NCLT halts Byju's second rights issue

Issue launched on May 13 and was to end on June 13

ANEES HUSSAIN
Bengaluru, June 13

THE NATIONAL COMPANY Law Tribunal (NCLT) has restrained Byju's from going ahead with its second rights issue, which according to the investors commenced on May 13 and was to end on June 13.

The tribunal also directed Byju's from utilising any funds that it has so far collected from the issue, and the same needs to be deposited in a separate account.

"This tribunal hereby restrains the respondents (Byju's) from going ahead with the present rights issue which is in progress, till the disposal of the main plea. The respondents are further directed to keep the amounts collected so far since opening of the second rights issue...in a separate

■ The order was passed in an application filed by the investors of the company such as Peak XV Partners, General Atlantic and Prosus

account which should not be utilised till the disposal of the main petition," the order said.

In the order dated June 12, which was uploaded on the NCLT's website on Thursday, the tribunal also directed the

edtech firm to maintain status quo with regard to existing shareholders and their shareholding.

"Status quo with regard to existing shareholders and their shareholding shall be

maintained till the disposal of the main petition," the order stated.

The NCLT also directed Byju's to file the complete details of the escrow bank accounts from the opening of the first rights issue on January 29 till date in 10 days from June 12.

Byju's has also been directed to file the complete details of the allotment made on March 2 before the increase of authorised share capital.

"This must include information such as the name of the shareholder, equity shares held on January 27, entitlement as per rights offer and equity shares allotted on March 23 and also equity shares allotted after increase of authorised share capital, the order stated.

The order was passed in an application filed by the investors of the company such as Peak XV Partners, General

Atlantic, Chan-Zuckerberg Initiative and Prosus. The investors had filed a plea in the NCLT to halt Byju's second

rights issue as it would further dilute their holding in the company.

During the hearing, the investors alleged that Byju's had not deposited the money it received from rights issue prior to February 27 in the escrow account.

They also alleged that it allotted shares to those who participated in the rights issue, overlooking the tribunal's order to maintain status quo as far as the shareholding was concerned.

In its order on February 27, NCLT had directed Byju's not to allot shares to investors participating in the rights issue without increasing its authorised share capital. The company was also asked to keep the proceeds of the rights issue in an escrow account to protect investors' right.

The case will next come up for hearing on July 4.

The investors have also moved a contempt petition against Byju's for violating the tribunal's orders.

Practo revenue in FY24 rises 22%, losses down 90%

FE BUREAU
Bengaluru, June 13

HEALTHTECH STARTUP PRACTO, which offers a platform for online appointments for doctors, said on Thursday its revenue rose 22% year-on-year in FY24, while its adjusted Ebitda losses came in at 90% lower at ₹17 crore in the preceding year.

In the last quarter of FY24, the company managed to turn profitable on an Ebitda level and is on track for its second quarter of Ebitda profitability in Q1 FY25 and hopes to maintain it through the rest of the financial year. The company said its core business, which consists of software, appointment booking and telemedicine is currently profitable and is generating healthy cash flows.

Moreover, Practo's contribution margins rose to 40% in FY24 from -1% in FY22. "In the last year, the company observed significant growth in tier-2 and 3 markets, with revenues in these regions growing by 50%, while tier-1 markets grew by

20%," it said in a statement.

In FY23, Practo's revenue from operations fell 3.2% year-on-year to ₹204.4 crore, but it managed to cut its losses by 58% to ₹99.4 crore in FY23 due to lower advertisement and consultation costs.

Practo's B2C segment contributes nearly 80-85% of the overall revenue. While its health-care platform - which offers online appointment booking, e-pharmacy etc - is the heart of the business, the company is looking for expansion in its full-stack vertical that includes telemedicine, secondary care surgeries and co-branded clinics.

Adani's Aussie coal port gets \$33 mn private credit loan

THE ADANI GROUP unit that controls a major Australian coal port has obtained a private credit loan of about A\$500 million (\$333 million), according to people familiar with the matter.

The company North Queensland Export Terminal got the loan from Farallon Capital Management and King Street Capital Management, said people who asked not to be identified as the matter is private. Spokespeople at an Australian Adani Group company, Farallon and King Street declined to comment.

