‘Happiest Minds-ITC Infotech merger to widen global reach’

bl.interview

Sanjana B
Bengaluru

Happiest Minds Technologies reported a 12.5 per cent year-on-year (y-o-y) increase in revenue to ₹645.43 crore in Q2 FY27, with sequential growth of 2.7 per cent. In constant currency terms, revenue grew 6.8 per cent y-o-y and 2.4 per cent quarter-on -quarter (q-o-q). Net profit rose 15.1 per cent y-o-y to ₹62.19 crore, but declined 8 per cent sequentially.

Joseph Anantharaju, Co-Chairman and CEO, and Venkatraman Narayanan, Managing Director, discussed growth outlook, the complementary capabilities Happiest Minds and ITC Infotech will bring to the combined entity, opportunities to win larger deals, geographical and vertical diversification, and plans for workforce and leadership integration.

Edited excerpts:

Venkatraman Narayanan, MD, and Joseph Anantharaju, Co-Chairman & CEO, Happiest Minds

What were the key highlights for the company this quarter?

Narayanan: We saw good numbers relative to industry performance, given the global outlook and geopolitical macro. We saw 7 per cent y-o-y CC growth, 12.5 per cent-plus in rupee terms. Profitability has grown by double digits y-o-y.

Operating metrics are better, and utilisation is high at 82 per cent. We are making good progress on the ITC Infotech merger. We have guidance of 12.5 per cent cc revenue growth, and at midyear, we are at about 6.87 per cent. We have been pursuing a few large deals, which are just moving from Q1 and Q2, because, as a $260 million company, 2-3 large deals throw us off our estimates.

We hope to nail it down by Q3 or Q4. The intention is to end the year with double-digit CC growth.

How do you see the geographical and vertical mix evolving?

Anantharaju: In the last 2-3 years, our geo revenues have been diversified. Earlier, we were heavily weighted towards the US, which made up 75-77 per cent of our revenues. We will continue this so we're not overly exposed to one geo.

The combined Happiest Minds-ITC Infotech entity is expected to have a diversified geographical mix, with the US contributing around 40 per cent of revenue, Europe 25-28 per cent, India 10-12 per cent, Southeast Asia 10-12 per cent, the Middle East 10 per cent and Africa 3-4 per cent.

In terms of verticals, retail and CPG, along with manufacturing, would account for 38-40 per cent of the combined entity's revenue, while BFSI would contribute 20-22 per cent and healthcare around 8 per cent.

Excluding manufacturing industrial from the broader manufacturing category, the portfolio would be more evenly distributed, with retail and CPG contributing around 30 per cent, BFSI 20-22 per cent, manufacturing and industrial 10-12 per cent, and high-tech and edtech about 10 per cent each. It would help the company navigate challenging market conditions while allowing it to focus on high-growth verticals.

Post-merger, how will the workforce and leadership structures be integrated?

Anantharaju: Considering both companies' utilisation, we are a little lower than ITCI, which had 86.9 per cent this quarter. Otherwise, given the space we play in and the plurality of skills required, 82 per cent is a good number to have. There's no slack in the system from a billable or utilisation standpoint.

Billed utilisation levels indicate that both companies are leveraging their employees across enabling functions. At the senior level, there could be changes in roles, depending on how the integrated structure is.
