedural bottleneck that forced companies to repeatedly go back to the regulator for approvals, especially when expanding into high-potential local markets.”
