

Press Release

Clarification on Market Rumours – Industrial Gas Supply Disruptions

The Company has received multiple enquiries and has taken note of certain reports regarding potential disruption to its operations due to industrial gas supply related issues in the country on account of the conflict in the middle east.

In this regard, the Company would like to clarify the current status, as detailed below:

1. The Company has not experienced any significant disruption to operations at its manufacturing facilities on account of supply of industrial gas.
2. The Company has adequate levels of finished goods available across its supply chain network to meet market demand.
3. The Company uses various types of fuel across its manufacturing facilities viz. LPG, PNG, Biomass, Liquid fuels etc., and has the option of switching between fuels, where feasible, by making technical adjustments.
4. The Company will continue to closely monitor developments while taking appropriate steps to ensure continuity of operations. The Company remains fully confident of effectively managing the challenges that may arise in the future and will make necessary disclosures, as required, under the SEBI (LODR) Regulations, 2015.

We are fully confident that the Government of India is taking and will continue to take necessary steps to address the challenges, if any, that the industries may face, on account of the conflict in the middle east.

Rakshit Hargave
Chief Executive Officer and Managing Director
Britannia Industries Limited
