Robusta coffee fell 2.1 per cent to \$3,274 a tonne. Raw sugar rose 0.7 per cent to 15.11 cents/lb. White sugar rose 1.2 per cent to \$446.40 a tonne. **REUTERS**

Global rice prices poised to gain on supply woes

WEATHER, GEOPOLITICAL CONCERNS. Output projected to drop by 5 million tonnes, while offtake may rise by 3.8 mt

Subramani Ra Mancombu
Chennai

Rice prices in the global market will likely rise due to the balance swinging to a deficit after over a decade and increasing concerns over weather and fertilizer availability due to geopolitical crises, analysts said.

"We expect rice prices to maintain upward momentum over the coming quarters, with the 2026 annual average falling within a \$11.7-12.5/cwt (45.36 kg) range, underpinned by rising concerns over weather risks and fertilizer affordability amid the ongoing US-Iran conflict," said research agency BMI, a unit of Fitch Solutions.

The US Department of Agriculture (USDA), in its report last week, said global rice production is estimated to decline by 5 million

tonnes (mt) in 2026-27 (September-August) from 537.8 mt in 2025-26.

It projected the largest cuts for India (2 mt), Myanmar (1 mt), and the United States (1 mt).

World rice consumption is seen up 3.8 mt to 541.4 mt, driven by increases in South Asia, especially India, and sub-Saharan Africa as rice continues to be an important staple.

Global stocks are projected to decline 3.6 mt to 192.7 mt with the largest reductions in India, Cambodia, Indonesia and the US.

In contrast, China rice stocks are forecast to increase 3 mt to 108 mt, accounting for 56 per cent of global stocks.

The Agricultural Marketing Information System (AMIS), an arm of the UN's Food and Agriculture Organization (FAO), said global rice prices were mostly

steady currently, reflecting muted demand amid shipping disruptions. "India's export rates are stagnant as market faces slow demand," it said.

IRA STOPS THAI BUY

According to the Thailand Rice Exporters Association, the cereal's prices increased by about \$20 a tonne between May 6 and May 13. Vietnam has increased its rates by \$60 since April 1, while India and Pakistan have increased them by less than \$10 a tonne.

"We have revised up our

2026 annual average price forecast for CBOT-listed second month rice futures from \$11.2/cwt to \$11.9/cwt. In line with our view that optimism surrounding global supply prospects would ease from end-2025 levels, rice prices trended higher through early 2026, averaging \$10.7/cwt in January, \$11/cwt in February and \$11.4/cwt in March," said BMI.

Prices weakened briefly in April, slipping to \$11.3/cwt as supply fundamentals, particularly expectations of robust global stocks, reasser-

ted themselves. However, prices regained strength through early May, closing at \$12.2/cwt on May 8, the research agency said.

AMIS said Iraq had dropped out of the Thai rice market due to the blockage in the Strait of Hormuz. "Thai rice exports are seen recovering in the second half of 2026 if tensions in West Asia ease," it said. However, shipments from Burma and the US would decline.

HARVEST PROSPECTS

BMI said while bearish sentiment in the rice futures market remains evident, it has softened notably in Q1 2026.

"According to the US CFTC Commitment of Traders report, speculative positioning remained net short at 3,712 contracts as of May 5. This is below the consistently heavier net short positions recorded throughout 2025, when positioning

frequently exceeded 3,000 contracts," it said.

Though there was optimism over global rice production in 2025, the scenario has changed in 2026.

BMI said harvest prospects are weak in several major producers, including the US, Thailand, Vietnam, Pakistan and Brazil.

"We are cautiously optimistic regarding output for the first (monsoon) crop in India, Vietnam and Thailand, which together account for over 50 per cent of global rice exports, supported by stable near-term weather conditions and sufficient fertilizer availability," it said.

However, inventories, particularly in India, will provide buffer for any problem in the upcoming crop cycle.

Governments' policy support to overcome high fertilizer costs would help insulate yields, it said.

COMMODITY CALL.

