SUB.: Receipt of Purchase Order for integration and upgradation of Combat Management System with TERMA radar on Royal Malaysian Navy frigate KD Jebat

Ref.: Regulations 30 of the SEBI (Listing Obligations & Disclosures Requirements) Regulations, 2015.

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform you that C2C Advanced Systems Limited has received a Purchase Order from the **Royal Malaysian Navy** for the **integration and upgradation of the Combat Management System with TERMA radar** on the frigate **KD Jebat**.

Platform Background and Programme Context

KD Jebat is a **Lekiu-class frigate commissioned into the Royal Malaysian Navy in 1999** and forms part of the Navy's frontline surface combat fleet. Over the lifecycle of such platforms, combat electronics and sensor suites are periodically upgraded to keep ships operationally relevant.

C2C had earlier delivered and modernised the **Combat Management System (CMS)** on Royal Malaysian Navy platforms, establishing the software and systems integration backbone that consolidates sensor inputs and supports combat decision making onboard the ship.

Building on that installed capability, the Royal Malaysian Navy has now awarded C2C the **integration upgrade to interface the TERMA radar with the ship's CMS**. The programme therefore represents the next stage of capability enhancement on the platform, where newly installed sensors are integrated into the combat system architecture already delivered by C2C.

This engagement demonstrates the **expandability and retrofit-readiness of C2C's Combat Management System**, which is designed to integrate evolving sensors and mission systems over the life of a naval platform. The programme also establishes an important **reference point**

in **Southeast Asia**, where several navies operate long-service vessels undergoing similar capability modernisation cycles.

Programme Schedule

This upgrade is the **first phase under an open purchase order**, with the programme expected to continue through **FY 2027–28**.

Outlook

Naval combat systems evolve continuously as new sensors and mission technologies are introduced. By providing the core integration layer on operational platforms, C2C is positioned to support similar upgrade programmes over the lifecycle of naval fleets.

The Company is currently engaged in discussions on several programmes and will make appropriate disclosures to the exchanges as and when these discussions translate into confirmed orders.

You are requested to take the above intimation on your record.

Yours faithfully,

For C2C Advanced Systems Limited

Manjeet Singh
Company Secretary

Annexure A

Sr. no	Particulars	Details
1.	Name of the entity awarding the order(s)/contract(s)	Royal Malaysian Navy
2.	Significant terms and conditions of order(s)/contract(s) awarded in brief	Integration and upgradation of the frigate KD Jebat's Combat Management System with TERMA radar
3.	Whether order(s)/contract(s) have been awarded by domestic / international entity	International entity
4.	Nature of order(s)/contract(s)	Systems upgrade, retrofit and integration
5.	Whether Domestic or International	International
6.	Order award date	As per Purchase Order
7.	Time Period by which the order(s)/contract(s) is to be executed	Within next 12 months
8.	Broad consideration or size of the order(s)/contract(s)	Not disclosed as the disclosure of such information could be prejudicial to the Company's commercial interests and competitive position.
9.	Whether the promoter/ promoter group/ group companies have any interest in the entity that awarded the order(s)/contract(s)? If yes, nature of interest and details thereof	No
10.	Whether the order(s)/contract(s) would fall within related party transactions? If yes, whether the same is done at "arm's length"	No
