Media Release

Borana Weaves Announces Commissioning of Additional 108 looms in Unit 4

Taking total capacity to 346 million meters post complete expansion in October 2025

Surat, September 29, 2025: Borana Weaves Ltd., one of India's leading producers of Synthetic Greige fabric, today announced the commencement of additional looms at **Unit 4**, three months ahead of the proposed December schedule.

The total capex for Unit 4 shall be **₹71.35 crore allocated from IPO proceeds** and will house **348 state-of-the-art water jet looms** with a **production capacity of 112.75 million meters per annum** (9.39 million meters per month). With the commencement of operations, 300 looms are already running at the Unit, while the remaining 48 water jet looms are expected to be operational by October 2025.

The new unit will manufacture **Greige cloth**, further strengthening Borana Weaves' overall annual capacity to **346 million meters** across its manufacturing footprint. With the addition of Unit 4, the company is set to strengthen its position in the Synthetic Greige Fabrics market, increasing its market share from **20-25%** to nearly **25-30%**, while improving operating margins and enhancing its ability to cater to both domestic and international customers.

Unit 4 is powered by **High-Speed Water Jet Weaving looms**, which are inherently more eco-friendlier compared to conventional weaving technologies, reinforcing the company's focus on sustainable operations.

Speaking on the milestone, Mr. Rajkumar Borana, Executive Director and Chief Financial Officer of Borana Weaves, said: *"The accelerated execution of Unit 4 reflects our commitment to respond swiftly to rising demand trends. Commissioning the unit ahead of schedule is a direct outcome of strong order inflows and robust demand visibility. This expansion represents a significant step towards our vision of becoming one of the largest producers of synthetic Greige cloth in India."*

Strategic Impact

- Expands annual production capacity to 346 million meters by October 2025
- Strengthens market share to ~30% in Synthetic Greige fabric
- Supports long-term growth strategy of become a leading national producer
- Improves operating margins through reduced outsourcing and scale efficiencies

About Borana Weaves

Borana Weaves Limited, established in 2020 and headquartered in Surat, is a leading manufacturer of unbleached synthetic greige fabrics used in dyeing, printing, home décor, fashion, and technical textiles. Following the full expansion in October 2025, the company will have an annual production capacity of 346 million metres. With advanced technology, sustainable practices, and approximately 666 employees across four units, Borana Weaves serves both domestic and international markets.