Copper: Buy now at ₹1,340

Akhil Nallamathu
bl. research bureau

Copper futures (₹1,340/kg), after hitting a four-month high of ₹1,414 on May 13, have seen a drop in price.

However, the chart shows that the broader uptrend is intact, and we are likely to see a rebound.

The May contract, despite declining, continues to trade above the 21-day moving average, which is now at ₹1,318.

There is another support below this at ₹1,300, thus making the price range of ₹1,300-1,318 a good base.

RALLY TO RESUME

We expect the contract to resume the rally, either from the current market price or after extending the dip to the above mentioned support band.

Once the uptrend resumes, copper futures can retest the previous high of ₹1,414. A breakout of this can open the door for a rally to ₹1,520.

On the other hand, if copper futures breach the support at ₹1,300, the downturn can extend to ₹1,270 and then possibly to ₹1,255.

Until the support at ₹1,300 holds, traders are suggested not to consider short positions, whereas participants can use the dip to create fresh longs.

TRADE STRATEGY

Buy copper futures now at ₹1,340. Target and stop-loss can be ₹1,410 and ₹1,300, respectively.

'Higher global prices, tighter imports to boost oilseed output'

Our Bureau
Mangaluru

Higher global edible oil prices and tighter import supplies are creating a positive momentum for India's domestic oilseed sector, particularly mustard oil, according to Sanjeev Asthana, President of the Solvent Extractors' Association of India (SEA).

In his monthly letter to SEA members on Wednesday, he said domestic edible oil prices were moving in tandem with imported oil prices, thereby supporting mustard prices, which are currently ruling around ₹7,000 per quintal against the minimum support price (MSP) of ₹6,200.

Encouragingly, April 2026

KEY CATALYSERS. Sustained price realisations and improving market sentiment may encourage farmers to expand oilseed acreage during the upcoming kharif season

witnessed a record crushing of nearly 16 lakh tonnes (lt) of rapeseed-mustard, helping strengthen domestic edible oil availability while supporting better farmer realisations.

Asthana said the present trend is benefiting farmers through improved incomes and simultaneously reducing the government's burden relating to MSP procurement, storage and carrying costs,

thereby creating a positive situation for farmers, industry and the overall edible oil economy.

"Sustained price realisations and improving market sentiment may also encourage farmers to expand oilseed acreage during the upcoming kharif season, supporting domestic production growth over the longer term," he said.

SUNFLOWER BLOOMS

Stating that sunflower seed is also showing strengthening price alignment with MSP support, he said the government had increased MSP to ₹8,343 per quintal in 2026-27 from ₹7,721 in 2025-26 marking an increase of ₹622 per quintal, thereby strengthening price assurance and encouraging farm-

ers to expand sunflower cultivation alongside mustard.

He said that the second all-India castor crop estimate by SEA for the 2025-26 season had reported production at 17.16 lt, which is higher than last year's production of 15.90 lt.

Acreage under castor has also increased by around 3 per cent to 8.9 lakh hectares, while productivity improved to 1,928 kg/hectare.

"The improved crop outlook reflects better farmer participation and favourable productivity trends, which are expected to support the availability of castor seed and related value-added products during the year," he said.

Referring to the final crop estimates for rapeseed-mustard, Asthana said the total

production of rapeseed-mustard is estimated at 117.6 lt in 2025-26 compared to 115.2 lt last year.

COTTONSEED SUPPLIES

Termining the recently approved Mission for Cotton Productivity (2026-31) as another important development with long-term significance for the edible oil sector, he said higher cotton production would also lead to greater cottonseed availability and enhanced cottonseed oil production.

"In an import-dependent economy like India, every additional tonne of domestically produced edible oil contributes meaningfully towards reducing external dependence and strengthening national food security," Asthana added.

Gold edges up as Treasury yields ease

Reuters

Gold prices edged up as hopes for a resolution to the Iran conflict pressured oil markets, relieving some inflation fears and knocking US Treasury yields from their recent highs.

