- Production and sales of pipes (total operations) were down 15% YoY each

Order book position (including all operations): Current pipe order book stands at 601K MTs (Rs. 38 billion).

Commenting on the results, **Mr B. K. Goenka**, Chairman, Welspun Group said, "Q4 was driven by strong volumes leading to improvement in profitability. Though we are starting the new fiscal with a moderate orderbook position, strong demand in domestic market coupled with favourable policy measures taken by the Government of India presents a positive outlook for the year. We continue to take various measures for further strengthening our capabilities while maintaining financial discipline."

BUSINESS UPDATE

Please note all figures in this document, unless specified, are under IND AS basis. For I-GAAP comparison, please refer to our Q4FY17 presentation.

BUSINESS UPDATE

Business outlook:

India market outlook remains positive driven by various water projects across the country and expansion of National Gas Grid. Favorable policy measures taken by Government of India, including the recently announced National Steel Policy, would further drive demand in domestic market. Apart from benefiting the linepipe business, this would also have positive implications for our Plate and Coil Mill business.

Various industry trends like heavy oil development, deep sea development would drive the global linepipe demand. We expect good traction in international markets, especially North America, towards the second half of FY2018.

We continue to enhance our value proposition, customer reach and technical know-how which makes us one of the front-runners for increasingly diversified and technically demanding projects worldwide.
