What does privacy mean on social media?

with

Smriti Parsheera

Lawyer and public policy researcher

Big Tech — WhatsApp and Twitter — and the Indian government are at war over the new Information Technology Rules that came into effect last month.

The government wants major social media platforms to appoint key officials in India, and to enable tracking the first originator of a message.

This, the government says, is to maintain law and order, ensure national security, and hold foreign entities accountable in India.

The platforms have argued that the demands encroach upon fundamental rights of free speech and privacy. Multiple issues are now under litigation.

There is another question: do citizens have the agency to keep both the state and Big Tech out of their personal space?

Listen to lawyer and public policy researcher Smriti Parsheera answer these questions and more at the next session of **Explained.Live**.

Parsheera will be in conversation with