Spot gold gained 0.4 per cent to \$4,499.72 per ounce by 1310 GMT. Prices hit their

lowest in more than seven weeks earlier in the session. US gold futures for June delivery were 0.2 per cent lower at \$4,502.10.

Investors are now pricing

in a 48.6 per cent chance the Federal Reserve could raise rates in December, and an 89.6 per cent chance it maintains current rates at its next meeting in June, according to the CME FedWatch tool.

Spot silver rose 1.9 per cent to \$75.26 per ounce, platinum gained 0.5 per cent to \$1,932.37, and palladium was down 0.1 per cent at \$1,352.75.

Milma to hike milk price by ₹4 per litre from June 1

Our Bureau
Kochi

The Kerala Co-operative Milk Marketing Federation, popularly known as Milma, has decided to increase the price of milk by ₹4 per litre from June 1, considering the steep increase in production cost borne by the dairy farmers. A proposal in this regard was approved by the meeting

of the Milma Board. Of the enhanced price, ₹3.35 (83.75 per cent) will go to the dairy farmers and 25 paise to (6.25 per cent) to the dairy co-operative societies, said a press release.

BEHIND THE HIKE

The board was of the view that the drastic rise in production cost and low returns had hit dairy farmers in the

State hard, making a price increase inevitable to sustain the sector.

Besides the rise in input costs, drought-like conditions in several parts due to the extreme summer and increase in the price of milk procured from neighbouring States to make up the domestic deficit is also a factor for the hike. Also, geopolitical unrest in the Gulf region

and a subsequent rise in fuel prices resulted in a sharp rise in transportation and distribution costs of milk and milk products. The processing, packing and distribution costs had also gone up due to supply chain disruptions and higher price of essential materials.

The decision to increase the price of milk arose from the need to ensure dairy

farmers get a remunerative price to sustain them in the vital sector, Milma Chairman KS Mani said.

With the new price coming into effect, the procurement price for farmers will go up from ₹40.04 to ₹43.39 per litre. Customers will have to pay ₹28 for a 500 ml packet of homogenised toned milk, which is currently priced at ₹26.

ILL launches Granuvia insecticide for paddy crop

Our Bureau
Mangaluru

Insecticides (India) Ltd (ILL) has launched Granuvia, a next-generation, future-ready insecticide.

A media statement said Granuvia is recommended for application at 30-35 days after transplanting, a critical stage when paddy crops are the most vulnerable to pests.

Its simple broadcasting method makes Granuvia a distinctive solution. It provides up to 60 days of long-duration control against brown plant hopper and also helps farmers manage stem borer.

CONTINUING WOES

Pest infestations continue to impact rice productivity across India.

Last year, early and prolonged outbreaks of brown plant hopper affected millions of acres across multiple States. In severe cases, brown plant hopper can lead to yield losses ranging from 20-60 per cent.

Similarly, stem borer remains a major yield-limiting pest, typically causing 10-30 per cent crop damage.

Quoting Rajesh Kumar Aggarwal, MD of ILL, a statement said: "The launch of Granuvia introduces next-gen solution designed to deliver consistent, long-term pest control while improving overall crop health and productivity."