Australian coal-related companies are increasingly turning to higher interest-rate private loans as banks globally become more reluctant about providing financing to commodity-related companies due to ESG concerns.

Sydney-based coal miner Whitehaven earlier this year secured a \$1.1 billion loan to buy two mines, attracting 17 private credit lenders and only one bank, while a consortium led by Golden Energy and Resources Pte Ltd., controlled by Indonesia's Widjaja family, has also sounded out direct lenders. —BLOOMBERG

Brokers' commission doubles in Gurugram in a bid to boost sales

Sales up 12% while unsold inventory has fallen 35%

RAGHAVENDRA KAMATH
Mumbai, June 13

PROPERTY DEVELOPERS IN Gurugram have doubled commission to brokers to clear their under construction and ready-to-move in inventory.

"Many developers are giving 7-8% commission to brokers so that they get buyers fast which will help them clear their inventory," said head of a finance company. Real estate brokers normally get a brokerage of 2-4% across the country with brokers in the National Capital Region (NCR) getting close to the 4% range.

According to industry estimates, at least ₹5,000 crore worth of inventory has been sold in Gurugram in recent months where apartments are priced between ₹5-7 crore.

Besides, in Gurugram 'flipping charges' or transfer fees are being waived off in most cases to drive sales. This helps the buyers to further sell their apartments without worrying about registration, the NBFC head said. Flipping charges are levied when the

■ Inventory worth at least ₹5,000 crore has been sold in Gurugram

original allottee sells a flat before the flat is ready and is handed over to the buyer. Waiving off this charge helps in faster sale because this price does not get passed on to the buyer.

While launches in Gurugram have come down by 57% on a yearly basis, sales have gone up 12% and unsold inventory has fallen 35% in March quarter, at nearly 33,000 units, as per Anarock Property Consultants.

According to a head of a PE firm, transfer fee is non-existent in first and second sale.

"Since real sales are not happening, it will definitely lead to a bubble," he said, adding that such sales are 'parchi sales', which means change of property ownership without formal sale and without formal registration.

"Many developers are selling these flats to underwriters at ₹8,000 per square feet

which in turn the brokers sell at ₹9,000 or ₹9,500 per sq ft. It's nearly 20% margin for brokers."

Santhosh Kumar, vice chairman at Anarock Property Consultants said big developers are not doing this. "Bigger developers are not resorting to any tricks. But it is interesting to see who is buying so many flats," Kumar said.

Private equity investors such as Sunil Rohokale, chief executive and managing director, ASK group, said that there is no inventory issue in Gurugram as inventory levels are at an eight month low. However, Rohokale thinks there is disproportionate increase in prices.

"In the last two years, prices have almost doubled. Affordability will be at play at some time. If more supply comes, sales velocity and prices will be normalised," he said.

Mumbai third in housing price rise among 44 in Q1

FE BUREAU
Mumbai, June 13

MUMBAI ROSE TO the third position among the list of top 44 cities globally in terms of appreciation of housing prices during January-March 2024 period, according to a Knight Frank report. It was ranked sixth in same period last year.

New Delhi rose from seventeenth position to fifth in with a growth of 10.5% y-o-y, according to the Prime Global Cities Index Q1 2024 of Knight Frank. Bengaluru, however, observed a decline in ranking from sixteenth to seventeenth, even though it recorded a 4.8% growth in residential prices.

"Mumbai's significant rise on the international index was largely due to the rise in demand in the city. While the demand has been strong for all segments, we have seen a rise in the sale of

higher value products," Knight Frank said. Manila claimed the top spot with a 26.2% annual rise in prices which was the highest in the ranking this quarter. Tokyo jumped 17 places to be ranked second with a 12.5% y-o-y growth.

The Prime Global Cities Index is a valuation-based indicator tracking the movement of prime residential prices across 44 cities worldwide. The index tracks nominal prices in local currency. Shishir Baijal, CMD at Knight Frank India said, "Like its peers in these regions, the improved rankings of Mumbai and New Delhi on the Prime Global Cities Index was underscored by the resilience in sales growth volume. We expect the momentum of sales to remain stable over the next few quarters as the economic conditions are likely to remain broadly unchanged."