ಭಾರತ-ಇಟಲಿ ನಡುವೆ ₹2.24 ಲಕ್ಷ ಕೋಟಿ ವ್ಯಾಪಾರದ ಗುರಿ
ಮೊದಲನೇ ಫುಟುರಿಂದ...
ಆ ಬಳಿಕ ಕಳೆದ 3 ವರ್ಷಗಳಿಂದ ಉಭಯ ದೇಶಗಳ ನಡುವಿನ ಸರಣಿ ಮಾತುಕತೆ ಈಗ ಒಪ್ಪಂದಕ್ಕೆ ಬರಲಾಗಿದೆ. ಇದಕ್ಕೂ ಮುನ್ನ ಕಳೆದ ವರ್ಷ ಬ್ರಿಟಿಷ್‌ನಲ್ಲಿ ನಡೆದಿದ್ದ ಜಿ20 ಶೃಂಗಸಭೆ ವೇಳೆಗೆ 2025-29ರ ಜಂಟಿ ವ್ಯೂಹಾತ್ಮಕ ತೀರ್ಮಾನ ಯೋಜನೆಗೆ ಸಹಿ ಹಾಕಲಾಗಿತ್ತು ಎಂದು ಇಟಲಿ ಪ್ರಧಾನಿ ಜಾಕೋಯಾ ಮೋರಿಸಿ ತಿಳಿಸಿದರು.
ನಾವಿನನ್ನೇ ಕೇಂದ್ರ ಸ್ಥಾಪನೆ: ಭಾರತ ಮತ್ತು ಇಟಲಿ ದೇಶಗಳ ಕೃತಕ ಸಂಯುಕ್ತ ರಾಷ್ಟ್ರಗಳನ್ನು ತಂತ್ರಜ್ಞಾನ, ಬಾಹ್ಯಾಕಾಶ ಮತ್ತು ನಾಗರಿಕ ಪರಮಾಣು ಶಕ್ತಿಯಂತಹ ಕ್ಷೇತ್ರಗಳಲ್ಲಿ ಸಹಕಾರಕ್ಕಾಗಿ ಅವಾರ ಅವಕಾಶ ಹೊಂದಿವೆ. ಉಭಯ ದೇಶಗಳ ಇಟಲಿ ನಗರ, ಸಂಕೀರ್ಣದ ಕೇಂದ್ರ ಮತ್ತು ಕೈಗಾರಿಕೆ ಸಂಪರ್ಕಿಸಲು 'ಭಾರತ-ಇಟಲಿ ನಾವಿನನ್ನೇ ಕೇಂದ್ರ'ವನ್ನು ಸ್ಥಾಪಿಸಲಾಗುವುದು ಎಂದು ಘೋಷಿಸಿದರು.
ಉಗ್ರವಾದದ ವಿರುದ್ಧ ಹೋರಾಟ: ಜನಾಭಿಮಾನಿಗಳ ಪ್ರಜಾಪ್ರಭುತ್ವ ರಾಷ್ಟ್ರಗಳು ಭಯೋತ್ಪಾದನೆಯನ್ನು ಮಾತ್ರ ಹಿಡಿಸುವುದಿಲ್ಲ. ಅದರ ಹಣಕಾಸು ಜಾಲಗಳನ್ನು ಭಂಗುರಿಸಲು ಅಗತ್ಯ ಕ್ರಮಗಳನ್ನು ತೆಗೆದುಕೊಳ್ಳುವುದು ಎಂಬ ಸ್ಪಷ್ಟ ಸಂದೇಶವನ್ನು ಭಾರತ ಮತ್ತು ಇಟಲಿ ರವಾನಿಸಿ ಎಂದು ಪ್ರಧಾನಿ ಮೋರಿಸಿ ತಿಳಿಸಿದರು.
ಹಿಂದಿ ಪದ ಬಳಸಿ: ಭಾರತ ಮತ್ತು ಇಟಲಿ ನಡುವಿನ ದ್ವಿಪಕ್ಷೀಯ ಬಾಂಧವ್ಯದ ಕುರಿತು ಮಾತನಾಡಿದ ಮೋರಿಸಿ 'ಪರಿಶ್ರಮ' ಹೀ ಸಪ್ತಾಹದ ಕೇಂದ್ರ 'ಕೆ' (ಕೆಐಐ ಪರಿಶ್ರಮವೇ ಯಶಸ್ವಿ ಕೀಲಿ) ಎಂಬ ಪ್ರಧಾನಿ ತಿನ್ನುವ ಪ್ರೋಗ್ರಾಂನಲ್ಲಿ ಅವರು ಸಹ ಸಂವರ್ಧಕ ಅಥವಾ ಸಂಬಂಧ ಎಂದ ಅರ್ಥ ನೀಡುವ 'ಸಂಬಂಧ' ಎಂಬ ಹಿಂದಿ ಪದ ಬಳಸಿದ್ದರು.
